Behavior Counseling Sciences Courses

**BCS 401S - PUBLIC POLICY PERSP PSYCH REHA**
The purpose of this course is to familiarize students with the historical and current contexts of shifts in public mental health care policies leading up to and including the development of psychiatric rehabilitation program approaches.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling

**BCS 402S - COMMUNITY SUPPORT SRV MNGMT**
This course recasts traditional case management models and methodologies into a framework that considers the advantages of services management on behalf of consumers in psychiatric rehabilitation programs. In particular, a strengths model is advanced, along with an emphasis upon defining and developing non-conventional community support resources.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling

**BCS 403S - PSYCH REHAB PROGRAM SUPERVIS**
The content of the class includes in leadership, supervisory styles, conflict resolution, and individual and program staff performance improvement methodologies. Students will gain direct experience in working alongside mentor in agency staff supervision.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling

**BCS 404S - PSYCH REHAB PROGRAM MANAGEMENT**
This course recasts traditional case management models and methodologies into a framework that considers the advantages of services management on behalf of consumers in psychiatric rehabilitation programs. In particular, a strengths model is advanced, along with an emphasis upon defining and developing non-conventional community support resources.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling

Computer Studies Courses

**CMPS 500S - MICRO APPLIC HEALTH CARE**
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**CMPS 530S - COMPUTER APPL IN HEALTH CARE**
Focuses on the effective use of microcomputers in a health care delivery system, including application packages for management documentation, research, and spreadsheet use.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**CMPS 532S - INFO SYSTEMS & MED INFORMATICS**
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**CMPS 703S - BIOMED COMPUTER APPLICATIONS**
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**CMPS 750S - ADVANCED COMPUTER APPLICATIONS**
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

Creative Arts in Therapy Courses

**ARTS 508S - DEVELOPMENTAL BODY MOVEMENT**
Covers the psychosocial aspects of normal movement development from infancy to adulthood, with material on disturbances in development and clinical implications.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):

**ARTS 509S - NORMAL & ABNORMAL DEVELOPMENT**
Provides an overview of major theories and models of developmental psychology, which are then applied to understanding the classifications of psychological disorders.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

**ARTS 510S - CLINICAL GUITAR METHODS**
Assists students in developing functional guitar methods within a variety of musical styles to facilitate music therapy processes.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

**ARTS 511S - CLINICAL PIANO METHODS**
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
ARTS 515S - CLINIC DIAGN PSYCHOPATHOLOGY I
Presents clear descriptions of diagnostic categories of psychopathology contained in the DSM-IV-R to enable clinicians and investigators to diagnose, communicate about, study, and treat mental disorders. Also discussed are biopsychosocial etiological factors of pathology and pharmacological methods of treatment.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 516S - CLINIC DIAGN PSYCHOPATHOLOGY II
Continues ARTS 516.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 518S - INTRO TO DANCE/MOVEMENT THERP I
Familiarizes students with dance/movement therapy processes, group process through movement interaction, and basic structures and techniques of D/MT as it relates to adult populations.
Credits: 1.50
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 519S - INTRO TO DANCE/MOVMT THERP II
Continues ARTS 518.
Credits: 1.50
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 518S

ARTS 522S - CLIN MUSIC IMPROV I
Explores the processes of musical improvisation in therapy. Emphasizes flexibility and knowledge of clinical improvisatory styles and skills, using a wide variety of instruments and the voice.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 523S - CLIN MUSIC IMPROV II
Continues ARTS 522.

ARTS 525S - THEORIES OF MUSIC THERAPY I
Provides an overview of clinical and research literature, along with video and audio examples related to child musical development.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 526S - THEORIES OF MUSIC THERAPY II
Covers the relationship of music therapy to psychodynamic and humanistic theories.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 529S - MUSIC THERAPY SKILLS I
Focuses on approaches and methods of music therapy as applied in mental health, mental retardation, and medical and physical disability for adult and child clinical populations.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 530S - MUSIC THERAPY SKILLS II
Continues ARTS 529.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 531S - ART THERAPY SKILLS-ADULT I
Uses lectures, group discussions, examination of art productions, and role playing to teach diagnostic and treatment skills with the adult clinical population. Examines normal and pathological art expression. Covers treatment implications for adults in different psychiatric settings and diagnostic categories.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

**ARTS 532S - ART THERAPY SKILLS-ADULT II**  
Continues ARTS 531.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy  
Pre-Requisites: ARTS 531S

**ARTS 535S - ART THERAPY SKILLS-CHILD I**  
Uses lectures, discussions, and examination of artwork and experiential art processes to teach about normal and pathological art expression in children. Emphasizes cognitive, emotional, and psychological developments reflected in the artwork of children as they relate to diagnosis and treatment issues in art therapy.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 536S - ART THERAPY SKILLS-CHILD II**  
Continues ARTS 535.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy  
Pre-Requisites: ARTS 535S

**ARTS 541S - CREATIVE ARTS THERAPY WKSP I**  
Offers an experiential/didactic learning format designed to give students an opportunity to understand processes and principles of art, dance/movement, and music therapy.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 542S - CREATIVE ARTS THERAPY WKSHP II**  
Continues ARTS 541.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 548S - PSYCHOLOGY OF MUSIC I**  
Covers the acoustics, psychoacoustics, and physiological and cognitive responses to music.  
Credits: 2.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 549S - PSYCHOLOGY OF MUSIC II**  
Reviews and tests research methods in subject areas covered in ARTS 548. Students collect and analyze data and make presentations in a chosen area of music therapy.  
Credits: 2.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 552S - EGO AND CHARACTER**  
This course addresses psychodynamic theory with emphasis on models of human development. The development of ego functions as they relate to specific stages of human growth are explores.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 554S - DANCE MOVEMENT THERAPY LIT**  
Examines theory and research in dance/movement therapy and nonverbal communication to build a body of knowledge of the field and to prepare students for consuming research and contributing to the literature.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 555S - SPEC ART THERAPY LIT**  
Examines and discusses literature from art therapy, psychology, and psychiatry to develop a familiarity with the writings and research in this professional sphere. Topics include art therapy with children; geriatric art therapy; art therapy with women who have eating disorders; and the multicultural dimensions of art therapy.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy
ARTS 556S - THEORY & ART THERAPY I
Using lectures and seminars, focuses on a psychodynamic approach to the creative process in diagnosis and treatment. Covers specific applications to clinical examples from DSM-IV diagnostic categories.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 557S - THEORY & ART THERAPY II
Continues ARTS 556.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 556S

ARTS 560S - INTRO TO ARTS MEDICINE
Introduces the tenets of arts medicine, including the prevention and treatment of injuries and illness of performers and other practitioners of arts; arts in hospitals programs and the workplace; creative arts therapies in pediatric and adult health care settings; arts in health care education; the role of the arts in recovering and healing from catastrophic illness and injury; and the use of the arts in communities for prevention or social improvement. Uses lectures, experiential learning, and student presentations. Guests from each of the arts medicine specialties will make presentations.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 580S - INTRO & CLIN APPL FAMILY THERA
Covers the theories and practices of family therapy. Views indications for the use of family therapy methods as means of remediation for deviant behavior and for strengthening natural groups in a community. Students present their arts therapy modalities within family therapy models.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 591S - FAMILY ART THERAPY
Reviews literature on family art therapy. Assesses, simulates, and discusses implications for the use of art in family assessments. Discusses different cultural and ethnic backgrounds in terms of the implications for family art therapy assessment.
Credits: 1.00
College: Nursing & Health Professions

ARTS 593S - FAMILY DANCE/MVMT THERAPY
Covers techniques using dance/movement therapy in the treatment and assessment of family systems, taught by faculty specializing in this integration.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 600S - THESIS RESEARCH I
Begins research work for a thesis, which is to be completed for graduation. Includes developing a hypothesis and writing a proposal. A summer independent study course with advisement.
Credits: 1.00 to 4.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 556S

ARTS 601S - THESIS RESEARCH II
Continues ARTS 600, from the proposal stage through thesis chapters.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 601S

ARTS 602S - THESIS RESEARCH III
Continues ARTS 601.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
Pre-Requisites: ARTS 601S

ARTS 603S - Career Counseling
This introductory course in career counseling covers theory and practice counseling of work and career form a lifespan perspective with attention to gender, race, ethics, and individuals with special needs. Includes didactic, experiential and computer-lab based learning methods.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
**ARTS 631S - MEDICAL DANCE/MOVEMENT THERAPY**

This course examines clinical work reported to date on dance/movement therapy for people with primary medical conditions. Theory from health psychology, psychoneuroimmunology and other mind/body approaches is included. The course involves readings, lecture, video, experimental exercises and discussion formats.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Program Level(s):  
Graduate Semester  
Pre-Requisites: ARTS 518S Minimum Grade: C and ARTS 519S Minimum Grade: C

**ARTS 700S - MULTICULTURAL ART THERAPY**

This course is designed to increase awareness and develop skills for art therapists, regardless of setting, who work with diverse populations. In the increasingly diverse environment of the United States we are constantly facing with a broad variety of peoples in our families, social situations, work environment, and clinical settings. Our understanding of the social, emotional, and political realities of others will influence our success as therapists. The class will explore the implications of culture, race, ethnicity, gender, sexual orientation, social class, and physical ability. Through the course readings, experiential exercises employing art, discussions, reflective writing, role play, and lecture multicultural issues will be examined and a framework presented for art therapists to learn how to be flexible, open, knowledgeable and competent with diverse individuals.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 702S - APPL ETHICS-CREATIVE ARTS THER**

Studies, in a seminar format, the ethical concerns in the practice and professions of art, music, and dance/movement therapy. Uses literature, lecture, guest lectures, and case discussion for problem solving and mastery of concepts.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 709S - STUDIO ART FOR ART THERAPISTS**

This is an independent study course in which graduate art therapy students are required to devote at least one hour a week (equivalent of 15 hours per semester) to working in the studio on their own art productions. They are required to demonstrate experimentation and development of knowledge of different art media. They are expected to demonstrate an increased awareness of knowledge of the psychological, cognitive, and emotional responses to their own creative art process. Students will be asked to keep a journal that recounts their experiences with the different media and art processes. There will be a review of the art process at the end of the semester with the entire class during which a discussion of their art process will be conducted.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy

**ARTS 710S - CHILD CASE PRESENTATION**

Gives students an opportunity to present a case of a child patient they have been working with under supervision in a clinical facility. Emphasizes students' understanding of psychiatric and creative arts therapies.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 711S - ADULT CASE PRESENTATION**

Gives students an opportunity to present a case of an adult patient they have been working with under supervision in a clinical facility. Emphasizes students' understanding of psychiatric and creative arts therapies.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 722S - Introduction to Group Psychotherapy and Psychology**

Surveys and compares major theoretical and experiential approaches to group therapy, with an emphasis on the moderately disturbed adult patient. Issues include the impact of socioeconomic and cultural factors in response to therapy. Students participate in a semester-long group experience from which faculty and students integrate data with literature from group dynamics and group therapy.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 724S - GROUP ART THERAPY**

Reviews foundational group dynamic theory and practice in consort with the dimension of art therapy. Examines the understanding of development and operation of a group as facilitated by the art therapy process.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

**ARTS 725S - INTRO TO JUNGIAN PSYCHOLOGY**
Surveys the history and principles of Jungian psychology and its application to the creative arts therapies.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 730S - LITERATURE SEMINAR I
Explores psychological, psychiatric, and arts literature, with emphasis on the interface between creativity; the response to the arts; art, music, and dance/movement therapy theory; psychological theory; and application to practice.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 731S - LITERATURE SEMINAR II
Continues ARTS 730, with emphasis on the arts and personality development through the study of artists' biographies.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 738S - LITERATURE SEMINAR - ART
Explores literature from the fields of art therapy, psychology, and psychiatry and their relevance to clinical practice and research. An advanced course emphasizing student presentation and critique of the material.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 739S - LITERATURE SEMINAR - MUSIC
Explores literature related to music therapy, music therapy philosophy, and the human response to music. Analyzes cultural, musical, and theoretical frameworks, with emphasis on integrating theory and music therapy practice in the development of each student’s style as a music therapist.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 740S - THERAPEUTIC APPL OF DANCE EDUC
This course presents and explores approaches to prevention and intervention through movement, in school settings, and with curricular areas (K-12) using the dance/movement focuses. Emphasizes experiential learning formats.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 743S - BEHAVIORAL RESEARCH CREATIVE A
Using didactic and seminar formats, this course introduces basic qualitative, quantitative and mixed method approaches to human and behavioral research. The course emphasizes applications to the creative arts therapies, preparations for the master’s thesis, and competencies as a consumer of research literature and as a beginning clinical researcher.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 744S - GROUP DYNAMICS SEMINAR
Offers advanced coursework in group dynamics and approaches to group therapy methods, emphasizing the closure process in relation to treatment and to the student’s transition from career training to work situations, and clarification of professional style.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 747S - THEORIES IN THERAPY I
Offers an overview of known and established theories of schools of psychotherapy. Presents for discussion material describing application in practice and integrates with modalities of arts therapies.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 748S - THEORIES IN THERAPY II
Continues ARTS 747.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy
ARTS 750S - CLINICAL HYPNOSIS  
Covers the fundamentals of clinical hypnosis—from inductions to interventions—and its applications in the creative arts therapies. Teaching methods include lectures, experiential exercises, demonstrations, and videotapes.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 751S - PEDIATRIC MEDICAL ART THERAPY  
This course will address theoretical issues and clinical applications of pediatric medical art therapy. Some of the topics to be covered in the course are: the history of pediatric art therapy; art therapy program development on a pediatric unit; assessment and treatment issues in pediatric art therapy; review of illnesses including psychological, socio-cultural and biological interfaces and implications; developmental interpretations of illness; the art therapist and the family of the pediatric patient; and the role of the art therapist in the interdisciplinary medical treatment team.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 752S - ADULT MEDICAL ART THERAPY  
This course will address art therapy with adults in the medical setting. Some of the topics to be covered are: the role of art therapy assessment for adult patients in the medical setting; individual and group art therapy treatment approaches; the art therapist and the family of adult medical patients; review of illnesses including psychological, socio-cultural and biological interfaces and implications; and developing a grant proposal for a specific medical population.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 753S - FORENSIC ART THERAPY  
Introduces the concept of forensic art therapy and a comprehensive overview of forensic issues. Explores legal proceedings, reporting mandates, testimonial capability, and evidentiary material, along with specific material relevant to forensic populations and practices. An experiential component features an expert witness forum and a mock court exercise.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 755S - ART THERAPY WORKSHOP  
Uses the art productions of the students in an experiential, controlled setting to facilitate increased sensitivity to group, creative, and therapeutic processes within an art therapy session. Students develop an awareness of and empathy for the patients they will treat.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 755S - ART THERAPY WORKSHOP  
Uses the art productions of the students in an experiential, controlled setting to facilitate increased sensitivity to group, creative, and therapeutic processes within an art therapy session. Students develop an awareness of and empathy for the patients they will treat.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 764S - MOVEMENT OBSERVATION I  
In experimental and didactic formats, students examine individual, relational, cultural, and psychological dynamics as manifested in expressive movement. Develops skills in observing, describing, and analyzing movement through the Laban Movement Analysis (LMA) System. Therapeutic implications with both individuals and groups will be discussed.  
Credits: 2.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy  
Pre-Requisites: ARTS 783S

ARTS 765S - MOVEMENT OBSERVATION II  
Continues ARTS 764.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
May not be enrolled in one of the following Major(s):  
Pre-Requisites: ARTS 764S

ARTS 766S - CLINICAL PRACTICUM I  
Introduces students to clinical practice as therapists within the current health care system. Students participate in clinical fieldwork, with both children and adults, which is supervised by a qualified therapist.  
Credits: 2.00 to 4.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 768S - CLINICAL PRACTICUM II  
Continues ARTS 766.  
Credits: 2.00 to 4.00  
College: Nursing & Health Professions  
Department: CNHP - Creative Arts Therapy  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Creative Arts in Therapy

ARTS 773S - CHILD DANCE/MOVEMENT THERAPY I
This experimental and didactic course familiarizes students with patterns of movement behavior in clinical disorders, and clinical methods of dance/movement therapy for children and adolescents. 

Credits: 1.50

College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 774S - CHILD DANCE/MOVMT THERAPY II
Continues ARTS 773.
Credits: 1.50
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):
Pre-Requisites: ARTS 773S

ARTS 775S - PSYCHOSOCIAL ASSESSMENT MOVMT
This course reviews the major instruments for clinical assessment in dance/movement therapy. The student refines skills in observing and evaluating body movement and nonverbal communication.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):
Pre-Requisites: ARTS 764S and ARTS 765S

ARTS 783S - ADVANCED SKILLS-ART I
Offers an advanced experiential seminar emphasizing the awareness of self and other responsiveness within the therapeutic relationship. Explores various art therapy skills and approaches to manage and understand situations that arise in art therapy between therapist and patient. Introduces topics of art therapy professional issues.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 784S - ADVANCED SKILLS-ART II
Continues ARTS 783.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 785S - ADV SKILLS-DANCE/MOVEMENT I
Uses experiential, discussion, and tutorial formats, to enable second-year students to examine and master applications of dance/movement therapy. Focuses on group work and on growth and wellness models.
Credits: 1.00

College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):
Pre-Requisites: ARTS 508S and ARTS 518S and ARTS 519S and ARTS 764S and ARTS 765S

ARTS 786S - ADV SKILLS-DANCE/MOVEMENT II
Continues ARTS 785.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Dance/Movement Therapy
Pre-Requisites: ARTS 508S and ARTS 518S and ARTS 519S and ARTS 764S and ARTS 765S

ARTS 787S - ADVANCED SKILLS-MUSIC I
Examines music and imagery approaches in therapy with individuals and groups in experiential learning formats.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 788S - ADVANCED SKILLS-MUSIC II
Provides students an opportunity to plan and lead group music therapy laboratory experiences with video analysis. Analyzes group models in music theory.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 790S - ADM CLINICAL INTERNSHIP I
Provides advanced supervised clinical therapy experience relating to student's chosen area of specialization.
Credits: 2.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):
Pre-Requisites: ARTS 766S and ARTS 768S

ARTS 791S - ADM CLINICAL INTERNSHIP II
Continues ARTS 790.
Credits: 3.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):
Pre-Requisites: ARTS 790S
ARTS 792S - ART THERAPY IN EDUC SETTINGS
This elective course is designed to provide the student with an introduction to art therapy and the educational setting. The educational setting will include preschool through 12th grade. The educational process will be explained in terms of the Child Study Team and Individualized Education Plans. Additionally, these components will be evaluated to determine their influence on the cognitive, social and emotional development of each student. Emphasis will be placed on incorporating individual and group art therapy sessions into the school setting to aid in student, staff and parent growth in terms of self-esteem, behavior management and conflict resolution.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 800S - REGISTERED FOR DEGREE ONLY
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Pre-Requisites: ARTS 600S and ARTS 601S and ARTS 602S

ARTS 801S - KESTENBERG MOVEMENT PROFILE
Students learn the fundamentals of the Kestenberg Movement Profile (KMP). Using videotape, didactic and experiential formats, students learn this assessment of psychosocial development through body movement. Clinical applications and cross-cultural issues are integrated. The focus of the course is on qualitative data.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
May not be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 803S - REGISTERED FOR DEGREE ONLY
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Pre-Requisites: ARTS 600S and ARTS 601S and ARTS 602S

ARTS 804S - INCREAS SPONT USING DRAMA THER
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 805S - MOVING INTO INTERCULT UNDRSTAND
Moving Into Intercultural Understanding: Exploring Race, Culture and Ethnicity through DMT
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy

ARTS 806S - KESTENBERG MVMT PROF CONST I
Kestenberg Movement Profile Construction I: Tension Flow Rhythms, Bipolar Shape Flow and Unipolar Shape Flow
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Pre-Requisites: ARTS 801S

ARTS 807S - MVG AWAY FROM VIOL: VIOL PREV
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy

ARTS 830S - MENTAL HEALTH SCIE SUP I
Provides regular supervision from a psychologist, psychiatrist, or other qualified mental health clinician. Focuses on the student's initial clinical work, forming a professional identity, and understanding the role of the creative arts therapist on multidisciplinary treatment teams and in health care systems.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 831S - MENTAL HEALTH SCI SUP II
Continues ARTS 830.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 833S - GROUP SUPERVISION I
Explores media and techniques for treating specific mental and developmental disorders in children, adolescents, and adults in art therapy clinical practice in a small-group format. Students present case material from their practicum experiences.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 834S - GROUP SUPERVISION II
Continues ARTS 833.
Credits: 1.00
ARTS 841S - ADV GROUP SUPERVISION I
Covers professional identity, role-related issues, multidisciplinary teamwork, and dynamics of the health care system in the context of group problem solving and methods for addressing specific clinical needs in children, adolescents, and adults in various settings.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 842S - ADV GROUP SUPERVISION II
Continues ARTS 841.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 851S - ADV MENTAL HEALTH SCI SUP I
Provides supervision from a qualified clinician (psychiatrist, psychologist, social worker, etc.). Students present and explore their clinical experiences related to the therapeutic relationship, process of therapy, and their own development as therapists.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

ARTS 857S - ADV MENTAL HEALTH SUP II
Continues ARTS 851.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Creative Arts Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Creative Arts in Therapy

EMSS 415S - EMS LAW AND LEGISLATION
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 501S - OVERVIEW OF EMS

EMSS 515S - TELECOMMUNICATIONS & COMPUTERS
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 601S - EMS SYSTEM EVALUATION
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 615S - EMS PLANNING & FISCAL APPL
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 620S - EMS MANAGEMENT
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 621S - PLANNING & ADMIN THEORY
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 705S - FIN ASPC EM HEALTH DELIV SYSTE
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

EMSS 708S - SPECIAL TOPICS III
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - EMS Graduate

English Courses

ENGL 525S - LITERATURE AND PSYCHOLOGY
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

Family Therapy Courses

FMTH 500S - SYSTEMS & COMMUNICA THEORY
This course focuses on the introductory framework for the students' theoretical development. This student will be exposed to the basic constructs of Systems and Communication Theory.
Credits: 3.00
FMTH 501S - BEHAV MODELS OF FAMILY THERAPY
This course covers the basic behavioral approaches to Couple and Family Therapy. It includes an exposure to Behavioral Marital, Cognitive-Behavioral, Behavioral Family, MRI systematic, Milan and the Strategic/Communication Approaches. Practical applications and attention to context variables such as Race, Class, Ethnicity, and Diversity in couple and Family Structures is emphasized.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 503S - FAMILY EVALUATION
Introduces couple and family therapy students to the basic assessment issues in the field.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 506S - STRATEGIC FAMILY THERAPY
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 508S - CONTEX THEORY & THERAPY 1
Explores the invisible relational determinants in families that sustain them and limit the life options of family members. Determinants are considered in both normal and abnormal manifestations.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 509S - CONTEX THEORY & THERAPY 2
Prepares students to apply contextual therapy principles to a broad range of clinical conditions, societal issues, and treatment settings.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 511S - INTRO TO FAMILY THERAPY
Introduces systems theory and the foundational concepts of family therapy theories.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 512S - CUTTING EDGE THERAP IN CFP
This course will examine therapeutic models recently developed in the field of marriage and family therapy. Students will examine the strengths and weaknesses of each model and critique them in relation to issues of power, privilege, and oppression. Clinical practices from each model will be explored and demonstrated.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Pre-Requisites: FMTH 511S

FMTH 514S - SYSTEMS & COMM THEORY
This course focuses on the introductory framework for the students' theoretical development. The student will be exposed to the basic constructs of Systems and Communication Theory.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 515S - THE THERAPIST EXPERIENCE
Explores the therapist's relations with his or her own family of origin, along with the possible effects on the therapeutic process.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 516S - THERAPIST EXPERIENCE II
Continues FMTH 515.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 520S - HISTORY & SOCIOCULT INFLUENCE
Introduces students to an examination of the family in a broader social context and to the sociocultural concepts that define the context of human experience.
Credits: 3.00
FMTH 524S - CHILD DEVELOPMENT
Integrating a multicultural perspective, examines child development and child-presenting problems in the context of the family system.
Credits: 3.00

FMTH 526S - FAMILY LIFE CYCLE
Increases students' awareness of the impact of the family life cycle on individual, couple, and family functioning. Sensitizes students to issues of race, gender, sexual orientation, ethnicity, and culture as families move through the life cycle.
Credits: 3.00

FMTH 528S - SUBSTANCE ABUSE & FAMILY
Examines substance abuse in the context of the family and the larger social system.
Credits: 3.00

FMTH 550S - LEGAL ETHICAL IMPLICATIONS
Introduces students to ethical and legal issues that may arise in the course of family treatment, including confidentiality and its limits, record keeping, custody cases, abuse, privilege, licensure, and informed consent.
Credits: 3.00

FMTH 555S - STRUCTURAL FAMILY THERAPY
Introduces the theory and practice of structural family therapy, with a special emphasis on social context in therapy and the person of the therapist.
Credits: 3.00

FMTH 565S - RES MARRIAGE & FAMILY THERAPY
Reviews the basic knowledge of couple and family therapy research, familiarizing students with methods and tools for conducting research with couples and family.
Credits: 3.00

FMTH 566S - SPIRITUALITY & FAMILY THERAPY
This course focuses on both the spirituality of the therapist and the client(s) as significant resources in relational healing. The purpose and design of this course is to bring the spiritual dimensions of the therapeutic process to the conscious level of the therapist and to highlight spirituality as a significant resource for healing.
Credits: 3.00

FMTH 568S - INTRO TO BEHAVIOR RESEARCH
Credits: 2.00

FMTH 571S - THE CREAT ARTS & FAMILY THERAP
Credits: 1.00 to 2.00

FMTH 575S - MARITAL AND SEXUAL THERAPY
Examines the theory and practices of couples and sex therapy. Introduces students to theory and practice of couples and sexual functioning.
Credits: 3.00

FMTH 576S - ADV MARITAL/SEXUAL THERAPY II
Continues FMTH 575. Offers advanced coursework on treating couples and sexual dysfunction.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 601S - PRACTICUM I**
Prepares students, through didactic experience, for clinical placement in a professional setting. Prerequisite for all other practicum courses.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 602S - PRACTICUM II**
Provides supervised clinical experience.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 603S - PRACTICUM III**
Provides supervised clinical experience.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 604S - PRACTICUM IV**
Provides supervised clinical experience.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 605S - PRACTICUM V**
Provides supervised clinical experience.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 606S - PRACTICUM VI**
Provides supervised clinical experience.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 607S - PRACTICUM VII**
Provides supervised clinical experience.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 608S - PRACTICUM VIII**
Provides supervised clinical experience.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

**FMTH 701S - SPIRITUALITY AND FAMILY THERPY**
This course focuses on both the spirituality of the therapist and the client(s) as a significant resource in relational healing. The purpose and design of this course is to bring the spiritual dimension of the therapeutic process to the conscious level of the therapist and to highlight spirituality as a significant resource for healing.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

**FMTH 704S - Trauma and Families**
Using a relational frame of reference, this course will examine the nature of trauma, and its impact on individuals and systems. Different forms of both immediate and long-term trauma will be explored, along with defining characteristics (e.g., Post-Traumatic Stress Disorder). Assessment approaches and methods, as well as intervention approaches and methods are covered.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

**FMTH 708S - NOSOLOGY**
Reviews the classification of diseases in medicine and psychiatry. The DSM-IV classification of mental disorders serves as a basis for a systematic review of mental disorders and their commonly recommended treatments.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 709S - GROUP PROCESS SEMINAR
Credits: 1.00 to 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 713S - ADV THEORY & COMP ANALYSIS
This course focuses on the comparative analysis of the major theories used in the study, assessment and understanding of family interaction.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Pre-Requisites: FMTH 511S and FMTH 514S

FMTH 714S - GENDER & POWER IN CFT
This course will cover theory on gender from a couple and family therapy and multidisciplinary perspective. The influence of gender in the field of couple and family therapy, specific theory of gender roles in families, organizations, and intimacy will be studied utilizing both power and contextual lens. Students must complete either FMTH729 or FMTHS20.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Pre-Requisites: FMTH 729S and FMTH 520S

FMTH 715S - AVD APPLIED RES: QUALITATIVE
This course is intended for doctoral-level students to follow and build upon the ideas developed in RESEARCH METHODS I & II, and INFERENTIAL STATISTICS. It is designed for students who intend to pursue a primarily qualitative dissertation project. In this course, the focus will be on advanced research design methodology, and the application of advanced qualitative statistics.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Pre-Requisites: FMTH 780S and FMTH 781S and FMTH 782S

FMTH 716S - FAMILY THERAPY APPR CHILD ABUS
This course will cover the definition and incidence of all types of child abuse and neglect from a couple and family therapy perspective. Treatment of children, adolescents, the family and adults as children will be examined from culturally competent framework.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 717S - ADV APPL RESEARCH: QUANTITATIV
This course is intended for doctoral-level students to follow and build upon the ideas developed in RESEARCH METHODS I & II, and INFERENTIAL STATISTICS. It is designed for students who intend to pursue a primarily quantitative dissertation project. In this course, the focus will be on advanced research design methodology, and the application of advanced quantitative statistics.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Pre-Requisites: FMTH 780S and FMTH 781S and FMTH 782S

FMTH 718S - ADVANCED CONTEX THERAPY I
Provides live demonstrations of contextual therapy with families. Over the semester, families are interviewed or seen in ongoing therapy.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 719S - CONTEX THERAPY IV
Explores the invisible relational determinants in families that sustain them and limit the life options of family members. Considers determinants in both normal and abnormal manifestations.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 722S - FAMILY IN LITERATURE
Credits: 1.00 to 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 726S - SYMBOLIC EXPER FAMILY THERAPY
Credits: 1.00 to 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 727S - OBJECT RELATIONS THEORY
Focuses on understanding object relations theory and its application to the treatment of individuals, couples, and families.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 728S - INTRO OBJECT RELATION THEORY
A study of the theory and practice of cognitive therapy.
Credits: 2.00 to 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
FMTH 729S - COUP&FAM THERAPY: MULTICUL APP
Encourages students to think critically and analytically about the similarities and differences between culturally diverse families.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 730S - FAM THERAPY - EDUCAT SETTINGS
Focuses on integrating knowledge of child development and family theory with clinical applications and with the research and sociopolitical contexts that shape them.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 735S - DSM-III BASICS
Credits: 1.00 to 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 736S - DIVERSE FAMILY STRUCTURES
Explores the salient issues in various families, such as divorced, remarried, same sex, single-parent, and biracial.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 737S - PSYCHOEDUC & FAMILY THERAPY
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 738S - ASSESSMENT&DIAGNOSIS-COUP/FMTH
Introduces students to theory and instruments in the areas of diagnosis and assessments in couple and family therapy.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 739S - COUPLES THERAPY
Views dyadic therapy as a distinct discipline with a rich history based in both individual and systemic theories.

FMTH 740S - HANDICAP CHILDREN & FAMILY
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 741S - COUPLE&FAMILY THERAPY SUPERVIS
Assists students in understanding a variety of supervision modalities and in developing a model of supervision with couple and family therapists.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 742S - DEVELOP COUP-FMTH RESEARCH
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 744S - SEXUAL FUNCTION & DYSFUNCTION
Couples therapy and sexual issues in family functioning, described in terms of their premises and therapeutic processes.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 745S - BOWEN THEORY
Offers a brief review of the history and development of the life work of Murray Bowen, M.D., and an overview of the resulting theory of human behavior, its interactive components, and applications.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 746S - DOM VIOLENCE: A CULTUR APPR
Introduces students to sociocultural theory and practice in the area of domestic violence.
FMTH 750S - INDEPENDENT STUDY
Credits: 1.00 to 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 751S - POSTMODERN THEORY & FAM THERAPY
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 755S - THESIS PROPOSAL SEMINAR
Credits: 1.00 to 2.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 780S - RESEARCH METHODS I
Emphasizes the process of research and evaluation used by scientist/practitioners to develop and assess therapeutic interventions.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 781S - RESEARCH METHODS II
Emphasizes the process of developing a research study, specifying the methods and design involved in the study, putting concepts into operation, choosing appropriate measures, and writing a proposal. Students are encouraged to use the course as a vehicle for the dissertation proposal.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 782S - INFERENTIAL STATISTICS
Familiarizes students with social research methods and measurement, with emphasis on inferential statistics, research design, and evaluation.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 800S - THESIS DEFENSE
Credits: 1.00 to 5.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 802S - THESIS RESEARCH
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 803S - DISSERTATION
Credits: 1.00 to 18.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 804S - CLINICAL INTERNSHIP
Credits: 1.00 to 15.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 805S - DOCTORAL DEFENSE
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 806S - REGISTERED FOR DEGREE ONLY
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 807S - REGISTERED FOR DEFENSE ONLY
Credits: 7.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy

FMTH 810S - EVALUATION RESEARCH
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
FMTH 815S - ADVANCED APPLIED STATISTICS
Provides students with research skills to manage, analyze, and present research data using computerized statistical packages.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Family Therapy
Restrictions:
Must be enrolled in one of the following Major(s):
Couple and Family Therapy
Family Therapy

FMTH 995S - PhD Dissertation Companion
Credits: 1.00 to 9.00
College: Nursing & Health Professions
Department: Graduate Studies

General School of the Health Professions Courses

GSHP 510S - RESEARCH IN EDUCATION
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

Management Courses

MGMT 510S - HLTH-CARE INFO SYS & INFORMATI
Examines current topics in health care informatics and their application. Covers the Internet, online databases, research-related services, and trends in information delivery across a broad health care spectrum.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

MGMT 520S - LEADERSHIP AND MANAGEMENT
Offers a critical analysis of topics related to PA education in educational law, human resources, budgeting, and academic governance. Explores theories of leadership and management with application to the academic environment in PA education.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration
Nursing Courses

NURS 501S - REG AGEN IN NURSING&HLTH CARE
The purpose of this course is to explore the four major agencies that regulate nursing and health care in the USA. Specific attention will be placed on the Joint Commission Accreditation for Health Care Organization (JCAHO); the Occupational Safety and Health Administration (OSHA); the State Department of Health; and, the Board of Nursing.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 503S - INTRO TO NURSING MANAGEMENT
This online course presents an overview of concepts important to nurse managers in today's changing healthcare environment. Modules in leadership, finance, human resources, health care delivery, and ethical decision-making allow the student to identify and begin to address issues pertinent to their role.
Nurses may choose to take this course for continuing education credit or they may use this course as a 3-credit elective towards an MSN degree at Drexel University.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 504S - CASE MGMT IN MANAGED CARE
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 505S - ADV PRACT HLTH POL ISS MAN CAR
Addresses the changing health care arena. Focuses on the application of leadership, systems, change, managed care, management, and ethical theories in varied health care environments. Discusses issues affecting advance practice. Explores the impact of managed care on the health care delivery system-locally, nationally, and globally. Also covers fiscal issues and their relationships to the legal and ethical aspects of care.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 506S - A COMMUNITY BASED ART ATELIER
As an opportunity to explore art as expression, students will participate in a weekly art experience with adult community participants in an art studio setting. This course serves to directly involve nursing and health professions graduate students in the process of creativity and the promotion of expression through hands-on experience in the visual arts. Art serves as the medium through which students engage their imaginations and give vent to their creativity.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 508S - IMPROV SYSTEM HEALTH PROMOTION
This course addresses the health of populations from a systems perspective. Applying epidemiological concepts, students investigate the leading causes of illness and injury. Using a multilevel-intervention model, students plan and evaluate programs that address the leading health problems as identified in Healthy People 2010. Concepts and tools of continuous improvement serve as the foundation for health promotion efforts.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 509S - GROUP THERAPY AND PRACTICE
Credits: 3.00
College: Nursing & Health Professions
NURS 510S - THEORY AND RESEARCH I
This is the first in the sequence of two research courses required in the graduate nursing program. It focuses on providing students with the fundamental skills needed to translate nursing problems into researchable questions and to design a methodologically sound study to address those questions. An underlying theme is the role of the advanced-practice nurse as decision maker. Commonly encountered research designs are contrasted and discussed with respect to appropriateness and validity and reliability issues. Critiques of published research focus on study methodology and design. Relationships among theory, research, and practice are explored, as are ethical considerations and problems frequently encountered when conducting research in health care settings. Other topics covered include data collection, selection of measurements, observational methods, self-report, and basic data analysis strategies.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 511S - EPIDEMIOLOGY
This course focuses on the concepts, principles, and uses of epidemiology and biostatistics in the analysis of determinates of health and disease. Population-based collection and analysis of health data and their relationship to the utilization of health services will be emphasized. Application of epidemiological methods to communicable and chronic diseases will be discussed and critically analyzed.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 512S - PUBLIC HEALTH ETHICS
This course is a graduate seminar designed for the students in the Master's in Public Health Nursing program. Texts and journal articles will be used to introduce topics and familiarize students with some of the major views and policy statements on various issues, including multiple cultural perspectives. However, the seminar will be discussion oriented. By listening and responding to the faculty and their colleagues, students will be encouraged to consider how their own views can be integrated with their professional practice and will develop an improved understanding of the views of others. Some of the topics to be addressed will include the definition of health, defining populations, human rights, individual versus community well-being, the limits of prevention, and specific topics in substance use, violence and injury prevention, infectious diseases, justice and health care, reproduction and genetics.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 513S - WOMEN'S HEALTH ISSUES
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 514S - MENTAL HLTH ISSUES: PRIMARY CA
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 515S - MANAGING PEDIATRIC EMERGENCIES
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 516S - EVOLUTION OF A DISEASE: HIV/AI
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 517S - COMMON OFFICE PROCEDURES
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 518S - ALTERNATIVE/COMPLIMENT THERAPI
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 521S - ADVANCED PATHOPHYSIOLOGY: CRNA
Complex concepts of pathophysiology essential to the care of individuals with alterations in health status throughout the life cycle are emphasized, enabling the student to understand the pathophysiology that underlies dysfunction. This information will enable the student to analyze and address physiologic challenges to practice and provide a foundation to pursue nursing research.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Nursing Anesthesia

NURS 522S - ENVIRONMENTAL HEALTH ISSUES I
This course provides the basic tools for assessing the health impacts of environmental exposure to toxic substances and identifies potential environmental health threats. The effects of toxic substances on major organ systems in the human body are discussed as well as the mechanisms by which those effects are produced. Pertinent case studies are reviewed and students are encouraged to collect resources and information to help answer environmental health questions related to their area of practice. This course is appropriate for healthcare
providers and others in the healthcare arena seeking knowledge that will help protect the public from environmental exposures to hazards in their work, home and community environments.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 524S - NURSING INFORMATICS
This is a required course to complete the Master's in Nursing Informatics curriculum. It will provide an introduction to the integration of information science and the discipline of nursing. The student will gain an understanding of how information science, computer science and information systems impact nursing care delivery, and how information theory supports the delivery of nursing care. Additionally, the student will gain an understanding of the nurse information scientist role. Finally, the student will develop an understanding of how some of the emerging trends in information science and information systems can enhance nursing care delivery.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 525S - NSG CARE OF THE CHEM DEP CLIN
An elective course for students enrolled in the MSN program. This course addresses the assessment, medical and nursing management of chemically dependent clients. Particular attention is paid to the various chemical substances that are currently abused in the USA.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 531S - ISSUES IN ADOLESCENT HEALTH
This course will provide the student an opportunity to study common issues related to the care of the adolescent patient. Issues such as developmental milestones in early, middle and late adolescence, general health concerns, self-esteem and body image, puberty and sexual issues in males and females, nutrition and eating disorders, mental health and suicide, alcohol and substance exploration and abuse, will be explored. The role of the Advanced Practice Nurse as provider to this population will be included.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 532S - INTRO TO HEALTH CARE ETHICS
This course introduces the student to the basic elements and ideas that constitute the field of health care ethics. The course will include a framework of ethical theory, principles and values analysis, and will apply these elements through case-based learning and discussion. Weekly discussion will be encouraged to identify and confront the ethical issues students come in contact with and analyze them using ethical theory, principles and values analysis. Assessment would be through weekly preparation and participation and participation in the assignments and two written essays, one due at mid-term point and a final. Essay length and format to be determined.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 548S - HEALTH ECONOMICS
The course will begin with an overview of micro and macro economic theory as the basis for further discussion of the economics of health. The course will focus on the fundamental principles of health economics, supply and demand as they pertain to health, medical care and health insurance, and market assumptions and failures.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 551S - INDEPENDENT STUDY I
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 552S - INDEPENDENT STUDY II
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 560S - OVERVIEW OF ANESTHESIA I
This two-semester course (with NURS 562) introduces students to the specialty of nurse anesthesia and focuses on core knowledge and the development of basic anesthesia skills that will prepare them to participate in the anesthesia management of patients undergoing a variety of surgical and diagnostic procedures. The course focuses on anesthetic and anesthetic-related drugs. Students undertake an in-depth analysis of the pharmacokinetics and dynamics of the following drug classifications: inhaled anesthetics, opioids, agonists and antagonists, barbiturates, benzodiazepines, non-barbiturate induction drugs, local anesthetics, neuromuscular blocking agents, anticholinesterases, anticholinergics, and non-opioid and non-steroidal analgesics. Forty-five hours of chemistry and physics are interpolated in this course and in NURS 561, 660, and 661.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions: Must be enrolled in one of the following Major(s): Nursing Anesthesia

NURS 561S - BASIC PRINCIPLES OF NURSE ANES
This course is designed to teach students about equipment generic to routine nurse anesthesia care. Topics of discussion include medical gas cylinders and containers, medical gas distribution, anesthesia machines, vaporizers, breathing systems, and anesthesia ventilators. Other topics include the design, function, and use of oropharyngeal and nasopharyngeal airways, face masks, endotracheal tubes, laryngoscopes, and vigilance aids and monitors.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions: Must be enrolled in one of the following Major(s): Nursing Anesthesia
NURS 562S - OVERVIEW OF ANESTHESIA II
Continues NURS 560.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 565S - NURSE ANESTHESIA CLIN. PRACT.
This two-semester course (with NURS 566) introduces students to the
clinical practice of nurse anesthesia. Students administer anesthesia
under the direct supervision and instruction of either certified
registered nurse anesthetists (CRNAs) or anesthesiologists. The
correlation of clinical experiences with didactic knowledge is
accomplished in NURS 562 for Clinical Practicum I and in NURS 660 for
Clinical Practicum II. These clinical courses follow a noncredit first
semester of clinical orientation designed to acclimate students to their
respective clinical sites, the perioperative environment, and the
practice of nurse anesthesia.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 566S - NURSE ANESTHESIA CLIN PRACT II
Continues NURS 565.
Credits: 3.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 580S - DIAG REAS PSYC MENT HLTH NP I
This course introduces students to the role of psychiatric-mental health
nurse practitioner. It focuses on integrating core and support course
content into the assessment and management of the common mental
disorders of schizophrenia and mood disorders. Legal and ethical issues
are explored as are the therapeutic and differential diagnostic process.
An overview of psychopharmacology is provided. Clinical practicum is
required concurrently.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Nursing Anesthesia
Pre-Requisites: NURS 520S and NURS 600S and NURS 605S

NURS 591S - CONTINUOUS IMPROVEMENT SEMINAR
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree

NURS 604S - ENVIRONMENTAL HEALTH ISSUES II
This second course in the certification program draws upon the basic
principles and examples of environmental toxins and hazards presented
in the first course as a basis for discussion of a series of topics of special
concern to professional dealings with environmental health issues.
Vectors will be discussed in depth with a focus on carcinogenicity,
mutagenicity, air and water pollution, and food toxins. The impact of
these vectors on the health of populations will be stressed. Vulnerable
populations will be discussed.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree

NURS 605S - PHARMACOLOGY & ADVANCED PRACTI
Expands the study of the actions and effects of drugs on the human
system throughout the life cycle. Students analyze the scope of legal
and professional nursing responsibilities related to pharmacology in an
expanded nursing role. They study pharmacologic mechanisms of
action, effects on organ systems, routes of administration,
pharmacokinetics, therapeutic uses, considerations related to age and
physiologic state, adverse reactions, contraindications, and interaction
drugs.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Nursing Anesthesia

NURS 606S - RN FIRST ASSISTANT
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree

NURS 607S - ENVIRONMENTAL HEALTH ISSUE III
The third course in the environmental health series is devoted to two
major topics: exploration of environmental exposure issues arising in
the workplace and development of skills essential to the clinical
management of hazardous exposure crises, including aspects of bio-
terrorism. The workplace ranks high on the list of places of potential
exposure of toxic chemicals. This course will provide an in-depth view
of the workplace focusing on recognition and prevention of
occupational disease and injury in general, as well as in selected
workers, agricultural workers, and health care workers. Aspects of bio-
terrorism will also be addressed in this course addressing exposures for
healthcare workers, modes of transmission and hazard identification.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree

NURS 609S - PSYCHOPHARMACOLOGY
This course is intended for Advanced Practice Nurses who work with
patients requiring psychopharmacologic interventions. This course will
address common presenting complaints, which may require
pharmacologic management. Common psychotropic medications and
drug classifications will be addressed. Focus will be on management considerations for the practitioner including patient assessment, target symptoms for pharmacologic treatment, commonly seen side effects needing monitoring or management, drug efficacy, outcome measures, identification and treatment of refractory symptoms, lab studies, alternative treatment options and referral. Case studies will be used to illustrate key issues in assessment and management.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 610S - RESEARCH II
This is the second in the sequence of two research courses required in the graduate nursing program. It builds on the content covered in NURS 510 and provides students with the opportunity to apply that knowledge by developing a research proposal to study a problem in their identified areas of interest. Specific content to be covered includes inferential statistical procedures, hypothesis testing, multivariate analysis techniques, power analysis, and an overview of program evaluation. Students are expected to take an active role in identifying their learning needs and in functioning collaboratively with peers. The decision-making role of the nurse researcher and practitioner is emphasized, along with communication skills essential for preparing for research.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Pre-Requisites: NURS 510S

NURS 615S - HEALTH CARE AND CULTURE
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 616S - PUBLIC HEALTH NRSNG THEORY I
This course will introduce the student to public health; its history, theoretical foundations, core functions, and trends moving from a regional to an international perspective. Key concepts analyzed are the core functions of public health (assessment, policy development, assurance) and population-based concepts such as vulnerability and marginalization. Through learning experiences, students begin to integrate nursing theory with public health science and key methodological and leadership skills to create a basis for practice in the specialty.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master’s Degree
Restrictions: Must be enrolled in one of the following Major(s): Nursing Nursing Anesthesia

NURS 617S - PUBLIC HEALTH NRSNG THEORY II
This course focuses on the (1) development of theoretically driven health promotion/disease prevention programs tailored to the unique age-developmental, socioeconomic, and cultural characteristics of specific target populations or communities and (2) the components of evaluation of those programs: formative, process, impact, and outcome. Basic concepts underlying program cost analyses will be introduced and the identification and collection of data needed for these analyses will be discussed.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Restrictions: Must be enrolled in one of the following Major(s): Nursing Nursing Anesthesia

NURS 618S - PUBLIC HEALTH NRSNG THEORY III
This course is focused on integration and application of principles of leadership, management, and program planning, implementation, and evaluation in population-based efforts to provide effective health programs. Special emphasis is placed on the practical skills needed for the public health nurse to succeed as a leader and manager in the health care arena.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Restrictions: Must be enrolled in one of the following Major(s): Nursing Nursing Anesthesia

NURS 619S - PUBLIC HEALTH NRSNG CLIN I
This course is a practicum providing students with an opportunity to explore advanced practice roles within the context of community-based health care delivery systems. In partnership with a student from the School of Public Health, students will conduct a community assessment with a vulnerable population or high-risk aggregate and write a proposal/plan to address or prevent a risk factor or health problem in that population. This course will assist students in synthesizing knowledge from nursing, public health, and other disciplines to develop interventions that improve the health of specific population subgroups and in analyzing systems for the delivery of public health care.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Restrictions: Must be enrolled in one of the following Major(s): Nursing Nursing Anesthesia

NURS 620S - PUBLIC HEALTH NRSNG CLIN II
This practicum is a continuation of Public Health Nursing Clinical I in which teams of students from nursing and public health programs remain in a community-based agency to see their project to completion. Students complete their plan of intervention, apply appropriate evaluation techniques, and report back to the agency and community with recommendations/modifications for future programs. The field placement is used to develop expertise in the use of strategic assessment, financial and personnel management, and leadership techniques.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Restrictions:
Must be enrolled in one of the following Major(s):
- Nursing
- Nursing Anesthesia

**NURS 621S - NURS INFO SYS-ASSESS&ANALYS CP**
This is a required course to complete the master's in Nursing Informatics curriculum. In this course students will evaluate nursing information systems and the nursing environments where these systems have been implemented. Students will be introduced to the theoretical and technical aspects of database design and database management in patient care systems. Further students will analyze information systems for appropriateness, usefulness, asability and efficacy for implementation.

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Master's Degree

**NURS 622S - APPL ADMIN&APPRAIS CLIN NUR IS**
This is a required course to complete the Master’s in Nursing Informatics curriculum. Students will examine a currently utilized system in healthcare delivery from the theoretical and practical perspective using knowledge of information systems, information science, database management and analysis, design and mapping techniques. Students will propose solutions to clinical problems based on their analysis of the system. In addition, students will reflect on the role of the nursing information scientist in planning for system implementation, management and evaluation.

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Master’s Degree

**NURS 623S - INCORP OF CLIN & NURS INFO SYS**
This is a required course to complete the Master’s in Nursing Informatics curriculum. It is the culmination course in the Informatics program of study. It will provide the learner with an opportunity to experience the role of the nursing information scientist through the assessment, planning, implementation, evaluation and maintenance phases of information technology. Each student will secure a clinical placement with the information technology department in a healthcare delivery system. Students will be encouraged to choose and preceptor based on area of interest (e.g. hospital system, free-standing hospital, urban or rural setting, or ambulatory care.) and the phase of development of the information technology in a given system.

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Master’s Degree

**NURS 624S - Women's Hlthcr Practi Pract I**
The practicum/project provides an opportunity for the student to operate in the Women's Healthcare Nurse Practitioner role in appropriate agencies and facilities in conjunction with an expert Women's healthcare Practitioner. The practicum is individually tailored to meet each student’s career goals. For students completing a practicum, the students will be placed with an expert role model who is practicing in the student’s area of Women’s Healthcare interest. The setting will vary dependent on the student’s interests, goals and objectives as discussed with faculty. Emphasis is placed on practical experience in observation of, participation in, and analysis of aspects of Women’s Healthcare and the variety of roles available in the Women’s Healthcare arena. A practicum project will be completed in conjunction with the clinical experience.

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Dean’s Office

**NURS 625S - Women's Hlthcr Practi Pract II**

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Dean’s Office

**NURS 655S - CLINICAL PRACTICUM SEMINARS I**

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Nurse Anesthesia
**Restrictions:**
Must be enrolled in one of the following Major(s):
- Nursing Anesthesia

**Pre-Requisites:** NURS 561S and NURS 562S and NURS 565S and NURS 567S and NURS 660S and NURS 663S

**NURS 656S - CLINICAL PRACTICUM SEMINARS II**
Continues NURS 655.

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Nurse Anesthesia
**Restrictions:**
Must be enrolled in one of the following Major(s):
- Nursing Anesthesia

**Pre-Requisites:** NURS 561S and NURS 562S and NURS 565S and NURS 657S and NURS 660S and NURS 663S

**NURS 657S - CHEM & PHYS RELATED TO NURS AN**
This course discusses the principles of chemistry and physics as they relate to the practice of nurse anesthesia. Structure activity relationships are discussed. The pharmacologic action of anesthetic drugs and adjuncts to anesthesia are emphasized from the perspective of the influence chemical structure has upon them. Principles of physics are reviewed as they apply to cardiovascular and respiratory physiology as well as to the utilization of anesthesia equipment such as the anesthesia machine and breathing circuit. This course integrates concepts that were introduced during each of the prerequisite courses.

**Credits:** 3.00
**College:** Nursing & Health Professions
**Department:** CNHP - Nurse Anesthesia
**Restrictions:**
Must be enrolled in one of the following Major(s):
- Nursing Anesthesia

**Pre-Requisites:** NURS 560S and NURS 561S and NURS 562S and NURS 660S and NURS 663S
NURS 660S - ADV. PRINC OF NURSE ANEST I
This two-semester course (with NURS 663) prepares students to become competent nurse anesthesia care providers. It focuses on regional and local anesthesia techniques and the administration of general anesthesia to a wide variety of patients undergoing relatively complicated surgical procedures. These patients may also exhibit significant underlying pathophysiology.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia
Pre-Requisites: NURS 562S

NURS 661S - APPLIED PATHOPHYS. NURSE ANEST
Integrates the knowledge developed in the Advanced Physiology and Pathophysiology courses with patients' clinical response to anesthetic and anesthetic-related interventions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 662S - PHARMACOLOGY - NURSE ANESTHESI
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia

NURS 663S - ADV PRINC OF NURSE ANES II
Continues NURS 660.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia
Pre-Requisites: NURS 562S

NURS 665S - NURSE ANESTH CLIN PRACT III
This two-course sequence (with NURS 666) gives students the opportunity to administer both regional and general anesthesia to patients scheduled for complex surgical procedures who may also exhibit significant pathophysiology. Students have opportunities to insert invasive monitors and to use the data to assess patients' physiologic responses to anesthesia and surgery. During these clinical practica, students begin their pediatric and cardiothoracic anesthesia rotations. The correlation of clinical experience with didactic knowledge is accomplished in weekly seminars for Clinical Practicum III and in NURS 661 for Clinical Practicum IV.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia

NURS 666S - NURSE ANESTH CLIN PRACT IV
Continues NURS 665.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 667S - NURSE ANESTH CLIN PRACT V
During this two-course sequence (with NURS 668), students complete their respective rotations. The courses afford students an opportunity to integrate the didactic knowledge of anesthesia into their clinical practice. Students administer many types of anesthesia to individuals of all ages, with any type of pathophysiology, and for any type of surgery or diagnostic procedure. The courses seek to provide students with the ability to become independent, safe, and competent nurse anesthetists. The correlation of clinical experience with didactic knowledge is accomplished in weekly seminars for both Clinical Practicum V and Clinical Practicum VI.
Credits: 3.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 668S - NURSE ANESTH CLIN PRACT VI
Continues NURS 667.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Nurse Anesthesia
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing Anesthesia

NURS 671S - DIAG REAS & CLN DEC MK/PNP III
This course provides an introduction to the conceptual basis of providing primary care for pediatric populations with common chronic conditions. It prepares students to assume the role of primary care provider, and to contribute to and support the collaborative responsibility of other health care providers, in meeting the primary care needs of children with chronic conditions, from birth through adolescence. Clinical practicum is required concurrently.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Nursing Anesthesia
Pre-Requisites: NURS 670S

NURS 680S - DIAG REAS PSYC MENT HLTH NP II
This course is designed to add to the knowledge base provided in the first clinical psychiatric-mental health course. It introduces students to the sociocultural factors related to mental health and illness. Content
focuses on integrating core and support course content into the assessment, diagnosis, and management of clients with anxiety, substance-related, eating, and personality disorders.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Nursing Anesthesia
Pre-Requisites: NURS 580S

NURS 681S - DIAG REAS PSYC MNT HLTH NP III
This course introduces students to the significant treatment modalities currently in practice, with an emphasis on cognitive-behavioral theory and therapy. Content focuses on integrating core and support course content into the assessment, diagnosis, and management of clients with adjustment disorders, psychosomatic disorders, cognitive disorders, and abusive behavior. Clinical practicum is required concurrently.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

Nursing Anesthesia
Pre-Requisites: NURS 580S

NURS 800S - REGISTERED FOR DEGREE ONLY
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Master's Degree

NURS 801S - ST: Clinical
Credits: .50 to 3.00
College: Nursing & Health Professions
Department: CNHP - Dean's Office

NURS XXXS - NURSING ELECTIVE
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree

Philosophy Courses

PHIL 530S - ETHICS AND RESEARCH
Credits: 2.00
College: Nursing & Health Professions
Department: Health Services Administration

PHIL 603S - HLTH-CARE ETHICS & SOCIETY: PB
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

PHIL 703S - ETHICAL ISSUES IN HEALTH CARE
Credits: 2.00
College: Nursing & Health Professions
Department: Health Services Administration

Physical Therapy Courses

PT 505S - PHYSICAL AGENTS
This course focuses on the use of physical agents in the management of patients with orthopedic, neurologic, and medical conditions. This course will stress clinical decision making so that students appropriately select and apply procedures to manage pain, acute and chronic edema, limitations in motion, muscle weakness, and tissue/wound healing.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 509S - HUMAN GROSS ANATOMY
This entry-level course is designed with the goal of establishing anatomical foundations for understanding human motion as it relates to musculoskeletal performance, examination and intervention. The organization of this course is done in concert with PT 512 Kinesiology and PT 515 Musculoskeletal Examination/Intervention, so that students learn anatomy, biomechanics, and basic evaluation/intervention skills in an integrated manner.
Credits: 5.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 510S - MUSULOSKETEAL EVAL & TREATMENT
Credits: 5.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 512S - KINESIOLOGY
This course is designed to provide students with basic knowledge of the biomechanical and functional aspects of the musculoskeletal system. Emphasis is placed on kinematic and kinetic analysis of normal and abnormal human motion. The application of tissue biomechanics to therapeutic intervention and the relationship of biomechanics/kinesiology to musculoskeletal evaluation and treatment will be examined.
Credits: 5.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy
PT 515S - MUSCULOSKELETAL EXAM/INTERVENT
In this course the components of patient management will be discussed. Assessment of joint motion, muscle flexibility, and muscle performance of the spine, and upper and lower extremities is described and practiced. The principles of therapeutic exercise prescription as well as the implementation of those programs are explored.
Credits: 5.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 520S - PATHOPHYSIOLOGY:SELECTED TOPIC
Epidemiology, etiology, normal physiology, pathophysiology, diagnostic testing, medical management and prognosis associated with selected diseases and conditions are discussed. The implications to physical therapy intervention and the concept of normal multiple system interaction and co-morbidity are introduced. May be repeated once for credit.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 524S - PHARMACOLOGY
Pharmacology is a didactic course that focuses on providing foundational information about pharmacotherapeutics, pharmacology, pharmacokinetics, and pharmacodynamics that is applicable in physical therapy. Drug classifications are described. Examples of various drug categories are provided.
Credits: 2.00 or 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 538S - MOTOR CONTROL AND LEARNING
This is the first of a two courses of motor control and learning and implications for client management. Students build on their foundation in neuroscience in order to analyze how the neuromuscular and musculoskeletal systems interact to produce coordinated movement that varies according to task, environment and performer constraints. The course focuses on six main themes; theories and research on motor control and learning, neural basis for control of posture and movement, cognitive and behavioral requisites for learning, principles of motor learning, augmentative information, neuroplasticity. Analysis, synthesis and critical thinking will be emphasized in lectures, class discussions and small group activities.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 540S - FUNCTIONAL MOBILITY
This course addresses the functional management of individuals with limited mobility and their equipment needs. It stresses a problem-solving approach for the selection and application of appropriate manual skills, as well as prescription of necessary equipment. Safety for injury prevention is stressed throughout this course.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 555S - ORTHOPEDIC PHYSICAL THERAPY I
This course will provide the student with knowledge of the pathology and pathomechanics of musculoskeletal dysfunction from disease, trauma, and aging process, in the spine and upper/lower extremities. Emphasis is placed on differential diagnosis, clinical decision making and the components of patient management (examination, evaluation, diagnosis, prognosis, intervention) in order to maximize patient outcomes.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 556S - ORTHOPEDIC PHYSICAL THERAPY II
This course explores rehabilitation following surgical intervention for the spine and extremities. The influence of age, gender, co-morbidities, and the stage of healing will be addressed. Emphasis is placed on clinical decision-making. Students will begin to use evidence-based practice to support their intervention programs.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 560S - PROSTHETICS AND ORTHOTICS
This course provides students with knowledge of components and biomechanical principles of upper, lower and spinal orthotics and prosthetics. A foundational knowledge will be presented regarding appliance prescription, checkout and functional training with such devices. Lecture topics are supplemented with patient cases and laboratory sessions which require the students to practice skills discussed in lecture.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 562S - NEUROLOGIC EXAM/INTERVENT I
This course introduces the student to the examination, evaluation, diagnosis, and comprehensive intervention for the adult patient with neurological dysfunction. It focuses on examination skills and common interventions used with this patient population. Clinical decision-making will be practiced to develop appropriate intervention strategies, application techniques, and neuromuscular strengthening and conditioning principles.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 563S - NEUROLOGIC EXAM/INTERVENT II
This course is the second course of a two part series on examination, evaluation, diagnosis, and intervention for the adult with neurological dysfunction. It builds on the impairments covered in PT562. It focuses on neurological deficits that result in more complex movement dysfunction and more limited capacity for learning.

Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 565S - PEDIATRIC PHYSICAL THERAPY
This course takes a systems approach to understanding the bases for pediatric disabilities. Examination and intervention planning are discussed both broadly and in terms of specific pediatric disabilities in the context of the current evidence for models of client management. The lab component allows students to work with a child with a disability in a community setting.

Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 573S - CLINICAL EXERCISE PHYSIOLOGY
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 576S - CARDIOPULMONARY PT I
This clinical cardiopulmonary physical therapy lecture/laboratory course is the first in a two part series designed to give students a foundation for the clinical skills and knowledge necessary for treating any population of patients with possible cardiac and/or pulmonary pathology. It is also designed to provide the necessary foundations for prescribing and monitoring exercise for all populations. Basic exercise prescription will be introduced. Pharmacologic issues concerning cardiopulmonary diagnoses are included. Students gain experience with basic ECG interpretations. Case studies are utilized throughout the course to develop the student's clinical decision-making skills.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 577S - CARDIOPULMONARY PT II
This is the second course in a two-part series which builds upon the content from Cardiopulmonary Physical Therapy I. Clinical Exercise Physiology content specific to this lecture/laboratory course includes ECG interpretation, ABG interpretation and treatment techniques appropriate for the patient with cardiac and/or pulmonary dysfunction. The effect of cardiopulmonary concerns for specific populations such as the pediatric and the neurologically involved patient will also be presented.

Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 602S - MUSCULOSKELTAL ANATOMY
This course consists of an in-depth study of the clinically relevant anatomy of the upper limb and cervical spine. Lecture, discussion, demonstration and study of prosected cadaver material are the primary methods of presentation. Emphasis is placed on functional anatomy, the entrapment points along the course of the peripheral nerves and detailed dissections of the articulations. Evaluation of the anatomical literature is required.

Credits: 2.00 to 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 603S - FOUNDATIONS IN PED PT PRACTICE
Guidelines for pediatric examination, evaluation, and intervention will be presented with emphasis on clinical decision-making and evidence-based practice. Conceptual framework for clinical decision making will be presented including the World Health Organization Model of Body Function, Activity, and Preparation and the Guide to Physical Therapist Practice. Practical applications related to the examination and intervention process will be discussed including an overview of common pediatric assessment tools. The development and physiology of the neuromuscular, cardiopulmonary, and musculoskeletal systems will be presented as a foundation for physical therapy examination tests and measures and intervention approaches. Service delivery practices in early intervention and schools, unique settings in pediatric, will be explored. The application of the philosophies of families-and-client-centered care to pediatric physical therapy will conclude the course.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 604S - INDUCTION, INQ AND INTEGRATION
This course provides an introduction to the learning philosophy of the program, introducing students to models of adult learning, learning styles and how learning can be grounded in experience. Using the notion that learning is the acquisition of knowledge, different forms of knowledge will be explored. Methods of creating knowledge from experimentation, observation and experience will be studied using paradigms and models of systematic quantitative and qualitative inquiry.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 605S - CLIN DECISION NEURO REHAB I
The course focuses on the integration of basic and clinical science research and motor control/learning theory in the design of intervention models for the patient with neurological dysfunction within the constraints of current practice. The emphasis of the course is clinical decision-making based on client-centered care and current best evidence.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 606S - CLIN DECISION NEURO REHAB II
The course focuses on the aging neurological system and its effects on function and well-being. Issues in health care practice for the elderly are explored: impact of the aging process on the performance of life's roles, evidence-based holistic care, clinical decision making for patients with multiple system dysfunction, and advocacy.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 608S - METHODS & ANALYSIS OF RESEARCH

Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 609S - ACCRED OF PROF PORTFOLIO

This course provides an opportunity for bachelors prepared students to gain credit for their professional experiential learning. Through the compilation of a professional portfolio, under the guidance of the course directors, the students will collect and reflect on evidence that demonstrates their ability to perform higher level academic functions in a clinical context related to problem solving, decision making, analysis and synthesis.

Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 623S - CLIN DECISION MAKING IN ORTHOP

This course focuses on orthopedic physical therapy. This course continues and presupposes the content of Orthopedic Physical Therapy I and II with emphasis on differential diagnosis, clinical decision-making, and the development and implementation of a plan of care for a variety of musculoskeletal disorders and their surgical procedures.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 624S - CLIN DEC MAKING IN NEUR REHAB I
This course focuses on clinical decision making in neurological rehabilitation. This course continues and presupposes the content of the Neurological Physical Therapy I, II, and III and Rehabilitation Principles with emphasis on differential diagnosis, clinical decision-making, and the development and implementation of a plan of care for a variety of neurological disorders.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s): Physical Therapy

PT 625S - CLIN DECN PEDIATRIC REHAB I
The course focuses on evidence-based examination and intervention of children with disabilities within the context of child, family, and environmental factors. The course highlights the role of physical therapists in promoting the status of the neuromuscular and musculoskeletal systems. The importance of family-centered care, parent-child interactions, and play are explored.

Credits: 2.00 to 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 626S - CLIN DECN PEDIATRIC REHAB II
This course emphasizes clinical decision making related to the components of physical therapy management. The course uses a problem-based format with complex patient cases serving as the basis for the development of student learning issues. Students explore community and professional resources and apply course material to pediatric physical therapy practice.

Credits: 2.00 to 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 627S - CLIN DECN PEDIATRIC REHAB III
This course continues and presupposes the content of Orthopedic Physical Therapy I and II with emphasis on differential diagnosis, clinical decision-making, and the development and implementation of a plan of care for a variety of neurological disorders.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s): Physical Therapy

PT 628S - CLIN DECN PEDIATRIC REHAB II
This course continues and presupposes the content of Orthopedic Physical Therapy I and II with emphasis on differential diagnosis, clinical decision-making, and the development and implementation of a plan of care for a variety of neurological disorders.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s): Physical Therapy

PT 629S - CLIN DECN PEDIATRIC REHAB III
This course continues and presupposes the content of Orthopedic Physical Therapy I and II with emphasis on differential diagnosis, clinical decision-making, and the development and implementation of a plan of care for a variety of neurological disorders.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s): Physical Therapy

PT 630S - RESEARCH PROCESSES

This course is designed to promote the incorporation of scientific advances in approaches to patient management and to have the students participate in clinical research. The course includes didactic instruction on the research process, research designs, application of statistical analysis, scientific writing, and the ethical and practical considerations in conducting human research. Reading and interpretation of the scientific literature is emphasized. Students are required to develop a research proposal as part of this course which may be utilized in subsequent research practica to form the basis for the student’s thesis or dissertation research.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
PT 635S - BIOMECHANICS I
This advanced level course will enable students to consolidate and extend their knowledge and understanding of the human body as a physical system. Students will be introduced to the advanced biomechanical concepts used to develop the clinical information presented in Kinesiology. The first half of the course will focus on statics (muscle forces and stress-strain analysis) and the second half will concentrate on dynamics (kinematic and kinetic analysis of human motion). Students will be introduced to the use of a Kin-Com isokinetic dynamometer, Instron materials testing machine, Vicon, Peak and Polhemus kinematic analysis systems and AMTI force plates. An independent research project will be required of all students.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 637S - CLIN TPCS NEUROMUSC RHAB ADULT
This course will introduce the student to the broader role of the physical therapist and the multidisciplinary team as it relates to our changing trends in health care for individuals with disabilities. This course includes a variety of off-site experiences including homecare; follow up clinic and an architectural home visit.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 638S - CLIN TOPICS IN GERIATRIC REHAB
This course will examine the effects of age on physiological, pathological and psychological function, and how these changes and the Medicare system impact health care of the elderly. The course will involve traditional didactic sessions and lab experience in both an extended care facility and an outpatient setting.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 639S - ORTHOPEDIC PHYSICAL THERAPY II
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 640S - ORTHOPEDIC PHYS THERAPY III
This is the third of three courses focusing on orthopedic physical therapy which emphasizes differential diagnosis, clinical decision-making, and the development and implementation of a plan of care for patients with work-related musculoskeletal disorders (WMSDs) and chronic or complex pain conditions.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 642S - ANAT&CLIN MGMT: FOOT & ANKLE
Credits: 2.00
College: Nursing & Health Professions

PT 643S - ANAT&CLN MGMT-SHOULD/CERV SPIN
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 644S - ANAT&CLN MGMT IV KNEE AND HIP
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 645S - TOPICS IN ELBOW, WRIST, HAND
The course reviews relevant anatomy along with advanced examination and intervention methods for musculoskeletal disorders of the elbow, wrist, and hand with an emphasis on specialized care. The course will emphasize advanced skills as well as evidence-based practice through the review of current literature in the field of hand therapy.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 647S - ANAT&CLIN MGMT III:PELVIS&LUMB
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 648S - ADV ORTHOP EVAL/TRTMNT SPINE
Credits: 2.00 to 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 649S - ADV ORTHOP EVAL/TRTMNT-EXTREM
Credits: 2.00 to 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 657S - APPS OF MOTOR CONTROL & LEARNI
This course is designed to provide entry-level DPT students the opportunity to present, analyze and evaluate supporting evidence from the literature that substantiate or refute principles of motor learning and control as it applies to persons with specific motor dysfunctions. Class readings, discussions, and presentations will require students to analyze the current evidence when assessing motor control and motor learning in specific patient populations, and the impact on designing PT interventions.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 670S - RSCH I: INTRO TO RSCH/CLN MGMT
This is the first course in the research series. The course is divided into two units, introduction to research and tests and measurements. The first unit will introduce the stages of research processes including research theory, formulation of the research question, literature review, sampling, and experimental controls. The second unit will cover psychometric measurement theory including reliability and validity issues. This theoretic information will be applied to a survey of common clinical and research tests and measurements related to physical therapy. Methodological research designs related to development of measurement tools will also be covered. Didactic and lab activities will be used to convey the information.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 671S - RESEARCH II: STATISTICS
This is the second course in the research series. This course will emphasize the quantitative aspects of research design. The basic statistics covered will include: descriptive, hypothesis testing, power analysis, correlation, regression, non-parametrics, t-tests, ANOVA, and multivariate statistical analyses.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 672S - RESEARCH III: DESIGN
This is the third course in the research series. This course will include six units of specialized research designs. The units are: 1) Group research design; 2) Qualitative design and analysis; 3) Single subject design; 4) Evaluation research and analysis; 5) survey research design; and 6) epidemiological design. The information is presented in didactic format with smaller group activities to formulate studies in each of these areas.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 670S - CLINICAL CORRELATIONS I
This course acquaints students with the problem-based learning approach of the clinical correlations series. Utilizing the Guide to Physical Therapist Practice, students learn about and apply the five elements in patient/client management to patient cases. Additionally, students appreciate the physical therapist's role as patient's progress through a continuum of care.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 671S - CLINICAL CORRELATIONS II
This course assists students in developing clinical reasoning, problem solving and decision-making skills for individuals throughout the life span. Students learn about normal development by developing client screenings and wellness programs while integrating content from other courses. Using case scenarios students examine the physical therapist as a consultant.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 692S - CLINICAL CORRELATIONS III
The third course in the series focuses on providing rationales for examination and intervention decisions. Using problem based learning (PBL) in small groups, students will seek out evidence that supports their selection of examination tests and measures. Students will develop evidence-based practice strategies to identify the effectiveness and efficacy of planned interventions and will identify the strengths and limitations of various service delivery models. Two cases will be examined. The cases will demonstrate a range of complexity including patient co-morbidity. Includes all curriculum content to date.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 693S - CLINICAL CORRELATIONS IV
The final course in the four course series focuses on implementing clinical decision-making strategies with a clear focus on developing skills in differential diagnosis and consultation. Students are expected to critique published research for the purposes of discussing the usefulness of each study to clinical practice.

Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 702S - CLINICAL CORRELATION SEMINAR
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 714S - PROFESSIONAL ISSUES AND ETHICS
Issues in delivery of physical therapy services, including patients' rights, autonomy, confidentiality, informed consent and the American Physical Therapy Association standards of practice and ethics. Students will consider the impact of issues on both patient and therapist and will develop a frame of reference for clinical decision-making and professional behavior.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy
Co-Requisites: PT 524S, PT 565S, PT 716S, RHAB 671S, RHAB 672S
Pre-Requisites: PT 771S
PT 716S - TOPICS IN ORG/ADMIN IN REHAB
This course examines the organization and administrative aspects of health care delivery and physical therapy practice. Managerial and service-related business concepts are explored to promote efficiency and effectiveness of practice in today's health care environment. Topics include legislation, reimbursement, finances, productivity, marketing, and human resource management.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 719S - INTRO HEALTH POLICY/SERVICES
This course introduces students to the history and trends in the US health system. It presents an overview of health care organization and health policy with emphasis on topics pertinent to rehabilitation sciences. Topics covered include health care access, utilization, cost, and quality. Government and regulatory systems trends are discussed.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 722S - AQUATIC PHYSICAL THERAPY
This elective prepares the student to design and implement an aquatic physical therapy program. Participants will study the physical properties of water and their effect on movement and exercise in the water medium. The physiological responses to immersion and exercise in water will be reviewed in order to prepare the therapist to identify individuals who would benefit from aquatic physical therapy, and to justify the advantages of treatment in the aquatic environment over other therapeutic interventions.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 723S - HEALTH BELIEFS & BEHAVIORS
This course examines the importance of the client/practitioner relationship, emphasizing the awareness of individual and cultural differences. Students are introduced to concepts of culture, health and illness and examine traditional healing views and practices in health care delivery, including illness prevention, folk remedies, natural remedies and alternative health systems. Lectures, case studies and small group discussions address gender differences, sexuality, ethnicity and lifestyle, as well as culture and focus on the impact on health and illness behaviors and outcomes. Students are encouraged to explore how different system beliefs may be incorporated into more traditional intervention programs.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 732S - COMPLEMENT THERAPIES IN REHAB

PT 734S - ADV. TOPICS IN ELECTROTHERAPY
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 757S - CONCEPTS IN CLINICAL TEACHING
The course provides information on learning theory, teaching and learning styles, planning of learning experiences, clinical teaching tools and strategies, teaching objectives, effective feedback and performance evaluation, all within the context of adult education. The course addresses the issue of the effects of culture on learning styles and health interventions. Teaching formats include lecture, discussion, small group learning experiences, simulations and case scenarios to encourage experimental learning and group problems.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 764S - TEACHING PRACTICUM
This advanced practicum experience is designed to provide students with the knowledge and understanding of the purpose and process of teaching in the medical, social and basic sciences relevant to physical therapy practice. The format of this course is variable and is arranged individually by the students with the faculty member with whom they have elected to work with. Each faculty member will develop a contract with the student(s) that includes development of general goals, specific objectives, and specific activities to complete the objectives for the experience. Alternatively, the student may work on formulation of a continuing education or delivery of several lectures in a didactic course.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 766S - RESEARCH PRACTICUM
Students participate in one or more aspects of the research process under the supervision of a faculty member. Individualized learning objectives are developed and achieved through participation in faculty research.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 770S - CLINICAL EDUCATION I
This course is the student's first full-time eight-week clinical experience that occurs at the end of the first year. During this clinical experience, the student will develop an appreciation for the role of the physical therapist and how physical therapy interventions fit into the patient-focused model of health care delivery.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 771S - CLINICAL EDUCATION II
This course is the second full-time eight-week clinical experience. It occurs in the fall of the second year. The student is working toward mastery of knowledge, skills and attitudes that lead to a level of performance necessary for entry into practice as a safe and effective clinician.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 772S - CLINICAL EDUCATION III
This course is the third full-time eight-week clinical experience. It occurs in the fall of the third year. It is intended to facilitate the student’s transition from supervision toward independent clinical practice.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 780S - INDEPENDENT STUDY
Independent Study is a self-directed course that is taken as an elective. A faculty member approves the student’s objectives, plan of study, and supervises the learning experience. Objectives typically relate to a literature review of a selected topic area or a service learning project.
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences
Restrictions:
Must be enrolled in one of the following Major(s):
Physical Therapy

PT 785S - FINAL PROJECT
This course is the culmination of either a clinical case report, research study, or a teaching, service learning, or administrative project. Students will put together a final project that will meet peer-review standards for publication. The project will be reviewed by the student’s advisor and research, teaching or administrative mentor for approval. A forum for verbal presentation of the project within the Department/School will be available.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

PT 786S - CLINICAL INTERNSHIP
This course is the fourth full-time clinical experience that occurs in the final spring semester. During this 16-week clinical experience students are expected to show competence in all aspects of direct patient care and associated activities. The student’s clinical interests are used to determine the setting for this final experience.
Credits: 8.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

Physician Assistant Courses

PA 402S - COMPETENCY-CLINICAL MEDICINE
The purpose of this course is to provide the student with a mechanism for remediation and strengthening of their knowledge in Clinical Medicine.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
Restrictions:
May not be enrolled in one of the following Major(s):
Physician Assistant
Pre-Requisites: PA 410S and PA 310S

PA 403S - COMPETENCY-PHYSICAL DIAGNOSIS
The purpose of this course is to provide the student with a mechanism for maintaining and strengthening of their knowledge in Physical Diagnosis.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
Pre-Requisites: PA 310S

PA 404S - COMPETENCY-FOUNDAT OF CLIN MED
The purpose of this course is to provide the student with a mechanism for maintaining and strengthening of their knowledge in Foundations of Clinical Medicine.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
Pre-Requisites: PA 310S and PA 410S and PA 401S

PA 500S - PRINCIPLES OF MEDICAL SCIENCE
Builds on the student’s previously acquired knowledge of anatomy and physiology, emphasizing the complex nature of bodily function from the molecular to the systems level. Students are introduced to the concepts of pathophysiology that underlie dysfunction and disease which enable the student to analyze and apply this knowledge to clinical reasoning. This course includes a lecture and seminar component. Seminars use problem-based learning to introduce evidence-based medicine and its role in clinical practice.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 515S - LEADRSHIP & STWRDSHP IN PROF PR
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
Restrictions:
Must be enrolled in one of the following Major(s):
Physician Assistant
PA 516S - ADVANCED PHYSIOLOGY
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 520S - HEALTH CARE POLICY
Offers a critical analysis of policy issues related to the health care system and PA practice, including legislation, regulation, scope of practice, and reimbursement.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 522S - LEADERSHIP AND MANAGEMENT
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 523S - EPIDEMIOLOGY & HLTH PROMOTION
This course provides an introductory to principles of Epidemiology; a review of health initiatives and health psychology; and, an in-depth study of the leading causes of morbidity and mortality in the United States. Recommended strategies for health promotion and disease prevention across the lifespan are evaluated and applied to common causes of disease and death.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
Restrictions:
Must be enrolled in one of the following Major(s):
Physician Assistant

PA 524S - RESEARCH OUTCOMES ASSESSMENT
Thus course provides a review of the advantages and disadvantages of research study methods, an in-depth analysis of the validity of the outcome of several classic original research studies, and extrapolation of the study findings to clinical situations/scenarios. Re-design of a published original research study to theoretically improve the study's validity is required.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
Restrictions:
Must be enrolled in one of the following Major(s):
Physician Assistant
Pre-Requisites: EDU 510S Minimum Grade: B or RSCH 501S Minimum Grade: B

PA 526S - RESEARCH DESIGN AND METHODS
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 537S - EPIDEMIOLOGY & HLTH PROMOTION
Credits: 2.00

--

PA 540S - LEADERSHIP AND STEWARDSHIP
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 600S - CLINICAL PRACTICUM I
The graduate level Clinical Practica courses place Advanced PA Studies students in clinical settings with pre-approved clinical preceptors to allow the students a cooperative educational experience to expand the current level of clinical knowledge and competence in a chosen specialty area. Students taking the Clinical Practica courses will be required to complete 120 hours of on-site clinical training for each three-credit course. Additionally, students may be required to complete certification courses (such as ACLS, PALS, ATLS), and to attend lectures provided by the clinical training site as directed by the clinical preceptor.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 601S - CLINICAL PRACTICUM II
The graduate level Clinical Practica courses place Advanced PA Studies students in clinical settings with pre-approved clinical preceptors to allow the students a cooperative educational experience to expand the current level of clinical knowledge and competence in a chosen specialty area. Students taking the Clinical Practica courses will be required to complete 120 hours of on-site clinical training for each three-credit course. Additionally, students may be required to complete certification courses (such as ACLS, PALS, ATLS), and to attend lectures provided by the clinical training site as directed by the clinical preceptor.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 602S - EDUCATION PRACTICUM
The education practicum course provides the Advanced PA Studies student with the knowledge and hands on experience for teaching and evaluating physician assistant students in didactic and/or clinical settings; mentoring and advising students; and curriculum development and evaluation. The course includes didactic and experiential learning; the student will work with the course director and faculty preceptor to develop goals, learning objectives, and educational activities specific to the setting and expertise of the faculty preceptor.
Credits: 6.00 to 12.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant

PA 605S - SPEC TOPICS IN PHYSCIAN ASST E
Requires preparation and presentation of a research project related to the candidate’s major research interest. Offered on completion of all formal coursework. Students are assigned practicum advisers, who provide guidance during the practicum experience.
This course assists the graduate student in the preparation of a portfolio that summarizes the professional and personal learning that has occurred on the graduate education level in the candidate’s role as a physician assistant. The candidate will identify activities and experiences accomplished in the physician assistant role, define specific educational competencies and outcomes achieved from the activities and experiences, evidence the learning and development with current literature, and highlight the contributions to the PA profession, medical knowledge, and/or patient care. A critique/summary of the process(es) involved in the professional development and personal learning will substantiate each component of the portfolio. The student will be assigned and work with a faculty advisor who will provide guidance and feedback. The student must have completed the majority of the required core courses for the Advanced Physician Assistant Studies Program and have the approval of the Program Director to be eligible to undertake the Portfolio Preparation Course. A graduate physician assistant student will not be permitted to request Portfolio Assessment by the Committee until the portfolio meets the requirement and expectations of the faculty advisor and program director.

Credits: 1.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Physician Assistant

PA 627S - PROFESSIONAL PORTFOLIO REVIEW
The physician assistant graduate student may elect to submit a professional portfolio for review by the multidisciplinary Portfolio Review Committee to be awarded 3-12 credits. Credits may be awarded for substantiated professional development and personal learning that has occurred on the graduate educational level in the candidate’s role as a physician assistant. Achievements will be substantiated through defined educational competencies and outcomes supported with written formative and summative evaluation of the professional development and personal learning. The portfolio document must demonstrate analysis, interpretation, and synthesis of knowledge, correlation to related literature, and applicability of the learning to the advancement of the Physician Assistant profession, medical knowledge, and/or patient care.

Credits: 3.00 to 12.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant  
Restrictions:  
Must be enrolled in one of the following Major(s):  
Physician Assistant

PA 629S - MEDICINE ROTATION
Credits: 5.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

PA 630S - PEDIATRICS ROTATION
Credits: 5.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 631S - OB-GYN ROTATION**  
Credits: 5.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 632S - PSYCHIATRY ROTATION**  
Credits: 5.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 633S - SURGERY ROTATION**  
Credits: 5.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 634S - EMERGENCY MED ROTATION**  
Credits: 5.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 635S - PRIMARY CARE PRECEPTORSHIP I**  
Credits: 6.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 636S - GRADUATE PROJECT I**  
Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 637S - PRIMARY CARE PRECEPTORSHIP II**  
Credits: 10.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

**PA 638S - GRADUATE PROJECT II**  
Credits: 6.00  
College: Nursing & Health Professions  
Department: CNHP - Physicians Assistant

---

**Rehabilitation Sciences Courses**

**RHAB 538S - MOTOR CONTROL & LEARNING**  
During this course students analyze how the neuromuscular and musculoskeletal systems interact to produce coordinated movement that varies according to task, environment and performer constraints. The course focuses on six main themes; theories and research on motor control and learning, neural basis for control of posture and movement, cognitive and behavioral requisites for learning, principles of motor learning, augmentative information, neuroplasticity.

Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Rehabilitation Sciences

**Restrictions:**  
Must be enrolled in one of the following Major(s):  
Physical Therapy

**RHAB 635S - BIOMECHANICS I**  
The objective of this entry-level course is to enable students to consolidate and extend their knowledge and understanding of the human body as a physical system. This class will provide an overview of the fundamentals of biomechanics, emphasizing applications to orthopedics. Problems will address static and dynamic analyses, although mathematics will be kept to a minimum.

Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Rehabilitation Sciences

**RHAB 644S - CLIN TOPICS: EXTREMITY REHAB**  
The course provides opportunities to advance clinical skills and to apply an evidence-based approach to answering questions related to examination and intervention of extremity joints. Course includes reviews of anatomy and imaging. Emphasis is on fostering independent, critical appraisal of scientific literature and enhancing the science of clinical practice.

Credits: 2.00 to 3.00  
College: Nursing & Health Professions  
Department: CNHP - Rehabilitation Sciences

**RHAB 645S - CLIN TOPICS IN SPINAL REHAB**  
The course consists of an in-depth review of the relevant anatomy along with advanced examination and intervention methods for the common orthopedic disorders of the spine and pelvis. The course will emphasize advanced skills as well as evidence-based practice through the review of current literature related to spine and pelvic region dysfunction.

Credits: 2.00 to 3.00  
College: Nursing & Health Professions  
Department: CNHP - Rehabilitation Sciences

**RHAB 652S - MUSKULOSKEL TISSUES AND PATHO**  
The course is designed to provide the information necessary for the understanding and evaluation of the effects of orthopedic clinical interventions at the tissue level. The course consists of an in-depth consideration of connective tissue, muscle and nerve. The normal and microscopic structure and physiology of these tissues are compared to those changes produced by trauma and clinical intervention. Wound healing at the tissue level is an important component of the course. The course also incorporates review of basic science and clinical literature that provides efficacy for practice techniques and parameters.

Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Rehabilitation Sciences
RHAB 665S - APPS OF MOTOR CONTROL & LEARN
This course is designed to provide students with the opportunity to discuss principles of motor learning and motor control as it applies to specific patient populations. Students examine current research and theories of the motor development, learning and control of children and adults with limitations in movement function. Class readings, discussions and presentations require students to examine biomechanical, neurophysiological and psychological aspects of motor behavior in specific patient populations. The class is designed to challenge students to examine how principles of motor development, learning and control can be used for clinical decision making.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 670S - RSCH I: INTRO TO RSCH/CLN MEAS
This course introduces the stages of research including: measurement theory, developing the research question, literature review, and methodology issues. Measurement theory and psychometrics (reliability and validity) are discussed. Students critique clinical measures and procedures. Students gain knowledge of the research process and properties of clinical measures through multiple learning methods.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 671S - RESEARCH II: STATISTICS
This second course in the research series focuses on basic statistical analyses used in biomedical and rehabilitation research. Content includes hypothesis testing, descriptive statistics, power analysis, correlation, regression, non-parametric statistics, t-tests, analysis of variance, and multivariate statistics. Course enables students to understand and critically analyze statistics used in research reports.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 672S - RESEARCH III: DESIGN
This third course in the research series introduces experimental, quasi-experimental, single-subject, descriptive, exploratory, survey, methodological, qualitative, and other research approaches. Emphasis is on determining the appropriate design for the research question, integrating the research design with data analysis, synthesizing information, and critically appraising scientific literature.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 680S - EVIDENCE-BASED PRACTICE
The focus of the course is on finding and appraising evidence for physical (occupational) therapist interventions, including research reports, systematic reviews, and practice guidelines. Participants will develop competencies in sharing evidence with patients/clients, evidence based decision making, and transfer of knowledge into practice.
Credits: 2.00 or 3.00
College: Nursing & Health Professions

RHAB 691S - RSCH IV: EVIDENCE PRACTICE
This course provides an opportunity for each student to study the detailed anatomy and biomechanics of a major articulation of the body. The participants are separated into small groups; each group is responsible for developing a thorough consideration of the region and then sharing that information with the rest of the class.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 704S - CULT CORRELAT SEM CULT DIVERSI
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 708S - MOTOR CONTROL: ISSUES FOR PT
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 709S - MOTOR DEVELOPMENT & MOTOR LEARN
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 719S - HEALTH POLICY
This course focuses on trends in disability-related legislation and current health policy issues which have profound implications for individuals with disabilities and special health needs, their families and health care providers. It is only through increased awareness and understanding of health care policy can physical therapist be effective practitioners and advocates for their patient/clients and their families.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 728S - ANALYSIS OF JOINT STRUCTURE
This elective provides an opportunity for each student to study the detailed anatomy and biomechanics of a major articulation of the body. The participants are separated into small groups; each group is responsible for developing a thorough consideration of the region and then sharing that information with the rest of the class.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 744S - TOPICS IN WORK INJURY MGMT
This course emphasizes management of the patient with a work-related musculoskeletal injury. Topics will focus on identifying and defining the therapists? involvement in return to work, ergonomic assessment, on-site programs, safety and wellness programs, and government regulations. A global view of the industrial setting and the roles of all participants in the return to work process is explored.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

RHAB 757S - CONCEPTS IN CLINICAL TEACHING
This course provides information on learning theory; teaching and learning styles, planning of learning experiences, clinical teaching tools and strategies, teaching objectives, effective feedback, and performance evaluation, all within the context of adult education. The
effects of culture and different populations on learning styles and health interventions will be explored.

Credits: 2.00 to 3.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**RHAB 780S - INDEPENDENT STUDY**
A self-directed course designed for the student to accomplish a literature search in a selected topic area. Under special arrangement with the student's faculty advisor.
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**RHAB 791S - CLINICAL PRACTICUM II**
Credits: 2.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**RHAB 800S - THESIS RESEARCH**
Original independent research leading to the completion of the thesis. Under guidance with the student's faculty advisor. Required by all students in the Ph.D. Program.
Credits: 2.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**RHAB 802S - REGISTERED FOR DEFENSE ONLY**
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**RHAB 803S - REGISTERED FOR DEGREE ONLY**
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**RHAB 810S - RESEARCH SEMINAR**
Credits: 2.00 to 4.00
College: Nursing & Health Professions
Department: CNHP - Rehabilitation Sciences

**Social Sciences Courses**

**SOSC 099S - INTRO TO HEALTH SCIENCES**
Exposes those students about to choose a major course of study from various health-science programs to relevant subject matter from these programs.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Services Administration

**Statistics Courses**

**STS 501S - EXPERIMENTAL DESIGN IN STATS**
Focuses on developing skills in the following areas: analyzing statistical concepts, language, and statistical computations; understanding statistical journal articles; and writing a statistical-based project.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**STS 730S - ADV STATISTICAL METHODS**
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**STS 731S - METHODS OF DATA ANALYSIS**
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration

**Research Courses**

**RSCH 501S - RESEARCH DESIGN AND METHODS**
Exposes graduate PA students to elements of biomedical research methods, research design, critical analysis of research findings, computer-assisted literature search resources, and strategies for effective writing and publishing.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Physicians Assistant
