Anatomy Courses

ANAT 101 - Anatomy & Physiology I
This course is a general study of the structures and physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lecture and lab material. The lecture portion deals with the general principles. In the lab, the student participates with practical examination of microscopic sections, tissues and organs, and the anatomical layout of human cadavers. The cell, tissues and musculoskeletal system will be covered in this course, as well as muscle and nerve physiology.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 101 Minimum Grade: C

ANAT 102 - Anatomy & Physiology II
This course is a continuation of ANAT 101. This course is a general study of the structures & physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lab and lecture material. The lecture deals with the general principles. In the lab, the student participates with practical examination of microscopic sections, tissues and organs, and the anatomical layout of various animal cadavers. The nervous, endocrine and digestive system will be covered in this course.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 101 Minimum Grade: C

ANAT 103 - Anatomy & Physiology III
This course is a continuation of ANAT 101 & 102. This course is a general study of the structures and physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lab and lecture material. The lecture deals with the general principles. While in the lab, the student participates with practical examination of microscopic sections, tissues, organs and the anatomical layout of various animal cadavers. The cardiovascular, lymphatic, respiratory, urinary and reproductive systems will be covered in this course.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 102 Minimum Grade: C

ANAT 202 - Sectional Anatomy

ANAT 420 - Advanced Anatomy I
This course introduces the fundamentals of Gross Anatomy. Emphasis is placed on the regional study of the head, neck, thorax, and upper extremity. Special attention is directed to study of the brain and spinal cord. Laboratory materials include human cadavers, models, radiographs, CT scans, MRI images and relevant web sites.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D and ANAT 103 Minimum Grade: D

ANAT 421 - Advanced Anatomy II
This course is a continuation of ANAT 420. Emphasis is placed on the regional study of the thorax, abdomen, pelvis and lower extremity. Laboratory material include human cadavers, models, radiographs, CT scans, MRI images and relevant web sites.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 420 Minimum Grade: D

Behavioral & Addictions Counseling Courses

BACS 100 - Life-Span Human Development
This course introduces students to the physical, cognitive and psychological aspects of human development from birth through advanced old age. Topics include: environmental influences, perception, gender roles and sexuality, spirituality, motivation, life styles, and psychiatric disorders.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

BACS 200 - Foundation of Behavioral Health Care
This course introduces the students to the historical and current contexts of program components that comprise community-based behavioral health systems. Topics include: work-force roles; regulatory policies and program practices; federal, state, and county program organizations; advocacy issues; and managed care systems issues.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 210 - Behavioral Disorders**
Clinical characteristics and diagnostic features of major psychiatric disorders are reviewed within the contexts of community-based treatment approaches. Topics include: etiological models, differential symptoms, diagnostic/functional assessment and treatment interventions.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

**BACS 220 - Counseling Theory and Practice**
Surveys major counseling theories with emphasis upon study and practice of basic counseling competencies. Topics include: relationship building, effective communication and helping skills, common stages in counseling process, and helping skills with special populations.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 230 - Genetics and Mental Health**
This course explores genetic concepts and principles as they pertain to human variation in behavioral and general health disorders. Students obtain a firm grounding in the basic science and the tools used by researchers to explore the contribution of the genes (and their essential counterpart, the environment) to behavior.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 232 - Ethics and Prof Responsibility**
This course discusses the philosophical, legal and moral responsibilities of professionals in behavioral health and human services setting with a strong emphasis on counseling relationships. A wide array of ethical issues are presented and discussed. Moral dilemmas comprised of competing moral obligations are examined.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling

Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 234 - Introduction to Addictive Disorders**
This course introduces the nature of addictions and the impairment in individuals who suffer from addictions. It includes a review of theories on substance disorders and approaches to identification, prevention and treatment. Topics include: historical perspectives, diagnosis, types of addictive behaviors, treatment, and current research.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 236 - Psychiatric Rehabilitation Principles and Practices**
This is an introductory survey course which acquaints the student with the principles and practices of Psychiatric (or Psychosocial) Rehabilitation. It provides the student with an understanding of the manner in which Psychiatric Rehabilitation approaches, understands and assists the person with serious and persistent mental illness.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 200 Minimum Grade: C and BACS 220 Minimum Grade: C

**BACS 250 - Behavioral Health Informatics**
This course introduces students to the uses and importance of computer technologies in transforming behavioral health care practice. Course sections cover both the science and practice applications of emerging technologies from psychotherapies, to medication management, and to quality care management.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 255 - Multicultural Counseling**
This course provides didactic information for use in the development of awareness and skills necessary for effective therapeutic relationships with clients of diverse cultural backgrounds.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

**BACS 301 - Group Counseling I**
This course is an introduction to the theoretical base and skills used in conducting group counseling. Included are theories of group work, facilitation techniques, types and styles of groups and models of group functioning. Students participate in a group as a group member and to act as a group co-leader in order to practice leadership skills.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 220 Minimum Grade: C

**BACS 304 - Cognitive-Behavioral Counseling I**

This course familiarizes the student with key cognitive-behavioral models used in therapy today. Differences and similarities are explored. Students are exposed to the philosophical models and the related techniques stemming from these models. Skills on how to conceptualize and work with a client are taught.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 220 Minimum Grade: C

**BACS 310 - Recovery and Relapse Prevention**

The goal of recovery and relapse prevention is the development of personal strategies that will help the person restructure their life in a way that will prevent a return to active addiction. This course helps define the role of professional counselor in understanding the dynamic of recovery from a clinical perspective.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 235 Minimum Grade: C and PSY 240 Minimum Grade: C

**BACS 312 - Case Management Methods**

This course is an in-depth exploration of the definitions and methodologies of case management services. The course is designed to provide students with the most up-to-date research and clinical applications of services management in the practice of addictions counseling.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 200 Minimum Grade: C and BACS 220 Minimum Grade: C and PSY 240 Minimum Grade: C

**BACS 320 - Crisis and Brief Intervention**

This course introduces student to the fundamental concepts, theories, strategies, and skills needed to understand and conduct effective crisis and brief intervention counseling. Particular attention is given to several types of crises commonly encountered in working within settings serving people who have long-term disabling psychiatric disorders.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 220 Minimum Grade: C and PSY 240 Minimum Grade: C

**BACS 325 - Pharmacology for Counselors**

Students learn about uses of commonly prescribed psychiatric medications. Topics include the role of pharmacology in the recovery process, working collaboratively with the patient, and other healthcare providers, and the importance of integrating the use of medications into multidisciplinary, psychiatric rehabilitation approaches to treating psychiatric disorders.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: PSY 240 Minimum Grade: C

**BACS 350 - Child Psychopathology**

This course provides an understanding of childhood-onset behavioral, emotional, developmental, and learning disorders. Review of theories on the development of child psychopathology and approaches to identification, prevention and treatment of disorders. Students learn about assessment and ethical treatment of children

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: PSY 240 Minimum Grade: C

**BACS 367 - Addictions Counsel Intervent’n**

This course is an introduction to individual counseling approaches in the treatment of substance use disorders. Students are provided with training in course counseling skills, as well as effective interventions including Motivational Interviewing and Solution-Focused Therapy. Experimental and problem solving components are included.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 220 Minimum Grade: C and BACS 234 Minimum Grade: C and BACS 304 Minimum Grade: C
BACS 368 - Addictions Counsel w/ Spec Pop
This course involves the student in examinations of challenges for addictions counselors in working with frequently underserved populations represented by adolescents and elderly persons. Effective approaches to assessing and treating both youthful and older adult individuals with addiction disorders are explored and defined.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 100 Minimum Grade: C and BACS 220 Minimum Grade: C and BACS 234 Minimum Grade: C

BACS 370 - Problem Gambling Interventions
This course covers basic areas of treatment knowledge and counseling skills necessary to effectively diagnose and assess the pathological gambler and define the necessary components for effective counseling interventions with problem gamblers.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 100 Minimum Grade: C and BACS 220 Minimum Grade: C and BACS 234 Minimum Grade: C and PSY 240 Minimum Grade: C

BACS 390 - Spec Topics in Mental Health
This course covers topics of particular interest to students in health sciences. In different terms, a variety of topics will be presented to the students. May be repeated twice for credit.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

BACS 401 - Assessment/Treatment Planning
The focus of this course is learning the systematic, multi-disciplinary approach for gathering, interpreting, applying and recording data regarding clients in addictions and other behavioral health treatment settings. The most current screening, assessment, treatment planning and documentation approaches are covered.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 234 Minimum Grade: C and PSY 240 Minimum Grade: C

BACS 404 - Cogn-Behavioral Counseling II
This course extends BACS 304 by deepening the exploration of cognitive-behavioral therapy theory and methods. More emphasis and developing skills in conceptualization and treatment. Some focus on how clients can manage anger better and how therapists can take care of themselves appropriately.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 304 Minimum Grade: C

BACS 405 - Family-Focused Interventions
This course gives students the knowledge, skills and attitudes to: identify and overcome the barriers that prevent family members from being full partners in the mental health treatment of their family member; define family from a culturally competent perspective; and provide mental health intervention in full partnership with families.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 100 Minimum Grade: C and BACS 220 Minimum Grade: C and PSY 240 Minimum Grade: C

BACS 410 - Child and Adolescent Support
This course is based on the principles of Child and Adolescent Service System Program (CASSP). The course gives students the knowledge, skills important to implementing a comprehensive care system for families and their children endorsed by the Commonwealth of Pennsylvania.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 405 Minimum Grade: C

BACS 411 - Forensic Behavior Hlth Service
The intersection between law and behavioral health services in the focus of this course. Topics include: the criminal justice system, criminal thinking, community and ethical barriers, biopsychosocial models that are specific to the forensic client and the growing base of knowledge about community corrections.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 200 Minimum Grade: C and BACS 255 Minimum Grade: C and PSY 240 Minimum Grade: C

BACS 412 - Group Counseling II
This is an advanced course in the facilitation of group processes, with an emphasis on group counseling. The course provide skills in group facilitation including application of theory, tracking process and
initiating interventions, working with special populations, incident management, treatment planning processes, and recording progress.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 301 Minimum Grade: C

BACS 414 - Co-Occurring Disorders
This course introduces an integrated treatment approach for working with individuals who have both mental illness and substance use disorders. Topics include: assessment and treatment planning, strategies for coordinating dual interventions.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 220 Minimum Grade: C and BACS 234 Minimum Grade: C

BACS 420 - Psychiatric Rehab Competencies
The purpose of this advanced course is to help students develop the competencies necessary to implement the principles and practices of Psychiatric Rehabilitation. This is accomplished by engaging the student in an in-depth analysis of the tools and processes used to bring about outcomes related to community integration and the life quality.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 236 Minimum Grade: C

BACS 490 - Senior Research Project
The students, with faculty supervision, plan and execute a term project that will integrate the academic and practical knowledge the students have acquired in their curriculum. The students develop objectives relevant to the project, critique the literature, present a plan for implementation, and complete the term project. May be repeated twice for credit.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 236 Minimum Grade: C

BACS 499 - Readings in Behavioral Health
This course is designed to allow upper-class students to pursue specialized interest in specific topics in behavioral health science. May be repeated three times for credit.

Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

Cardiovascular Perfusion Courses

CVPT 101 - Perfusion Technology I
In Perfusion Technology I, the student is introduced to the various components that comprise the perfusion hardware, such as perfusion pumps, oxygenators, tubing packs and ancillary equipment used in CPB circuits. In this course, students receive extensive wet-lab experience and should be able to demonstrate a pump set-up.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

CVPT 289 - Cardiac Anatomy and Physiology
Cardiac Anatomy and Physiology expands knowledge learned in basic anatomy and physiology coursework. Explores the structure and mechanisms by which the cardiovascular system functions in relation to other organ systems, with an emphasis on how cardiopulmonary bypass alters normal function.

Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

CVPT 293 - Basic Surgery and Monitoring
Basic Surgery and Monitoring introduces basic surgical aspects, including sterile and aseptic techniques, interrelationships of various personnel in the operating room and various surgical techniques as they relate to perfusion. Explores all facets of patient monitoring, with an emphasis on changes associated with the conduct of perfusion.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

CVPT 295 - Clinical Practicum I
Clinical Practicum I exposes students to the operating room, where their primary responsibilities are observing and assisting senior students and staff perfusionists. Provides experience including pump set-up, handling case records, gathering lab data, and limited perfusion management.

Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
CVPT 300 - Clinical Practicum II
Clinical Practicum II is a course focused entirely on clinical perfusion. Includes responsibility for pump set-up and cardiopulmonary bypass case management. Includes close supervision for each individual case. Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 295 Minimum Grade: D

CVPT 305 - Pediatric Clinical Practicum
Pediatric Clinical Practicum examines the differences among adult, infant and neonate perfusion methods during a one-month rotation to Children's Hospital of Philadelphia. Emphasizes circuit preparation, priming volumes, flow rates and hemodynamic changes, pharmacological agents, direct visualization of various congenital anomalies and surgical corrections. Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 307 Minimum Grade: D and CVPT 330 Minimum Grade: D

CVPT 307 - Clinical Practicum III
Clinical Practicum III provides clinical work aimed at increasing the level of proficiency in the conduct of patient perfusion. Under supervision, students are responsible for all aspects of clinical perfusion and are exposed to specialized techniques and adjunctive technology used for cardiopulmonary bypass. Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 300 Minimum Grade: D

CVPT 310 - Perfusion Technology II
Perfusion Technology II reinforces the operating room techniques observed in CVPT 295 in a classroom setting. Examines ancillary and perfusion support systems, including ventricular-assist devices, extracorporeal membrane oxygenation, CPS, intra-aorta Balloon pumps and others. Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 101 Minimum Grade: D

CVPT 320 - Physiologic Mgmt of Bypass
Physiologic Management of Bypass provides an understanding of the many physiologic changes that occur during bypass and a method for safely and effectively addressing these changes. Emphasis is placed on hemodynamics, fluid balance, blood coagulation and electrocardiographic activity as they apply to perfusion. Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion

CVPT 330 - Cardiovascular Pathology
Cardiovascular Pathology provides an understanding of pathological conditions that exist in all organ systems, with special emphasis on the cardiovascular system. Discusses both acquired and congenital defects, with attention given to pathological conditions requiring cardiopulmonary bypass. Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 320 Minimum Grade: D

CVPT 340 - Cardiovascular Pharmacology
Cardiovascular Pharmacology details the various pharmacologic interventions used for cardiovascular patients, highlighting their classification, dosage, site of action, duration of action, interactions with other drugs, precautions and side effects. Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 289 Minimum Grade: D

CVPT 350 - Clinical Practicum IV
Clinical Practicum IV is designed to complete the students' clinical experience. Expected students, under staff supervision at all times, to act as though unsupervised in all routine cardiovascular procedures. Allows the operation of complex devices as well as student participation in emergency procedures. Credits: 12.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 307 Minimum Grade: D

CVPT 360 - Cardiac Surgical Practicum
A multi-faceted course incorporating many of the disciplines found in an acute care setting. Rotations include the following observational areas: catheterization lab, recovery room, anesthesia, intra-aortic balloon pumps, surgical assisting and ventricular assist devices. Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: CVPT 365 Minimum Grade: D

CVPT 365 - Clinical Practicum V
Clinical Practicum V is an advanced course designed to focus on the initiation and discontinuation of cardiopulmonary bypass. Interaction with the surgeon and anesthesiologist is essential and proper communication skills are developed.
Credits: 12.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 350 Minimum Grade: D

Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C

HSCI 204 - Clinical Health Informatics
This course examines technology and the tools of the Internet, with a focus on the use of cyber-technology and select computer applications. The automation of data management through information systems, expert systems, and telecommunication, and the impact of technology on health care education and research are addressed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CS 161 Minimum Grade: C

CVPT 370 - Clinical Practicum VI
Clinical Practicum VI is an advanced course designed to focus on the patient’s hemodynamic status during the preoperative, perioperative, and post operative time periods. The student is educated in proper drug and fluid administration. EKG rhythms are assessed in conjunction with post operative expectations and heart function.
Credits: 10.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 365 Minimum Grade: D

HSCI 301 - Pharmacology I
This course introduces health professional students to the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs and important drug information resources.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C

CVPT 375 - Clinical Practicum VII
Clinical Practicum VII is an advanced course designed to prepare the student for handling complications which may occur during an open heart procedure. Senior students are involved in simulations which mimic actual clinical situations/problems. The students utilize their clinical experience and knowledge base to assess the operating room situations.
Credits: 10.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 370 Minimum Grade: D

HSCI 302 - Pharmacology II
This course focuses on common drugs used in the treatment of disorders of cardiovascular, renal, respiratory and gastrointestinal systems, anti-infective and anti-inflammatory agents, immune and biologic modifiers and chemotherapeutic agents, and miscellaneous hematologic, dermatologic, ophthalmic, and otic agents.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: HSCI 301 Minimum Grade: C

Health Sciences Courses

HSCI 201 - Health Assessment through the Lifespan
Course focuses on health assessment across the lifespan. The focus is on the development of interviewing skills, assessment of health status, and physical examination skills for the beginning health professional student.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: ANAT 103

HSCI 310 - Introduction to Clinical Research
This course provides a comprehensive introduction to clinical research. Topics include informed consent, regulatory issues, specific groups conducting research, and phases of drug, medical device, and medical procedure development. Students develop an understanding of regulatory and organizational aspects of clinical research.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

HSCI 313 - Clinical Trials Protocols
Students learn to design and implement a clinical trial protocol. Topics include experimental design, research team member roles and management of clinical trials. Special research techniques for special populations are considered. Means of preventing scientific misconduct through proper monitoring are discussed.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Health Sciences
Pre-Requisites: HSCI 310 Minimum Grade: D

HSCI 315 - Current Issues in Clinical Research
This course is designed to discuss current issues impacting clinical research practice. Topics include ethical issues, scientific issues and operational issues. There is also an opportunity to learn strategies for obtaining a position in clinical research and identify organizations that support clinical research practice.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: HSCI 312 Minimum Grade: C

HSCI 325 - Exercise Physiology
This course examines the acute and chronic effects of exercise on human physiology. Topical areas include neuromuscular physiology, cardiopulmonary, energy metabolism, nutrition, exercise evaluation, body composition, exercise prescription, and influence of environmental factors and clinical conditions on response to exercise.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C

HSCI 326 - Applied Anatomy & Kinesiology
This course applies the foundations of anatomy and physiology to the study of human movement, with emphasis on normal motions of the musculoskeletal system. Topical areas include musculoskeletal anatomy, neuroanatomy, biomechanics, lever systems, and the influence of musculoskeletal disease and injury in normal movement.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C

HSCI 337 - Genetics and Health
This course discusses the Human Genome Project and how to apply genetic knowledge to patient knowledge and patient care in the following ways: identifying the need for genetic testing, obtaining and recording information, and supporting choice by patients about genetic issues.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BIO 102 Minimum Grade: C and BIO 104 Minimum Grade: C and BIO 106 Minimum Grade: C

HSCI 430 - Developmental Anatomy
This course expands upon the student's knowledge of anatomy by describing the events involved in the formation of organ systems in the developing human. The laboratory portion of the course examines congenital defects of the systems and discusses possible causes and treatments form a clinical perspective.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C and ANAT 103 Minimum Grade: C

HSCI 470 - Readings in Health Sciences
This course is designed to allow upper-class student to pursue specialized interests in specific topics in the health sciences. May be repeated twice for credit.

Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Junior
Senior

HSCI 480 - Special Topics in Health Sciences
This course covers topics of a particular interest to students in health sciences. In different terms, a variety of topics are presented to the students. May be repeated three times for credit.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

HSCI 490 - Senior Research Project
In this course, the student, with faculty supervision, selects a topic for a term project that integrates the academic and practical knowledge the student has acquired in his/her curriculum. The student develops
objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the term project.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Senior

Health Services Administration Courses

HSAD 125 - Medical Terminology
This course introduces the language of medicine through an analysis of medical prefixes, suffixes, and root words.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

HSAD 210 - Health-Care Ethics I
This course addresses introductory concepts and basic issues in health-care ethics. The topics include but are not limited to decision-making, professionalism and advocacy, confidentiality, truth-telling and informed consent.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 309 - Advanced Health-Care Ethics
This course builds on the foundation provided in Health Care Ethics and discusses such issues as chronic care, end of life, beginning of life, distributive justice and the right to health care.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: HSAD 210 Minimum Grade: D

HSAD 310 - Introduction to Health-Systems Administration
The course is designed to assist the student in understanding and preparing for the unique challenges presented to managers in a health services administration career. History and current milieu of U.S. health care are considered, as well as the ever changing infrastructure of the health services industry.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 311 - Health-Care Policy
The course provides an introduction to the development and implications of U.S. health-care policy, including key governmental and nongovernmental players and the political process.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 312 - Development of World Health Care
This course examines a broad overview of the ongoing development of health-care policies, availability, and philosophy in a cross-section of countries by means of detailed case studies to examine both common and unique challenges and solutions, as well as global responses, to crises, such as plagues, epidemics, and natural disasters.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 313 - Evolution of Health Care in US
This course will cover the evolution of health care in the U.S. from pre-colonial times to the present by discussing improvements in treatment institutions, modalities, philosophies and access to care, as well as the impact of major events in history on health-care discoveries on the delivery and administration of health services in the United States.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 314 - Leadership & Management in Health Services Administration
This course discusses issues in management and leadership in a health-care-administration setting by focusing on alternative organizational structures and the managerial role in these structures, as well as exploring managerial and leadership roles in specific health organizations and project management.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Services Administration
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D
HSAD 315 - Interdisciplinary Health Services
This course focuses on the role, responsibilities, scope of practice, and special concerns of health-care providers and their disciplines. The concept of interdisciplinary health-care practice is examined, along with basic concepts of teamwork and team formation.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 316 - Health Care across Cultures
Living in a pluralistic society poses many challenges and opportunities. This course examines the impact of cultural upon health-care decision. Concepts such as “health,” “illness,” “culture,” “ethnicity,” will be analyzed. Traditional and alternative approaches to the delivery of health care will be addressed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 317 - Religious Views on Health Care
Addresses the impact of a person’s religious beliefs on the need for and delivery of health care. Specific issues will be discussed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D or HUM 101 Minimum Grade: D

HSAD 318 - Health & Vulnerable Populations
Vulnerable populations, those with special needs for or barriers to care, have a significant impact upon health care, both in terms of meaning and delivery. This course looks at the meaning of health through the eyes of various distinct vulnerable populations.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 319 - Women and the Health Professions
This course explores women’s early and controversial roles as health-care providers, the influence of government and the church on women, and key contributions by women in the health professions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 320 - Managed Health Care
This course provides the student an opportunity to survey the major concepts and operational considerations of the provision of health-care services in a managed-care environment. The regulatory landscape as well as the physician/patient relationship is considered as a key to understanding the managed health care environment.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 321 - Health-Care Human Resources
An introduction to the basic principles of human-resource management and their practical application in today’s complex health-care organization. This course examines the role of human resources as a strategic partner within the organization.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: (ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D ) and HSAD 310 Minimum Grade: D and HSAD 334 Minimum Grade: D

HSAD 322 - Health-Care Law
Provides an overview of the major laws affecting health-care professionals and examines the current legal climate in health care.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 323 - Health Services and the Elderly
This course covers a broad spectrum of health-care issues and concerns facing today’s elderly, such as health-care coverage, living arrangements, acute and long-term-illness management, enhanced quality of life issues, and gender-specific health concerns.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D
HSAD 324 - Health Technology and Ethical Responsibility
Developments in health care technology challenge many of our common assumptions about basic concepts such as health, disease, and normality. This course encourages students to consider some of the issues raised by changing health technology.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 325 - Issues in Health Care System
This course provides the student with the opportunity to analyze management problems that are of current importance in today's health-care industry on a national and international level.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 326 - Holism & Health Care
Details the development of medicine from the late nineteenth century to the present in view of the corresponding rise of interest in a holistic approach to health care by means of alternative and complementary medicine in relation to traditional medical practices.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 327 - Partnerships in Health Care
Addresses health service as a collaborative venture identifying the primary stakeholders and partners in the administration of health care including clinicians, administrators, institutions, industry, private and governmental agencies, and the patient. In addition, practical strategies for developing effective partnerships are explored.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 328 - Health Care for Diverse Groups
Examines the administration of health services and special needs to different subpopulations classified according to gender, ethnicity, race, weight (the obese), and sexual orientation.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D

HSAD 329 - Health Care and the Media
Much of the public's perception of issues in health care comes from the media (newspapers, magazines, television, film, advertising, the internet). The course explores the interactive relationship between health care and the media in presenting information to the public.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 103 Minimum Grade: D or ENGL 105 Minimum Grade: A or HUM 108 Minimum Grade: D

HSAD 330 - Financial Management in Health Care
Emphasizes basic financial management theory related to the health-care industry, as well as accounting practices for health-care organizations.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ACCT 115 Minimum Grade: D

HSAD 331 - Non-profits and Health Care
Provides an overview of the not-for-profit and advocacy sector of health care, explores business fundamentals and current models, selects a health topic, assesses the market, and assists students in developing their own not-for-profit and/or advocacy business.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: (ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D ) and HSAD 310 Minimum Grade: D

HSAD 332 - Health-Care Marketing
Provides a comprehensive review of marketing's role in the health-care field by examining the history of health-care marketing, the contributions of marketing to the strategic objectives of health-care organizations, and the effects of marketing on public relations and the consumer.
HSAD 333 - Health, Illness, and the Arts
This course provides the opportunity to examine topics relevant to health and illness as depicted in the arts - primarily literature, film, and painting as well as other arts forms where appropriate.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 103 Minimum Grade: D

HSAD 334 - Management of Health Services
In this course, students will learn forms and uses of traditional management functions - plan, direct, monitor, evaluate - as well as contemporary functions that are used in an array of health care services organizations. Students match skills and competencies within the respective domains of health services management.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: HSAD 310 Minimum Grade: D

HSAD 335 - Health-Care Policy
This course provides an introduction to the development and implications of U.S. health-care policy, including key governmental and non-governmental participants and the political process.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: HSAD 310 Minimum Grade: D and PSCI 110 Minimum Grade: D

HSAD 336 - Urban Health Care
Using an ecological model to analyze the special needs and issues in urban health care, students will examine the people, place, and politics of an urban area to assess the delivery and quality of health care and will complete an analysis of a real and current urban health-care-delivery problem, including solutions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: HSAD 310 Minimum Grade: D and HSAD 311 Minimum Grade: D

HSAD 337 - Health Care/Quality Improvement
Quality Improvement (QI) is a critical component of the health-care-delivery system in the United States. Because errors and reliability issues have major implications, standards and measures are imperative to ensure consistency and safety. As such, this course examines existing programs in place and best-industry practices.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 338 - Human Services & Health Systems
This course introduces existing health-care systems in the United States and globally in terms of the human services that support and are supported by those systems and the effect of human services on those systems and vice versa.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 339 - Health Care Legislation
This course will examine the major roles played by local, state, and federal governments in the funding, delivery, oversight, and evaluation of health-care services. The rationale, history, and current examples of how localities protect the public health are given.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 340 - Leadership in Health Services Administration
This course discusses issues in management and leadership in a health-care-administration setting by focusing on alternative organizational structures and the managerial role in these structures, as well as exploring managerial and leadership roles in specific health organizations and project management.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: HSAD 310 Minimum Grade: D and HSAD 311 Minimum Grade: D
HSAD 341 - Risk Management in Healthcare Organizations
This course is an introduction to risk management in healthcare. It
describes the roles of a risk manager and the risks associated with
various healthcare settings. Regulatory, contractual and medical
malpractice exposures are discussed and techniques for controlling and
preventing loss are evaluated. Students prepare a risk management
plan for a healthcare organization.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 342 - Children and Health Care
This course will focus on a range of issues facing the health-services
industry in providing care to children with the goal of better
understanding and meeting the special needs and challenges from both
a direct care and systematic point of view.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 343 - Health and Illness in Film
This course analyzes various films with themes and stories related to
health and illness in view of conceptual theories on health and illness
and conceptual elements of film as a representational medium.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum
Grade: D

HSAD 344 - The Individual and Health Care Politics
Health-care policy can easily become questions of statistics and
spreadsheets that obscure their origins in individual experience.
Drawing upon a series of personal essays published in the journal
Health Affairs and collected into the volume Narrative Matters, this
course will discuss the power of first-hand experience in shaping
health-care discourse.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 345 - Ethics in Health Care Management
This course focuses on one aspect of the role of health care
management professionals: the ethical dimension. The course
combines an understanding of ethical theory with the practical
application of ethical principles to management issues that arise in the
health care arena. Discussions will be guided by cases drawn from real
work experiences.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 351 - Ethical Issues in Reproduction
This course discusses ethical issues regarding human reproduction.
The issues span contraception, abortion, assisted reproductive
technologies, parenthood, and balancing fetal and maternal interests.
Focus is placed on the variety of perspectives on these issues and
underlying values.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 352 - Ethics in Health Care Research
This course is designed to familiarize students with some of the ethical
issues involved in health-care research. These issues include, but are
not limited to, responsible authorship, use of human subjects, use of
animals, defining and handling scientific misconduct, confidentiality,
and conflicts of interest.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 353 - Public Health Ethics
This course will address ethical issues in public health. Students will be
exposed to a variety of views on topics including, but not limited to,
human rights, the balancing of individual rights with public interests,
managing disasters, epidemics, risky behaviors, and the meaning of
health from a population standpoint.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D

HSAD 470 - Readings in Health-Services Administration
This course is designed to allow juniors and seniors majoring in health-
services administration and carrying minimum cum GPAs of 3.0 to
pursue specialized interests in specific topics in health-services
administration on an independent basis, yet under the direction of
HSAD 480 - Special Topics in Health-Services Administration
This course covers topics of particular interest to students majoring in health-services administration. In different terms, a variety of topics are presented to the students. May be repeated for credit.

Health and Society Courses

HLSO 101 - Intro to Health & Society
Designed as an introduction to health and health care beyond the clinical environment, this course introduces students to the intersection of health and society by means of weekly lectures on various aspects of health and health care in relation to societal concerns and needs.
Credits: 1.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

HLSO 301 - Rhetoric/Reality of Hlth Care
The dissemination of information on health care and the language involved in the information are key factors in determining how the individual responds to health-care issues and treatment. This course will examine the nature of rhetoric as it influences health-care decisions at a societal and at an individual level.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 302 - Consumer-Driven Health Care
This course focuses on how market economics and personal responsibility combine to drastically change health-care insurance saving, utilization, and satisfaction. Effects on employers, health-care providers, hospitals, and insurers are examined.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 303 - Urban Health Care
Using an ecological model to analyze the special needs and issues in urban health care, students will examine the people, place, and politics of an urban area to assess the delivery and quality of health care and will complete an analysis of a real and current urban health care delivery problem, including solutions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 304 - Health Care/Quality Improvement
Quality Improvement (QI) is a critical component of the health-care delivery system in the United States. Because errors and reliability issues have major implications, standards and measures are imperative to ensure consistency and safety. As such, this course examines existing program in place and best-industry practices.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 305 - Health Promotion and Wellness
Students will study the seminal international and U.S. documents that founded the health-promotion and wellness movement and will
examine the use of health promotion in improving the health of individuals, groups, communities, and populations.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 306 - Human Services & Health Systems
This course introduces existing health-care systems in the United States and globally in terms of the human services that support and are supported by those systems and the effect of human services on those systems and vice versa.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 307 - Disaster Planning & Hlth Care
This course examines the unique challenges to managers of health-care institutions, in-patient populations, providers of care, and the public health and safety systems during a disaster, as well as the complex relationships between and among government officials, first responders, and the public regarding disaster planning and during a crisis.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 308 - Concepts of Injury Prevention
This course focuses on the epidemiology of injury prevention and control in the public sector. Mechanisms of injury and risk factors for accidental injury and death are examined. Various prevention strategies are reviewed, as is a look to the future of injury prevention.

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 309 - Health Fads, Trends & Myths
We are part of a society bombarded with fads, trends, and myths of all types, and health care is no exception. Distinguishing one from the other is a tricky business. This course will help separate fads from both trends and myths and all three from evidence-based therapies.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 310 - Children & Health Care
This course will focus on a range of issues facing the health-services industry in providing care to children with the goal of better understanding and meeting the special needs and challenges from both a direct care and systematic point of view.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 313 - AIDS, Society & Health Care
This course will look at the impact of HIV/AIDS on health care from a patient, provider, societal, and systems perspective. We will address how this local and national global pandemic affects societies and health services throughout the world.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

HLSO 314 - Human Sexuality & Health Care
This course explores human sexuality in relation to individual and societal attitudes and examines the role of health care in effectively dealing with and treating issues arising from human sexual dysfunctions, diseases, myths, phobias, and other concerns.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 319 - Health Care Legislation
This course will examine the major roles played by local, state, and federal governments in the funding, delivery, oversight, and evaluation of health care services. The rationale, history, and current examples of how localities protect the public health are given.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

HLSO 320 - Individual & Hlth Care Politics
Health care policy can easily become questions of statistics and spreadsheets that obscure their origins in individual experience. Drawing upon a series of personal essays, this course will discuss the power of first-hand experience in shaping health care discourse. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

**HLSO 321 - Hlth Issues & the Environment**
This course provides a general review of the leading environmental health issues of today by identifying historical, political, societal, and medical approaches to safeguarding population health from the environmental, while protecting and preserving the environment. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

**HLSO 322 - Ideologies & Health Care**
This course will examine the role of political, religious, cultural, and philosophical ideologies on societies -- past and present -- in terms of the nature and delivery of health care, as well as the effects of these ideologies on the health and well-being of the societies as a whole and of the individuals comprising the societies. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

**HLSO 327 - Health & Illness in Film**
This course analyzes various films with themes and stories related to health and illness in view of conceptual theories on health and illness and conceptual elements of film as a representational medium. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

**HLSO 329 - Grief & the Healing Arts**
Grief is a typical response to loss as, for example, in the loss of a human life, a body part, a former state of existence, or a valued pet. This course will examine grief and the role of the arts as a therapeutic means of dealing with grief and loss both in terms of professional health care giver and the grieving individual. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D

**HLSO 370 - Spec Topics in Health & Society**
This course covers topics of particular interest in health and society. In different terms, a variety of topics will be presented to the students. Students may repeat the same course, but not the same topic. Students majoring in health and society will have first preference. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Junior Sophomore Senior
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum Grade: D

**HLSO 470 - Readings in Health & Society**
This course is designed to allow approved junior and senior students with cumulative GPA's of at least 3.0 to pursue specialized interests in specific topics in health and society under the supervision of an appropriate faculty member. This course, but not the same topic, may be repeated for credit. 
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Junior Senior
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum Grade: D and ENGL 103 Minimum Grade: D

**HLSO 490 - Senior Research Project**
Designed for seniors in Health and Society, the student, in conjunction with a faculty member, selects a topic for a term project integrating knowledge acquired in the curriculum. The student develops objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the project. 
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must be enrolled in one of the following Major(s):
Health and Society
Must have the following Classification(s):
Senior
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum Grade: D

Invasive Cardiovascular Technology Courses

ICVT 300 - Introduction to Cardiology
This course is designed to provide an introduction to the cardiology environment. It includes medical terminology, confidentiality, professionalism, patient's rights, medical ethics, universal precautions, and communications skills in cardiology.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

ICVT 302 - Cardiovascular System
This course will review basic information about the functioning of the heart and lungs as it is applied to clinical practice. A complete description of the cardiovascular system to include blood circulations, embryological development and the pulmonary system will be discussed.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 103 Minimum Grade: C

ICVT 303 - Patient Assessment I
This course will allow the student to gain experience in recognizing and evaluating laboratory blood gases, hematology, coagulation and acid base disturbance as they relate to the needs of the cardiovascular patient. It will focus on "normal" and "abnormal" values associated with the diagnosis, treatment and prevention of cardiac episodes.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C

ICVT 304 - Cardiac Laboratory Procedures
Introduction to the diagnostic procedures used in the Cardiac Catheterization Laboratory. Prior didactic instruction in cardiac anatomy and physiology and medical instrumentation will be applied.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C

ICVT 305 - Coronary Anatomy & Imaging
Discusses the anatomy of coronary arteries. It will review radiation production, x-ray beam characteristics, film-screen characteristics, film processing and imaging system performance.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C

ICVT 306 - ECG & Special Topics
This course presents the electrocardiography theory and principles necessary to recognize and evaluate ECG data from a real-time monitor, 12 lead electrocardiogram. Included is a detailed examination of the hearts cellular mechanisms, conduction pathology and the disease process responsible for irregularities of heart rhythm.
Credits: 4.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C

ICVT 308 - Cardiovascular Angiography
This course will expand on information learned in Cardiac Laboratory Procedures. It will emphasize advanced cardiovascular diagnostic and therapeutic procedures to include injection techniques, Intra-aortic balloon pumping, and Percutaneous Transluminal Coronary Angioplasty (PTCA) and patient closure devices.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 304 Minimum Grade: C and ICVT 305 Minimum Grade: C

ICVT 309 - Hemodynamic Data I
Students are introduced to the primary hemodynamic formula's associate with monitoring and evaluation of the cardiovascular patient. Hemodynamic monitoring skills, basic hemodynamic calculations, arrhythmia recognition and reports generated on a variety of physiological monitoring systems are presented in detail.
Credits: 4.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 306 Minimum Grade: C and ICVT 304 Minimum Grade: C

ICVT 310 - Radiation Safety & Equipment
This course enables student radiographers to strengthen their competencies with issues related to radiation protection. The student will continue to evaluate such topics as radiobiology, radiation
ICVT 311 - Patient Assessment II
A continuation of patient assessments I, providing a solid theory base for the delivery of safe patient care in potentially unstable or unpredictable situations is the focus of this course. Documentation within the catheterization laboratory will be revisited along with continued discussion of procedures, protocols and patient education.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 303 Minimum Grade: C

ICVT 312 - Clinical Practicum I
This clinical course is designed to allow the student to gradually gain experience in assisting the cardiologist to perform diagnostic cardiac catheterization procedures and hemodynamic calculations. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.
Credits: 8.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 303 Minimum Grade: C and ICVT 304 Minimum Grade: C and ICVT 306 Minimum Grade: C and ICVT 309 Minimum Grade: C

ICVT 406 - Disease & Medical Emergencies
This course explains etiology, pathophysiology, and clinical findings associate with myocardial infarction, coronary artery, valvular and aortic diseases, and presents a detailed examination of congenital heart defects and hereditary disease process.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 412 Minimum Grade: C and HSCI 301 Minimum Grade: C

ICVT 407 - Cardiovascular Review I
In this course, students will evaluate and review certification requirements. Students will gain insight into their strengths and weaknesses associated with the certification requirement. Students will also form a directed plan of study to prepare for the CCI/RCIS or ARRT/CI examination.
Credits: 4.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 409 Minimum Grade: C and ICVT 412 Minimum Grade: C and HSCI 301 Minimum Grade: C

ICVT 409 - Hemodynamic Data II
This is a continuation of hemodynamic data I. The student will have further development in hemodynamics monitoring and calculations. This course will expand on student's knowledge of ventricular function, thermodilution methods, ejection fraction, reguritant fraction and other formulas utilized within the catheterization.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 309 Minimum Grade: C and ICVT 312 Minimum Grade: C

ICVT 410 - Cardiovascular Review II
This course is a continuation of ICVT 407 with emphasis on additional evaluate and review certification requirements.
Credits: 5.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Co-Requisites: HSCI 302, ICVT 432

ICVT 411 - Special Topics in Cardiology
This course covers topics of particular interest to students in cardiovascular health science. In different terms, a variety of topics will be presented to the students.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

ICVT 412 - Clinical Practicum II
A continuation of Clinical Practicum I, with emphasis and understanding of all clinical duties involved within the cardiovascular area to include additional knowledge of aseptic techniques.
Credits: 8.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 309 Minimum Grade: C and ICVT 312 Minimum Grade: C
**ICVT 422 - Clinical Practicum III**
A continuation of Clinical Practicum II, with emphasis and understanding of all clinical duties involved within the cardiovascular area to include additional knowledge of aseptic techniques.

Credits: 10.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 412 Minimum Grade: C and ICVT 409 Minimum Grade: C

**ICVT 432 - Clinical Practicum IV**
A continuation of Clinical Practicum III, students will continue to develop skill by active participation in a cardiac catheterization laboratory.

Credits: 8.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Co-Requisites: HSCI 302, ICVT 410
Pre-Requisites: ICVT 407 Minimum Grade: C and ICVT 422 Minimum Grade: C

---

**Medical Billing and Coding Courses**

**MBC 101 - Medical Terminology for Billers and Coders**
This course covers medical terminology and anatomy from a biller's and coder's perspective and provides a foundation for courses in medical billing and coding.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

**MBC 201 - Medical Billing I**
Designed as part one of a two-part sequence, this course is intended for those who have no experience or minimal experience with medical billing. The student will learn principles of medical billing related to proper claim form preparation, submission, and payment processing.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

**MBC 202 - Medical Billing II**
Designed as part two of a two-part sequence, this course is intended for those who have completed MBC 201 and who are seeking further knowledge of medical billing.

Credits: 3.00
College: Nursing & Health Professions

---

**MBC 250 - Medical Billing Software**
This course takes the theory learned in Medical Billing I and II and applies it to billing software applications. Charge entry, payment posting, report design, and generation are covered.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 201 Minimum Grade: D or HSAD 201 Minimum Grade: D

**MBC 301 - Physician-Based Medical Coding I**
Designed as part one of a two-part sequence, this course teaches the principles of medical coding related to the three main coding manuals and can prepare the student to sit for one of the two national board exams in medical coding.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 202 Minimum Grade: D or HSAD 202 Minimum Grade: D

**MBC 302 - Physician-Based Medical Coding II**
Designed as part two of a two-part sequence, this course continues instruction in the principles of medical coding related to the three main coding manuals, as well as preparing the students to sit for one of the two national board exams in medical coding.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 301 Minimum Grade: D or HSAD 301 Minimum Grade: D

**MBC 303 - Hospital-Based Medical Coding I**
Designed as part one of a two-part sequence, this course teaches the principles of hospital-based medical coding related to the coding for inpatient hospital cases by means of the main coding manuals, as well as helping to prepare the student to sit for one of the two national board exams in medical coding.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 301 Minimum Grade: D or HSAD 301 Minimum
Grade: D

MBC 304 - Hospital-Based Medical Coding II
Designed as part two of a two-part sequence, this course continues
instruction in the principles of hospital-based medical coding related to
the coding for in-patient and out-patient hospital cases by means of the
main coding manuals, as well as helping to prepare the students to sit
for one of the two national board exams in medical coding.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 303 Minimum Grade: D or HSAD 303 Minimum
Grade: D

MBC 350 - Physician-Based Chart Auditing
This course applies knowledge learned in Physician-Based Medical
Coding I and II to auditing patient-visit documentation. Use of various
audit tools and software will be explored in addition to preparing a
presentation of audit results to physician and staff.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 302 Minimum Grade: D or HSAD 302 Minimum
Grade: D

MBC 360 - Hospital-Based Case Studies
This course applies knowledge learned in Hospital Based Medical
coding I and II and applies it to actual coding of case studies for the
hospital in-patient and out-patient setting, as well as providing
additional preparation for hospital-based coding certification
credentials.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 304 Minimum Grade: D or HSAD 304 Minimum
Grade: D

Neuroscience Courses

NEUR 410 - Neuroscience
This course is designed to provide the student with a strong foundation
in the structure and function of the nervous system. Clinical
correlations are provided throughout the course to underscore the
necessity for understanding the material for effective clinical practice
and to provide a neurophysiological basis for various pathological
conditions commonly encountered in the practice.
Credits: 4.00
College: Nursing & Health Professions

Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 103 Minimum Grade: D

Nursing Courses

NURS 100 - Nursing in Society
This course focuses on the nature of nursing and serves as an
introduction to professional nursing. The development of the student’s
identity as a nurse and professional practitioner is a focus as students consider their choices to be nurses
The centricity of communication to the therapeutic nurse–patient relationship is
introduced. Nursing history, the experience of illness, nursing issues in
the context of overall American health care system, and the future role
of the professional nurse are explored. This is a writing intensive
course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor’s Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

NURS 101 - Ethics, Advocacy and Professionalism in Nursing I
Nurses have an ethical, legal, and professional obligation to care for
patients in all healthcare environments. The purpose of the first part of
this course is to provide students with the tools, strategies and
resources they will need to meet these obligations. The focus will be on
the practical application of defining nursing as a profession and
integrating concepts into the nursing role.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Bachelor’s Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Co-Requisites: NURS 102, NURS 200, NURS 201, NURS 204, NURS 337

NURS 102 - Health Promotion, Teaching and Self Care
Introduces self-care behaviors for optimal health and professional
nursing practice. Focuses on interdisciplinary health and disease-
prevention principles including objectives of Healthy People 2010.
Examines principles of health teaching and intervention with
individuals, families and groups. A web-enhanced module on medical
terminology prepares students for coop experiences and clinical
nursing courses. Some or all pre-requisites may be taken as either a
pre-requisite or co-requisite. Please see the department for more
information.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor’s Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Accelerated Career Entry BSN
Nursing
Pre-Requisites: NURS 100 Minimum Grade: D
NURS 103 - Ethics, Advocacy and Professionalism in Nursing II
The focus of this course will be on the practical application of hope, effective communication and vulnerability. These concepts will be introduced and examined in order to enhance and provide a foundation for their transition into the role of a professional nurse.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Pre-Requisites: NURS 101 Minimum Grade: D

NURS 104 - Ethics, Advocacy and Professionalism in Nursing III
The purpose of the third part of this course is to focus on the practical application of redefining nursing, healthcare and medication errors, medication diversion, and end of life issues. These concepts will be introduced and examined as they relate to the student's professional growth.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Pre-Requisites: NURS 103 Minimum Grade: D

NURS 200 - Principles of Nursing Practice
This course will focus on the concepts, skills, and the attitudes fundamental to professional nursing practice within a framework of clinical decision-making. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Accelerated Career Entry BSN
Nursing
Pre-Requisites: NURS 100 Minimum Grade: D and NURS 102 Minimum Grade: D and CHEM 103 Minimum Grade: D and CHEM 108 Minimum Grade: D and ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D and ANAT 103 Minimum Grade: D and BIO 226 Minimum Grade: D

NURS 201 - Health Assessment Across the Life Span
Course focuses on health assessment across the lifespan. The focus is on the development of interviewing skills, assessment of health status, and physical examination skills for the beginning nurse student.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

NURS 204 - Nursing Informatics
This course is designed to examine computer technology and tools of the Internet and World Wide Web with a focus on the use of cyber technology and selected computer applications. The automation of data management through information systems, expert systems, and telecommunication, and the impact of these technologies on nursing administration, education, practice and research are addressed in the context of nursing informatics. Actual problem-solving and mini-design projects on how computerization and automation can improve the efficiency of nursing care delivery will be emphasized.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: NURS 200, NURS 201
Pre-Requisites: NURS 100 Minimum Grade: D and NURS 102 Minimum Grade: D and CS 161 Minimum Grade: D

NURS 300 - Comprehensive Adult Nursing I
This course will focus on the development of selected competencies for nursing care assessment and management of adults with predictable human responses to specific system alterations.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Co-Requisites: NFS 200, NURS 301
Pre-Requisites: ANAT 103 Minimum Grade: D and BIO 221 Minimum Grade: D and NURS 201 Minimum Grade: D and NURS 200 Minimum Grade: D

NURS 301 - Pharmacology for Nursing I
Introduces professional nursing students to the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs and important drug information resources.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Co-Requisites: NURS 300
Pre-Requisites: NURS 200 Minimum Grade: D and NURS 201 Minimum Grade: D

NURS 303 - Women's Health Nursing
This course focuses on the development of competencies for the nursing care management of child-bearing families and health problems/concerns that affect women. The course will also emphasize the nurse's role in health assessment, health promotion, and promotion of adaptive processes for the maternity patient and the promotion of women's health in general. Sociocultural, economic, political, and ethical factors that impact on health promotion, disease prevention, and risk reduction for the childbearing family and women...
in general are examined. Selected women's health clinical settings will be utilized for clinical practice.

Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D

NURS 304 - Nursing of Children
This course focuses on the development of competencies for the nursing care management of children experiencing potential and actual alterations in health. An emphasis will be placed on the nurse's role in health assessment, health promotion, and promotion of adaptive processes for the child within the context of the family. Selected pediatric clinical agencies will be utilized for clinical practice.

Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: PSY 101 Minimum Grade: D and PSY 120 Minimum Grade: D and NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D

NURS 305 - Comprehnsv Adult Nursing II
This course is a continuation of NURS 300. It will focus on the development of selected competencies for nursing care assessment and management of adults with predictable human responses to specific system alterations. Risk reduction, recovery, and rehabilitation of patients with selected disease processes and common clinical problems are addressed. Didactic medical-surgical content will focus on the gastrointestinal, renal, immunologic, integumentary, sensorineural, neurologic, musculoskeletal, male reproductive, and infectious disease systems. Home care principles and health policy for adults with common acute and chronic illnesses and diseases will also be explored. Selected general medical-surgical settings and home-care agencies will be utilized for clinical practice.

Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D

NURS 306 - Pharmacology for Nursing II
This course is a continuation of NURS 301. The course will begin with a review of drug and dosage calculations. This course will focus on drugs and cardiovascular and renal systems, respiratory system, antinfective and anti-inflammatory agents, immune and biologic modifiers and chemotherapeutic agents, gastrointestinal system and nutrition, and miscellaneous therapeutics including hemalogic, dermatologic, ophthalic, and optic agents. Strategies to prevent medication errors in health care agencies will be discussed.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following College(s)/School(s):
Nursing & Health Professions
Must have the following Classification(s):
Senior
Pre-Requisites: STAT 201 Minimum Grade: D
NURS 336 - Alternatv & Complmt Hlth Intrv
This course is an introduction to the theoretical literature which investigates the efficacy of alternative medicine health care practices and complementary therapies which are broadly defined as biotherapeutic interventions. Any intervention which is aimed at biologic, psychologic, or spiritual healing may be termed biotherapeutic. The context of the human illness experience is explored as an opportunity for nurses to recommend and patients to experience traditional and nontraditional healing practices. Biotherapeutic modalities with applications for nursing and health care are also explored. An emphasis is placed on the delivery, teaching, and referral of biotherapeutic interventions for clients seeking alternative and complementary health therapies.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following College(s)/School(s):
Nursing & Health Professions
Must be enrolled in one of the following Major(s):
Nursing
Must have the following Classification(s):
Senior
Pre-Requisites: NURS 330 Minimum Grade: D and STAT 201 Minimum Grade: D

NURS 337 - Genetics in Nursing and Health
This course will discuss the implications of the Human Genome Project and how to apply genetic knowledge to patient knowledge to patient care in the following ways: identifying those in need of further genetic testing, offering genetic information, recording genetic information, referring patients and families for further genetic information and evaluation, support informed choice regarding health decisions, advocacy for privacy, confidentiality, and non-discrimination with regard to genetic information, and participate in management of patients with genetic conditions. The ethical consideration as they relate to genetics will also be explored. This is a writing intensive course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Pre-Requisites: NURS 325 Minimum Grade: D and NURS 404 Minimum Grade: D

NURS 339 - Pathophysiology
Pathophysiology for Nurses. This course builds upon the theoretical foundations of nursing theory; human anatomy, and physiology by addressing basic concepts, principles, and processes associated with common pathologies, physiological alterations in body system, and the body's ability to compensate for these changes.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 103 Minimum Grade: D and CHEM 103 Minimum Grade: D and CHEM 108 Minimum Grade: D and BIO 221 Minimum Grade: D

NURS 340 - Transformational Leadership
Transformational Leadership. This course will focus on the professional nurses roles in applying the principles of leadership, management and ethics in health care organizations across the continuum of care. The course will provide opportunities in problem solving, critical thinking, constructive communication and well as teaching learning strategies that emphasize the leadership/management roles of the nurse.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

NURS 346 - Health Assessment
Health Assessment and Promotion for Diverse Vulnerable Populations. This course is designed to assist professional nurses in developing interviewing skills, physical assessment techniques, and preventive health interventions when working diverse and vulnerable populations.
Credits: 6.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

NURS 350 - Independent Study in Nursing
This is a guided independent study. Students study a subject under the supervision of the nursing faculty member. May be repeated for credit.
Credits: 1.00 to 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

NURS 370 - Issues in Aging and Longevity
Issues in Aging and Longevity. This course focuses on current issues in promoting longevity with healthy aging. Current biopsychosocial theories on aging are explored. The multidisciplinary needs of older adults, including relationship challenges, are addressed.
Credits: 4.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

NURS 375 - Nurses Building a Healthy Comm
Nurses Building a Healthy Community. This course focuses on the professional role of the community public health nurse working collaboratively to build a health community. The role of nurses is explored by their actions with aggregate population, community partners, and other health providers.
Credits: 6.00  
College: Nursing & Health Professions  
Department: School of Nursing  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Pre-Requisites: NURS 346 Minimum Grade: D

NURS 388 - Nursing Case Study I  
Nursing Case Study Integration I. This course is designed to extend students' understanding of common adult health disorders. Critical thinking skills will be used to integrate and analyze knowledge of therapeutic communication, health assessment and nursing process, pharmacology, nutrition, and anatomy and physiology.  
Credits: 1.00  
College: Nursing & Health Professions  
Department: School of Nursing  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Pre-Requisites: NURS 100 Minimum Grade: D and NURS 102 Minimum Grade: D and NURS 200 Minimum Grade: D and NURS 201 Minimum Grade: D

NURS 400 - Leadership, Management, and Entrepreneurship in Nursing  
Focuses on professional nursing role in applying principles of leadership and management in health care organizations across the continuum of care. Emerging roles and responsibilities of nurse entrepreneurs and professional practitioners will be explored. Also emphasizes the role of the professional nurse in efficient patient care management in complex health care settings. This is a writing intensive course.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Must be enrolled in one of the following Major(s):  
Accelerated Career Entry BSN  
Nursing  
Pre-Requisites: NURS 305 Minimum Grade: D

NURS 401 - Comp Adult Nursing III  
This course will focus on the development of selected competencies for nursing care assessment and management of adults with unpredictable and complex human responses to specific system alterations. The course will emphasize the assessment of functioning, adaptation, and recovery for patients with high acuity illnesses and clinical problems. Selected high acuity acute care settings will be utilized for clinical practice.  
Credits: 6.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Pre-Requisites: NURS 301 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D

NURS 403 - Community Public Health Nursing  
The focus of this course is the professional nurse's role in working with aggregates in the community. The student will first reexamine the principles of health promotion as they form the bases for effective community health nursing practice. The student will then explore the role of the community health nurse working collaboratively with the community as part of an interdisciplinary team. Grounded in systems theory and informed by the concepts and principles of community health nursing, public health nursing, wellness, health promotion, and national goals, the student works with aggregates in the community setting. An introduction to conceptual frameworks that guide community-based, population-focused practice and research is included in both the classroom and clinical portions of the course. The student uses skills in community assessment, program planning and practice interventions in helping identify populations within the community maintain their optimum level of health. Selected measure for evaluating outcomes of community health nursing programs are discussed. Contemporary public health problems encountered in community health nursing practice are explored. Selected community health and public health clinical agencies will be selected for clinical practice.  
Credits: 6.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D

NURS 404 - Nursing Informatics for BSN Completion  
Designed for registered nurses in the RN-BSN completion program. Examines computer applications, technology, internet tools. Focuses on health care informatics context for data management, information systems & telecommunications in nursing administration, education and practice. Problem solving and mini-design projects related to increased efficiency in nursing care delivery.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Must be enrolled in one of the following Major(s):  
Nursing (Online)

NURS 450 - Contemporary Gerontological Nursing  
This course will focus on the nursing management of older adults. Contemporary theories of gerontology, theories of aging, physiological/psychological functioning, impact of developmental changes, illness, and dysfunction will be emphasized. The geriatric patient will be examined at various levels -- healthy older adult, older adult at risk, the older adult experiencing acute and chronic illness. Students' clinical experiences will be in home health agencies, transitional, and long-term facilities.
Credits: 6.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
Must have the following Classification(s):  
Senior  
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D and NURS 302 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D and NURS 330 Minimum Grade: D and NURS 401 Minimum Grade: D and NURS 403 Minimum Grade: D and SOC 125 Minimum Grade: D

NURS 460 - Global Health & Policy Issues  
Global Health and Policy Issues. This course is an overview of global health issues. Emphasis will be placed on understanding of health policy development related to global health issues, healthcare systems, and its effect on selected population.  
Credits: 6.00  
College: Nursing & Health Professions  
Department: School of Nursing  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Pre-Requisites: NURS 325 Minimum Grade: D and NURS 375 Minimum Grade: D

NURS 462 - Science, Technology and Health  
Science, Technology, and Health. This course is an intensive overview of the latest discoveries and trends in science and technology which have implication if the broader health of man-kind and nursing.  
Credits: 6.00  
College: Nursing & Health Professions  
Department: School of Nursing  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Pre-Requisites: NURS 330 Minimum Grade: D and NURS 325 Minimum Grade: D

NURS 464 - Sr Concentration in Nursing  
Senior Concentration in Nursing. The student, with a faculty supervisor, selects a clinical area of practice for in-depth 60 hours of clinical experience. Students will be immersed in the current literature of the clinical discipline to demonstrate competent and safe nursing practice.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: School of Nursing  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Must have the following Classification(s):  
Senior

NURS 465 - Senior Thesis in Nursing  
Senior Thesis in Nursing. The student, with a faculty supervisor, plans a project that will be implemented that quarter. The project must be substantive and scholarly and be presented to the nursing community.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: School of Nursing  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Must have the following Classification(s):  
Senior

NURS 480 - Special Topics in Nursing  
The course provides a forum for in-depth exploration of a contemporary issue in nursing or health care which can influence the quality of health care services provided to patients. Specific issues covered in the course will change from term to term. This course may be repeated three times for credit as topics vary.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
Must be enrolled in one of the following Program Level(s):  
Undergraduate Quarter  
Must be enrolled in one of the following Major(s):  
Nursing  
Must have the following Classification(s):  
Senior

NURS 481 - Issues & Resolutions in End of Life Care  
Promotes understanding of complexities associated with care of clients and families across the lifespan at end-of-life. Explores nursing management of individuals and families facing end-of-life care and decisions. Emphasis on evidenced-based practice in legal, ethical and professional decision-making framework. Conforms with AACN/ELNEC model.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Must be enrolled in one of the following Major(s):  
Nursing  
Must have the following Classification(s):  
Senior

NURS 482 - Cultural Dimensions of Nursing Care  
The focus of this course will be on strategies for providing culturally competent nursing care in a multicultural society. Emphasis is placed on evidence-based nursing practice within a framework of ethical, legal, and professional decision making.  
Credits: 3.00  
College: Nursing & Health Professions  
Department: CNHP - Bachelor's Degree  
Restrictions:  
May not be enrolled in one of the following Program Level(s):  
Continuing Education  
Must be enrolled in one of the following Major(s):  
Nursing  
Must have the following Classification(s):  
Senior
NURS 488 - Nursing Case Study II
Nursing Case Study Integration II. This course is designed to extend students' understanding of common adult health disorders. Critical thinking will be used to integrate and analyze knowledge of therapeutic communication, health assessment and nursing process, pharmacology, nutrition, and anatomy and physiology using selected case studies. 
Credits: 1.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
‐ Continuing Education
Pre-Requisites: NURS 100 Minimum Grade: D and NURS 102 Minimum Grade: D and NURS 201 Minimum Grade: D and NURS 300 Minimum Grade: D and NURS 388 Minimum Grade: D

NURS 489 - Synthesis of Nursing Knowledge
Synthesis of Nursing Knowledge. This course prepares students for senior seminar by providing a comprehensive content review of clinical material and culminating in a comprehensive HESI exam. Skills needed for effective interpersonal communication and professional behaviors of the nurse will be learned and rehearsed utilizing the standardized patient lab experience. May be repeated once for credit.
Credits: 4.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
‐ Continuing Education
Pre-Requisites: NURS 301 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 330 Minimum Grade: D and NURS 450 Minimum Grade: D

NURS 490 - Sr Project in Nursing
In this course, the student with faculty supervision, plans a long-term project that will be implemented in NURS 491. This project will integrate the academic and practical knowledge the student has acquired in their nursing curriculum. Examples of projects include the following: developing/implementing a teaching tool or a teaching plan, conducting a small clinical research study or evaluating data specific to management patterns that promote effective nursing care. Students will develop objectives relevant to the project, critique the literature and present a plan for implementation. This is a writing intensive course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D and NURS 302 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 400 Minimum Grade: D and NURS 401 Minimum Grade: D and NURS 403 Minimum Grade: D and NURS 404 Minimum Grade: D

NURS 491 - Sr Project in Nursing II
This is a continuation of NURS 490. Implementation of the project developed in NURS 490 will be done under faculty supervision. Students will make a formal presentation of their project to their professional peers and the MCP Hahnemann/Drexel community. This is a writing intensive course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must have the following Classification(s):
‐ Senior
Pre-Requisites: NURS 490

NURS 492 - Sr Seminar in Nursing
This course will serve as a review of important concepts from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Nursing Technology lab to review procedures practiced throughout the nursing curriculum and will use computerized testing to gauge their mastery of professional nursing content.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must have the following Classification(s):
‐ Senior
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D and NURS 302 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D and NURS 330 Minimum Grade: D and NURS 330 Minimum Grade: D and NURS 400 Minimum Grade: D and NURS 401 Minimum Grade: D and NURS 403 Minimum Grade: D and NURS 404 Minimum Grade: D and NURS 450 Minimum Grade: D

Physiology Courses

PHGY 325 - Physiology
Presentation of organ function with emphasis on the integration of neural and humoral control mechanisms.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
‐ Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D and ANAT 103 Minimum Grade: D

PHGY 382 - Pathophysiology for Hlth Prof
Introduction to disturbances of normal function and basic mechanisms involved in diseases of major organ systems. Presentation of the general aspects of the common human pathophysiological conditions and syndromes.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
‐ Undergraduate Quarter
Must be enrolled in one of the following Major(s):
‐ Nursing (Online)
Radiologic Sciences Courses

RADI 100 - Introduction to Radiologic Technology
Content is designed to provide a fundamental background in ethics. The student examines a variety of ethical issues and dilemmas found in clinical practice. An introduction to legal terminology, concepts and principles. Topics include malpractice, misconduct and the ASRT scope of practice.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

RADI 102 - Introduction to Radiologic Principles II
Introduction to Radiologic Principles II is a continuation of RADI 100 to include medical terminology. An orientation to the understanding of radiographic order and interpretation of diagnostic reports.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 100 Minimum Grade: C

RADI 132 - Radiologic Physics I
Radiologic Physics I begins with a review of basic mathematics and measurements, then proceeds to investigate the atom, electricity, magnetism electrostatics, electromagnetism, motors, and generators.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: MATH 100 Minimum Grade: C

RADI 133 - Radiologic Physics II
Radiologic Physics II provides a detailed study of the characteristics of X radiation, production of X radiation, the X-ray tube, and circuitry.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 132 Minimum Grade: C

RADI 150 - Principles of Radiographic Exposure I
Principles of Radiographic Exposure I provides an understanding of factors that govern and influence the production of radiographic images. Also presents accessory equipment and its effects on image quality.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

RADI 153 - Principles of Radiographic Exposure II
This course is designed to familiarize the student with the pertinent factors involved in radiographic quality. Radiographic equipment involved in daily use is studied and applications to the clinical setting are made.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 150 Minimum Grade: C

RADI 154 - Radiographic Exposure III
A continuation of RADI 153 to include processing of radiographic films. Processing procedures and artifacts are discussed.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 153 Minimum Grade: C

RADI 155 - Radiographic Procedures I
A thorough presentation of positioning nomenclature, body planes, and anatomic terms, then proceeds to positioning technique for routine chest abdominal studies and the upper extremities.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

RADI 165 - Radiographic Procedures II
A continuation of RADI 164 to include lower extremities.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: RADI 196
Pre-Requisites: RADI 164 Minimum Grade: C and RADI 195 Minimum Grade: C

RADI 166 - Radiographic Procedures III
A continuation of RADI 165 to include vertebral column and bony thorax.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
RADI 193 - Methods of Patient Care I
Discusses principles, techniques, and procedures of patient care with particular emphasis on nursing situations routinely encountered in the radiology department.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions: Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: RADI 193 Minimum Grade: C

RADI 194 - Methods of Patient Care II
This course is continuation of RADI 193. This course includes pediatrics, geriatrics, pharmacology, drug administration and alternative medical treatments.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions: Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: RADI 193 Minimum Grade: C

RADI 195 - Clinical Practicum I
Introduces the student to the Department of Diagnostic Radiology, including rotations through fluoroscopy, general radiology, trauma unit, and operating suite as well as some clerical areas.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions: Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Co-Requisites: RADI 150, RADI 164

RADI 196 - Clinical Practicum II
Continues the clinical experience in the Department of Diagnostic Radiology. Allows students to continue to refine their clinical skills through second rotations in areas of the department. Requires students to perform most examinations with direct supervision.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions: Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: RADI 195 Minimum Grade: C and RADI 164 Minimum Grade: C

RADI 197 - Clinical Practicum III
Gives the students the opportunity to strengthen their clinical skills. Increases student independence as the course progresses, allowing them to move from direct supervision into areas of indirect supervision.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions: Must be enrolled in one of the following Program Level(s): Undergraduate Quarter
Pre-Requisites: RADI 200 Minimum Grade: C and RADI 291 Minimum Grade: C
RADI 203 - Principles of Exposure IV
Courses a complete review of exposure factors including an investigation of the theory and application of these factors as they relate to body habitus, tissue absorption and pathological changes.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 154 Minimum Grade: C

RADI 204 - Principles of Radiation Protection
Courses a detailed study of the procedures and devices developed for maximum protection of patients and personnel from radiation. Discusses government agencies along with their standards and regulations.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 133 Minimum Grade: C

RADI 215 - Radiation Biology
Courses the effects of radiation on cells and the factors affecting cell response. Discusses somatic and genetic effects, both acute and chronic.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 103 Minimum Grade: C

RADI 221 - Quality Assurance
Courses the evaluation of radiographic systems to ensure consistent production of quality images. Explains test procedures for evaluating equipment and discusses state and federal regulations.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 154 Minimum Grade: C

RADI 222 - Pathology
Courses the nature and causes of medical-surgical diseases, with emphasis on the radiographic considerations of disease processes.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 223 - Registry Review
Pre-Requisites: RADI 292 Minimum Grade: C and RADI 204 Minimum Grade: C and RADI 201 Minimum Grade: C

RADI 223 - Registry Review
Courses prepares the radiologic technology student to sit for the American Registry of Radiologic Technology Examination.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: RADI 221, RADI 293
Pre-Requisites: RADI 292 Minimum Grade: C and RADI 204 Minimum Grade: C and RADI 201 Minimum Grade: C

RADI 291 - Clinical Practicum V
Courses second year course providing a transition into the clinical environment. Gives students indirect supervision and greater responsibility for patients and equipment. Begins rotation through specialty areas such as radiation therapy, computed tomography.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 198 Minimum Grade: C

RADI 292 - Clinical Practicum VI
Courses continues the clinical experience in general areas as well as specialty areas of diagnostic imaging. Requires students to perform examinations with indirect supervision.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 291 Minimum Grade: C and RADI 200 Minimum Grade: C

RADI 293 - Clinical Practicum VII
Courses the final clinical experience, in which students work to perfect all clinical skills. Includes final-competency testing.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 292 Minimum Grade: C and RADI 202 Minimum Grade: C

Statistics Courses

STS 345 - Stats for the Health Sciences
Covers statistical measures; binomial, normal, t, F, and chi-square distributions; elementary probability theory; quality control; and hypothesis testing with an emphasis on application to the health-care professions.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following College(s)/School(s):
Nursing & Health Professions

STS 350 - Adv Stats for Clinical Science
This course focuses on the statistical methods that are appropriate for clinical research. The subject of medical research and common clinical trials designed are introduced. The use of NCSS and SAS statistical software is initiated during a review of basic statistic methods. Advanced statistical methods used in clinical trials are also covered.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: STS 345 Minimum Grade: D
