The College of Nursing and Health Professions
2011-2012 Undergraduate Course Descriptions

Anatomy Courses..........................................................................................................................................................................................................2
Behavioral & Addictions Couns Courses ..........................................................................................................................................................2
Cardiovascular Perfusion Courses .....................................................................................................................................................................7
Health Sciences Courses ........................................................................................................................................................................................9
Health Services Administration Courses ..........................................................................................................................................................11
Health and Society Courses ..................................................................................................................................................................................16
Invasive Cardiovascular Tech Courses ..........................................................................................................................................................19
Medical Billing and Coding Courses ..............................................................................................................................................................22
Neuroscience Courses ........................................................................................................................................................................................23
Nursing Courses ..........................................................................................................................................................................................................23
Nutrition & Food Science Courses ....................................................................................................................................................................30
Physiology Courses ....................................................................................................................................................................................................35
Radiologic Sciences Courses .............................................................................................................................................................................35
Statistics Courses ........................................................................................................................................................................................................38
Anatomy Courses

ANAT 101 - Anatomy & Physiology I
This course is a general study of the structures and physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lecture and lab material. The lecture portion deals with the general principles. In the lab, the student participates with practical examination of microscopic sections, tissues and organs, and the anatomical layout of human cadavers. The cell, tissues and musculoskeletal system will be covered in this course, as well as muscle and nerve physiology.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

ANAT 102 - Anatomy & Physiology II
This course is a continuation of ANAT 101. This course is a general study of the structures & physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lab and lecture material. The lecture deals with the general principles. In the lab, the student participates with practical examination of microscopic sections, tissues and organs, and the anatomical layout of various animal cadavers. The nervous, endocrine and digestive system will be covered in this course.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

ANAT 103 - Anatomy & Physiology III
This course is a continuation of ANAT 101 & 102. This course is a general study of the structures and physiology of the human body. Fundamental concepts of microscopic tissue structure, gross structures of organs and body system organization are taught. The course consists of both lab and lecture material. The lecture deals with the general principles. While in the lab, the student participates with practical examination of microscopic sections, tissues, organs and the anatomical layout of various animal cadavers. The cardiovascular, lymphatic, respiratory, urinary and reproductive systems will be covered in this course.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 102 Minimum Grade: C
Repeat Status: Not repeatable for credit

ANAT 202 - Sectional Anatomy
This course is designed to bridge the gap between Anatomy & Physiology and Advanced Anatomy. Anatomy of the head, neck, thorax, abdomen and pelvis is reviewed. Relationships of surface and internal structures from different bodily systems are emphasized. The analysis is supported by illustrations, CT scans, and MRI images.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D
Repeat Status: Not repeatable for credit

ANAT 420 - Advanced Anatomy I
This course introduces the fundamentals of Gross Anatomy. Emphasis is placed on the regional study of the head, neck, back and upper extremity. Special attention is directed to study of the brain and spinal cord. Laboratory materials include human cadavers, models, radiographs, CT scans, MRI images and relevant web sites.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

ANAT 421 - Advanced Anatomy II
This course is a continuation of ANAT 420. Emphasis is placed on the regional study of the thorax, abdomen, pelvis and lower extremity. Laboratory material include human cadavers, models, radiographs, CT scans, MRI images and relevant web sites.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 420 Minimum Grade: D
Repeat Status: Not repeatable for credit

Behavioral & Addictions Couns Courses

BACS 100 - Life-Span Human Development
This course introduces students to the physical, cognitive and psychological aspects of human development from birth through advanced old age. Topics include: environmental influences, perception, gender roles and sexuality, spirituality, motivation, lifestyle, and psychiatric disorders.
BACS 200 - Foundation of Behavioral Health Care
This course introduces the students to the historical and current contexts of program components that comprise community-based behavioral health systems. Topics include: work-force roles; regulatory policies and program practices; federal, state, and county program organizations; advocacy issues; and managed care systems issues.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

BACS 210 - Behavioral Disorders
Clinical characteristics and diagnostic features of major psychiatric disorders are reviewed within the contexts of community-based treatment approaches. Topics include: etiological models, differential symptoms, diagnostic/functional assessment and treatment interventions.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

BACS 220 - Counseling Theory and Practice
Surveys major counseling theories with emphasis upon study and practice of basic counseling competencies. Topics include: relationship building, effective communication and helping skills, common stages in counseling process, and helping skills with special populations.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

BACS 230 - Genetics and Mental Health
This course explores genetic concepts and principles as they pertain to human variation in behavioral and general health disorders. Students obtain a firm grounding in the basic science and the tools used by researchers to explore the contribution of the genes (and their essential counterpart, the environment) to behavior.

BACS 232 - Ethics and Professional Responsibility
This course discusses the philosophical, legal and moral responsibilities of professionals in behavioral health and human services setting with a strong emphasis on counseling relationships. A wide array of ethical issues are presented and discussed. Moral dilemmas comprised of competing moral obligations are examined.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

BACS 234 - Introduction to Addictive Disorders
This course introduces the nature of addictions and the impairment in individuals who suffer from addictions. It includes a review of theories on substance disorders and approaches to identification, prevention and treatment. Topics include: historical perspectives, diagnosis, types of addictive behaviors, treatment, and current research.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

BACS 236 - Psychiatric Rehabilitation Principles and Practices
This is an introductory survey courses which acquaints the student with the principles and practices of Psychiatric (or Psychosocial) Rehabilitation. It provides the student with an understanding of the manner in which Psychiatric Rehabilitation approaches, understands and assists the person with serious and persistent mental illness.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 250 - Behavioral Health Informatics
This course introduces students to the uses and importance of computer technologies in transforming behavioral health care practice. Course sections cover both the science and practice applications of
emerging technologies from psychotherapies, to medication management, and to quality care management.

Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

BACS 255 - Multicultural Counseling
This course provides didactic information for use in the development of awareness and skills necessary for effective therapeutic relationships with clients of diverse cultural backgrounds.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

BACS 301 - Group Counseling I
This course is an introduction to the theoretical base and skills used in conducting group counseling. Included are theories of group work, facilitation techniques, types and styles of groups and models of group functioning. Students participate in a group as a group member and to act as a group co-leader in order to practice leadership skills.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 304 - Cognitive-Behavioral Counseling I
This course familiarizes the student with key cognitive-behavioral models used in therapy today. Differences and similarities are explored. Students are exposed to the philosophical models and the related techniques stemming from these models. Skills on how to conceptualize and work with a client are taught.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 310 - Recovery and Relapse Prevention
The goal of recovery and relapse preventions is the development personal strategies that will help the person restructure their life in a way that will prevent a return to active addiction. This course helps define the role of professional counselor in understanding the dynamic of recovery from a clinical perspective.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 312 - Case Management Methods
This course is an in-depth explorations of the definitions and methodologies of case management services. The course is designed to provide students with the most up to date research and clinical applications of services management in the practice of addictions counseling.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 320 - Crisis and Brief Intervention
This course introduces student to the fundamental concepts, theories, strategies, and skills needed to understand and conduct effective crisis and brief intervention counseling. Particular attention is given to several types of crises commonly encountered in working within settings serving people who have long-term disabling psychiatric disorders.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 325 - Psychopharmacology for Counselors
This course focuses on the mechanisms of action of psychiatric medications, and uses and limitations of psychopharmacology in the overall management of serious mental illness. The student will learn to work collaboratively with the consumer, and others, and the importance of integrating the use of medications with psychiatric rehabilitation approaches.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
BACS 350 - Child Psychopathology
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 360 - Preventing Substance Abuse
This course provides a comprehensive overview of prevention theories and prevention programming applications as regards substance use disorders. Course topics include: theories and models basic to prevention, science-based prevention strategies and model programs, strategic planning and outcome evaluation.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

BACS 367 - Advanced Counseling Intervention
This course introduces students to current best practices when counseling clients with behavioral health disorders. Students are provided with training in the advanced counseling skills of Motivational Interviewing and Solution-Focused Therapy as well as introduced to experimental approaches to counseling this population.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BACS 220 Minimum Grade: C
Repeat Status: Not repeatable for credit

BACS 368 - Addictions Counseling with Special Populations
This course involves the student in examinations of challenges for addictions counselors in working with frequently underserved populations represented by adolescents and elderly persons. Effective approaches to assessing and treating both youthful and older adult individuals with addiction disorders are explored and defined.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling

BACS 370 - Problem Gambling Interventions
This course covers basic areas of treatment knowledge and counseling skills necessary to effectively diagnose and assess the pathological gambler and define the necessary components for effective counseling interventions with problem gamblers.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 390 - Special Topics in Mental Health
This course covers topics of particular interest to students in health sciences. In different terms, a variety of topics will be presented to the students. May be repeated twice for credit.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Course can be repeated 2 time(s) for 6.00 credit(s)

BACS 401 - Assessment and Treatment Planning
The focus of this course is learning the systematic, multi-disciplinary approach for gathering, interpreting, applying and recording data regarding clients in addictions and other behavioral health treatment settings. The most current screening, assessment, treatment planning and documentation approaches are covered.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 404 - Cognitive-Behavioral Counseling II
This course extends BACS 304 by deepening the exploration of cognitive-behavioral therapy theory and methods. More emphasis and developing skills in conceptualization and treatment. Some focus on how clients can manage anger better and how therapists can take care of themselves appropriately.
Credits: 3.00
College: Nursing & Health Professions
BACS 405 - Family-Focused Interventions
This course gives students the knowledge, skills and attitudes to:
identify and overcome the barriers that prevent family members from
being full partners in the mental health treatment of their family
member; define family from a culturally competent perspective; and
provide mental health intervention in full partnership with families.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 410 - Child and Adolescent Support
This course is based on the principles of Child and Adolescent Service
System Program (CASSP). The course gives students the knowledge,
skills important to implementing a comprehensive care system for
families and their children endorsed by the Commonwealth of
Pennsylvania.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 411 - Forensic Behavior Health Service
The intersection between law and behavioral health services in the
focus of this course. Topics include: the criminal justice system, criminal
thinking, community and ethical barriers, biopsychosocial models that
are specific to the forensic client and the growing base of knowledge
about community corrections.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 412 - Group Counseling II
This is an advanced course in the facilitation of group processes, with
an emphasis on group counseling. The course provide skills in group
facilitation including application of theory, tracking process and
initiating interventions, working with special populations, incident
management, treatment planning processes, and recording progress.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Course can be repeated 2 time(s) for 6.00 credit(s)

BACS 414 - Co-Occurring Disorders
This course introduces an integrated treatment approach for working
with individuals who have both mental illness and substance use
disorders. Topics include: assessment and treatment planning,
strategies for coordinating dual interventions.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 420 - Psychiatric Rehabilitation Competencies
The purpose of this advanced course is to help students develop the
competencies necessary to implement the principles and practices of
Psychiatric Rehabilitation. This is accomplished by engaging the student
in an in-depth analysis of the tools and processes used to bring about
outcomes related to community integration and the life quality.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites:
Repeat Status: Not repeatable for credit

BACS 490 - Senior Research Project
The students, with faculty supervision, plan and execute a term project
that will integrate the academic and practical knowledge the students
have acquired in their curriculum. The students develop objectives
relevant to the project, critique the literature, present a plan for
implementation, and complete the term project. May be repeated
twice for credit.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Course can be repeated 2 time(s) for 6.00 credit(s)
BACS 499 - Readings in Behavioral Health
This course is designed to allow upper-class students to pursue specialized interest in specific topics in behavioral health science. May be repeated three times for credit.
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: CNHP - Behavioral Counseling
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Course can be repeated 3 time(s) for 9.00 credit(s)

Cardiovascular Perfusion Courses

CVPT 101 - Perfusion Technology I
In Perfusion Technology I, the student is introduced to the various components that comprise the perfusion hardware, such as perfusion pumps, oxygenators, tubing packs and ancillary equipment used in CPB circuits. In this course, students receive extensive wet-lab experience and should be able to demonstrate a pump set-up.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

CVPT 289 - Cardiac Anatomy and Physiology
Cardiac Anatomy and Physiology expands knowledge learned in basic anatomy and physiology coursework. Explores the structure and mechanisms by which the cardiovascular system functions in relation to other organ systems, with an emphasis on how cardiopulmonary bypass alters normal function.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

CVPT 293 - Basic Surgery and Monitoring
Basic Surgery and Monitoring introduces basic surgical aspects, including sterile and aseptic techniques, interrelationships of various personnel in the operating room and various surgical techniques as they relate to perfusion. Explores all facets of patient monitoring, with an emphasis on changes associated with the conduct of perfusion.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

CVPT 295 - Clinical Practicum I
Clinical Practicum I exposes students to the operating room, where their primary responsibilities are observing and assisting senior students and staff perfusionists. Provides experience including pump set-up, handling case records, gathering lab data, and limited perfusion management.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

CVPT 300 - Clinical Practicum II
Clinical Practicum II is a course focused entirely on clinical perfusion. Includes responsibility for pump set-up and cardiopulmonary bypass case management. Includes close supervision for each individual case.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 295 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 305 - Pediatric Clinical Practicum
Pediatric Clinical Practicum examines the differences among adult, infant and neonate perfusion methods during a one-month rotation to Children's Hospital of Philadelphia. Emphasizes circuit preparation, priming volumes, flow rates and hemodynamic changes, pharmacological agents, direct visualization of various congenital anomalies and surgical corrections.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 307 Minimum Grade: D and CVPT 330 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 307 - Clinical Practicum III
Clinical Practicum III provides clinical work aimed at increasing the level of proficiency in the conduct of patient perfusion. Under supervision, students are responsible for all aspects of clinical perfusion and are exposed to specialized techniques and adjunctive technology used for cardiopulmonary bypass.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 300 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 310 - Perfusion Technology II
Perfusion Technology II reinforces the operating room techniques observed in CVPT 295 in a classroom setting. Examines ancillary and perfusion support systems, including ventricular-assist devices, extracorporeal membrane oxygenation, CPS, intra-aorta Balloon pumps and others.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

Pre-Requisites: CVPT 289 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 350 - Clinical Practicum IV
Clinical Practicum IV is designed to complete the students? clinical experience. Expects students, under staff supervision at all times, to act as though unsupervised in all routine cardiovascular procedures. Allows the operation of complex devices as well as student participation in emergency procedures.
Credits: 12.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 307 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 320 - Physiologic Management of Bypass
Physiologic Management of Bypass provides an understanding of the many physiologic changes that occur during bypass and a method for safely and effectively addressing these changes. Emphasis is placed on hemodynamics, fluid balance, blood coagulation and electrocardiographic activity as they apply to perfusion.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Repeat Status: Not repeatable for credit

CVPT 360 - Cardiac Surgical Practicum
A multi-faceted course incorporating many of the disciplines found in an acute care setting. Rotations include the following observational areas: catheterization lab, recovery room, anesthesia, intra-aortic balloon pumps, surgical assisting and ventricular assist devices.
Credits: 2.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 365 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 330 - Cardiovascular Pathology
Cardiovascular Pathology provides an understanding of pathological conditions that exist in all organ systems, with special emphasis on the cardiovascular system. Discusses both acquired and congenital defects, with attention given to pathological conditions requiring cardiopulmonary bypass.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 320 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 365 - Clinical Practicum V
Clinical Practicum V is an advanced course designed to focus on the initiation and discontinuation of cardiopulmonary bypass. Interaction with the surgeon and anesthesiologist is essential and proper communication skills are developed.
Credits: 12.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 350 Minimum Grade: D
Repeat Status: Not repeatable for credit

CVPT 340 - Cardiovascular Pharmacology
Cardiovascular Pharmacology details the various pharmacologic interventions used for cardiovascular patients, highlighting their classification, dosage, site of action, duration of action, interactions with other drugs, precautions and side effects.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter

CVPT 367 - Clinical Practicum VI
Clinical Practicum VI is an advanced course designed to focus on the patient's hemodynamic status during the preoperative, perioperative, and post operative time periods. The student is educated in proper drug and fluid administration. EKG rhythms are assessed in conjunction with post operative expectations and heart function.
Credits: 10.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
CVPT 375 - Clinical Practicum VII
Clinical Practicum VII is an advanced course designed to prepare the student for handling complications which may occur during an open heart procedure. Senior students are involved in simulations which mimic actual clinical situations/problems. The students utilize their clinical experience and knowledge base to assess the operating room situations.
Credits: 10.00
College: Nursing & Health Professions
Department: CNHP - Cardiovasc Perfusion
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CVPT 365 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSCI 301 - Pharmacology I
This course introduces health professional students to the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs and important drug information resources.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 302 - Pharmacology II
This course focuses on common drugs used in the treatment of disorders of cardiovascular, renal, respiratory and gastrointestinal systems, anti-infective and anti-inflammatory agents, immune and biologic modifiers and chemotherapeutic agents, and miscellaneous hematologic, dermatologic, ophthalmic, ant otic agents.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: HSCI 301 Minimum Grade: C
Repeat Status: Not repeatable for credit

Health Sciences Courses

HSCI 201 - Health Assessment through the Lifespan
Course focuses on health assessment across the lifespan. The focus is on the development of interviewing skills, assessment of health status, and physical examination skills for the beginning health professional student.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 103 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 204 - Clinical Health Informatics
This course examines technology and the tools of the Internet, with a focus on the use of cyber-technology and select computer applications. The automation of data management through information systems, expert systems, and telecommunication, and the impact of technology on health care education and research are addressed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: CS 161 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 310 - Introduction to Clinical Research
This course provides a comprehensive introduction to clinical research. Topics include informed consent, regulatory issues, specific groups conducting research, and phases of drug, medical device, and medical procedure development. Students develop an understanding of regulatory and organizational aspects of clinical research.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

HSCI 313 - Clinical Trials Protocols
Students learn to design and implement a clinical trial protocol. Topics include experimental design, research team member roles and management of clinical trials. Special research techniques for special populations are considered. Means of preventing scientific misconduct through proper monitoring are discussed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Health Sciences
Pre-Requisites: HSCI 310 Minimum Grade: D
HSCI 315 - Current Issues in Clinical Research
This course is designed to discuss current issues impacting clinical research practice. Topics include ethical issues, scientific issues and operational issues. There is also an opportunity to learn strategies for obtaining a position in clinical research and identify organizations that support clinical research practice.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: HSCI 313 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 325 - Exercise Physiology
This course examines the acute and chronic effects of exercise on human physiology. Topical areas include neuromuscular physiology, cardiopulmonary, energy metabolism, nutrition, exercise evaluation, body composition, exercise prescription, and influence of environmental factors and clinical conditions on response to exercise.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 326 - Applied Anatomy and Kinesiology
This course applies the foundations of anatomy and physiology to the study of human movement, with emphasis on normal motions of the musculoskeletal system. Topical areas include musculoskeletal anatomy, neuroanatomy, biomechanics, lever systems, and the influence of musculoskeletal disease and injury in normal movement.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 103 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 337 - Genetics and Health
This course discusses the Human Genome Project and how to apply genetic knowledge to patient knowledge and patient care in the following ways: identifying the need for genetic testing, obtaining and recording information, and supporting choice by patients about genetic issues.

HSCI 430 - Developmental Anatomy
This course expands upon the student's knowledge of anatomy by describing the events involved in the formation of organ systems in the developing human. The laboratory portion of the course examines congenital defects of the systems and discusses possible causes and treatments form a clinical perspective.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: C and ANAT 102 Minimum Grade: C
Repeat Status: Not repeatable for credit

HSCI 470 - Readings in Health Sciences
This course is designed to allow upper-class student to pursue specialized interests in specific topics in the health sciences. May be repeated twice for credit.
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Junior
Senior
Repeat Status: Course can be repeated 2 time(s) for 12.00 credit(s)

HSCI 480 - Special Topics in Health Sciences
This course covers topics of a particular interest to students in health sciences. In different terms, a variety of topics are presented to the students.
Credits: 1.00 to 12.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Course can be repeated 4 time(s) for 24.00 credit(s)

HSCI 490 - Senior Research Project
In this course, the student, with faculty supervision, selects a topic for a term project that integrates the academic and practical knowledge the student has acquired in his/her curriculum. The student develops objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the term project.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit

The course is designed to assist the student in understanding and preparing for the unique challenges presented to managers in a health services administration career. History and current milieu of U.S. health care are considered, as well as the ever changing infrastructure of the health-services industry.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

### Health Services Administration Courses

**HSAD 125 - Medical Terminology**
This course introduces the language of medicine through an analysis of medical prefixes, suffixes, and root words.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

**HSAD 210 - Health-Care Ethics I**
This course addresses introductory concepts and basic issues in health-care ethics. The topics include but are not limited to decision-making, professionalism and advocacy, confidentiality, truth-telling and informed consent.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

**HSAD 309 - Advanced Health-Care Ethics**
This course builds on the foundation provided in Health Care Ethics and discusses such issues as chronic care, end of life, beginning of life, distributive justice and the right to health care.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: HSAD 210 Minimum Grade: D
Repeat Status: Not repeatable for credit

**HSAD 310 - Introduction to Health-Systems Administration**

The course is designed to assist the student in understanding and preparing for the unique challenges presented to managers in a health services administration career. History and current milieu of U.S. health care are considered, as well as the ever changing infrastructure of the health-services industry.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

**HSAD 312 - Development of World Health Care**
This course examines a broad overview of the ongoing development of health-care policies, availability, and philosophy in a cross-section of countries by means of detailed case studies to examine both common and unique challenges and solutions, as well as global responses, to crises, such as plagues, epidemics, and natural disasters.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

**HSAD 313 - Evolution of Health Care in the United States**
This course will cover the evolution of health care in the U.S. from pre-colonial times to the present by discussing improvements in treatment institutions, modalities, philosophies and access to care, as well as the impact of major events in history on health-care discoveries on the delivery and administration of health services in the United States.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

**HSAD 315 - Interdisciplinary Health Services**
This course focuses on the role, responsibilities, scope of practice, and special concerns of health-care providers and their disciplines. The concept of interdisciplinary health-care practice is examined, along with basic concepts of teamwork and team formation.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

11
HSAD 316 - Health Care across Cultures
Living in a pluralistic society poses many challenges and opportunities. This course examines the impact of cultural upon health-care decision. Concepts such as “health,” “illness,” “culture,” “ethnicity,” will be analyzed. Traditional and alternative approaches to the delivery of health care will be addressed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 317 - Religious Views on Health Care
Addresses the impact of a person’s religious beliefs on the need for and delivery of health care. Specific issues will be discussed.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D or HUM 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 318 - Health and Vulnerable Populations
Vulnerable populations, those with special needs for or barriers to care, have a significant impact upon health care, both in terms of meaning and delivery. This course looks at the meaning of health through the eyes of various distinct vulnerable populations.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 319 - Women and the Health Professions
This course explores women’s early and controversial roles as health-care providers, the influence of government and the church on women, and key contributions by women in the health professions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Pre-Requisites: ENGL 101 Minimum Grade: D or HUM 106 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 320 - Managed Health Care
This course provides the student an opportunity to survey the major concepts and operational considerations of the provision of health-care services in a managed-care environment. The regulatory landscape as well as the physician/patient relationship is considered as a key to understanding the managed health care environment.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 321 - Health-Care Human Resources
An introduction to the basic principles of human-resource management and their practical application in today’s complex health-care organization. This course examines the role of human resources as a strategic partner within the organization.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D and HSAD 310 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 322 - Health-Care Law
Provides an overview of the major laws affecting health-care professionals and examines the current legal climate in health care.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 323 - Health Services and the Elderly
This course covers a broad spectrum of health-care issues and concerns facing today’s elderly, such as health-care coverage, living arrangements, acute and long-term-illness management, enhanced quality of life issues, and gender-specific health concerns.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D
Repeat Status: Not repeatable for credit
HSAD 324 - Health Technology and Ethical Responsibility
Developments in health care technology challenge many of our common assumptions about basic concepts such as health, disease, and normality. This course encourages students to consider some of the issues raised by changing health technology.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 325 - Issues in Health Care System
This course provides the student with the opportunity to analyze management problems that are of current importance in today's health-care industry on a national and international level.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 326 - Holism and Health Care
Details the development of medicine from the late nineteenth century to the present in view of the corresponding rise of interest in a holistic approach to health care by means of alternative and complementary medicine in relation to traditional medical practices.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 327 - Partnerships in Health Care
Addresses health service as a collaborative venture identifying the primary stakeholders and partners in the administration of health care including clinicians, administrators, institutions, industry, private and governmental agencies, and the patient. In addition, practical strategies for developing effective partnerships are explored.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ACCT 115 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 328 - Health Care for Diverse Groups
Examines the administration of health services and special needs to different subpopulations classified according to gender, ethnicity, race, weight (the obese), and sexual orientation.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 329 - Health Care and the Media
Much of the public’s perception of issues in health care comes from the media (newspapers, magazines, television, film, advertising, the internet). The course explores the interactive relationship between health care and the media in presenting information to the public.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 103 Minimum Grade: D or ENGL 105 Minimum Grade: A or HUM 108 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 330 - Financial Management in Health Care
Emphasizes basic financial management theory related to the health-care industry, as well as accounting practices for health-care organizations.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ACCT 115 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 331 - Non-profits and Health Care
Provides an overview of the not-for-profit and advocacy sector of health care, explores business fundamentals and current models, selects a health topic, assesses the market, and assists students in developing their own not-for-profit and/or advocacy business.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: (ENGL 101 Minimum Grade: D or ENGL 105 Minimum Grade: D or HUM 106 Minimum Grade: D) and HSAD 310 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 332 - Health-Care Marketing
Provides a comprehensive review of marketing's role in the health-care field by examining the history of health-care marketing, the contributions of marketing to the strategic objectives of health-care organizations, and the effects of marketing on public relations and the consumer.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: HSAD 310 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 333 - Health, Illness, and the Arts
This course provides the opportunity to examine topics relevant to health and illness as depicted in the arts - primarily literature, film, and painting as well as other arts forms where appropriate.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum Grade: D and ENGL 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 334 - Management of Health Services
In this course, students will learn forms and uses of traditional management functions - plan, direct, monitor, evaluate - as well as contemporary functions that are used in an array of health care services organizations. Students match skills and competencies within the respective domains of health services management.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: HSAD 310 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 335 - Health-Care Policy
This course provides an introduction to the development and implications of U.S. health-care policy, including key governmental and non-governmental participants and the political process.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: HSAD 310 Minimum Grade: D and PSCI 110 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 336 - Urban Health Care
Using an ecological model to analyze the special needs and issues in urban health care, students will examine the people, place, and politics of an urban area to assess the delivery and quality of health care and will complete an analysis of a real and current urban health-care-delivery problem, including solutions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 337 - Health Care/Quality Improvement
Quality Improvement (QI) is a critical component of the health-care-delivery system in the United States. Because errors and reliability issues have major implications, standards and measures are imperative to ensure consistency and safety. As such, this course examines existing programs in place and best-industry practices.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 338 - Human Services & Health Systems
This course introduces existing health-care systems in the United States and globally in terms of the human services that support and are supported by those systems and the effect of human services on those systems and vice versa.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 339 - Health Care Legislation

Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 352 - Ethics in Health Care Research
This course is designed to familiarize students with some of the ethical issues involved in health-care research. These issues include, but are not limited to, responsible authorship, use of human subjects, use of animals, defining and handling scientific misconduct, confidentiality, and conflicts of interest.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 353 - Public Health Ethics
This course will address ethical issues in public health. Students will be exposed to a variety of views on topics including, but not limited to, human rights, the balancing of individual rights with public interests, managing disasters, epidemics, risky behaviors, and the meaning of health from a population standpoint.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HSAD 470 - Readings in Health-Services Administration
This course is designed to allow juniors and seniors majoring in health-services administration and carrying minimum cum GPAs of 3.0 to pursue specialized interests in specific topics in health-services administration on an independent basis, yet under the direction of program faculty members. Faculty permission is required. May be repeated twice for credit.
Credits: 1.00 to 6.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Junior, Senior
Pre-Requisites: ENGL 103 Minimum Grade: D or ENGL 105 Minimum Grade: A or HUM 108 Minimum Grade: D
Repeat Status: Course can be repeated 2 time(s) for 12.00 credit(s)

HSAD 480 - Special Topics in Health-Services Administration
This course covers topics of particular interest to students majoring in health-services administration. In different terms, a variety of topics are presented to the students. May be repeated for credit.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 103 Minimum Grade: D or ENGL 105 Minimum Grade: A or HUM 108 Minimum Grade: D
Repeat Status: Course can be repeated 98 time(s) for 998.00 credit(s)

HSAD 490 - Senior Research Project
Designed for the senior in health-services administration, the student, in conjunction with a faculty member, selects a topic for a term project integrating knowledge acquired in the curriculum. The student develops objectives relevant to the project, critiques the literature, presents a plan for implementation, and completes the project.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 103 Minimum Grade: D or ENGL 105 Minimum Grade: A or HUM 108 Minimum Grade: D

Health and Society Courses

HLSO 101 - Intro to Health & Society
Designed as an introduction to health and health care beyond the clinical environment, this course introduces students to the intersection of health and society by means of weekly lectures on various aspects of health and health care in relation to societal concerns and needs.
Credits: 1.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

HLSO 301 - Rhetoric/Reality of Hlth Care
The dissemination of information on health care and the language involved in the information are key factors in determining how the individual responds to health-care issues and treatment. This course will examine the nature of rhetoric as it influences health-care decisions at a societal and at an individual level.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
HLSO 302 - Consumer-Driven Health Care
This course focuses on how market economics and personal responsibility combine to drastically change health-care insurance saving, utilization, and satisfaction. Effects on employers, health-care providers, hospitals, and insurers are examined.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 303 - Urban Health Care
Using an ecological model to analyze the special needs and issues in urban health care, students will examine the people, place, and politics of an urban area to assess the delivery and quality of health care and will complete an analysis of a real and current urban health care delivery problem, including solutions.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 304 - Health Care/Quality Improvement
Quality Improvement (QI) is a critical component of the health-care delivery system in the United States. Because errors and reliability issues have major implications, standards and measures are imperative to ensure consistency and safety. As such, this course examines existing program in place and best-industry practices.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 305 - Health Promotion and Wellness
Students will study the seminal international and U.S. documents that founded the health-promotion and wellness movement and will examine the use of health promotion in improving the health of individuals, groups, communities, and populations.
Credits: 3.00

HLSO 306 - Human Services & Health Systems
This course introduces existing health-care systems in the United States and globally in terms of the human services that support and are supported by those systems and the effect of human services on those systems and vice versa.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 307 - Disaster Planning & Hlth Care
This course examines the unique challenges to managers of health-care institutions, in-patient populations, providers of care, and the public health and safety systems during a disaster, as well as the complex relationships between and among government officials, first responders, and the public regarding disaster planning and during a crisis.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 308 - Concepts of Injury Prevention
This course focuses on the epidemiology of injury prevention and control in the public sector. Mechanisms of injury and risk factors for accidental injury and death are examined. Various prevention strategies are reviewed, as is a look to the future of injury prevention.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 309 - Health Fads, Trends & Myths
We are part of a society bombarded with fads, trends, and myths of all types, and health care is no exception. Distinguishing one from the
other is a tricky business. This course will help separate fads from both trends and myths and all three from evidence-based therapies.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 310 - Children & Health Care
This course will focus on a range of issues facing the health-services industry in providing care to children with the goal of better understanding and meeting the special needs and challenges from both a direct care and systematic point of view.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 311 - AIDS, Society & Health Care
This course will look at the impact of HIV/AIDS on health care from a patient, provider, societal, and systems perspective. We will address how this local and national global pandemic affects societies and health services throughout the world.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

HLSO 312 - Human Sexuality & Health Care
This course explores human sexuality in relation to individual and societal attitudes and examines the role of health care in effectively dealing with and treating issues arising from human sexual dysfunctions, diseases, myths, phobias, and other concerns.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 313 - Health Care Legislation
This course will examine the major roles played by local, state, and federal governments in the funding, delivery, oversight, and evaluation of health care services. The rationale, history, and current examples of how localities protect the public health are given.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 314 - Ideologies & Health Care
This course will examine the role of political, religious, cultural, and philosophical ideologies on societies -- past and present -- in terms of the nature and delivery of health care, as well as the effects of these ideologies on the health and well-being of the societies as a whole and of the individuals comprising the societies.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 319 - Health Care Legislation
This course will examine the major roles played by local, state, and federal governments in the funding, delivery, oversight, and evaluation of health care services. The rationale, history, and current examples of how localities protect the public health are given.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 320 - Individual & Hlth Care Politics
Health care policy can easily become questions of statistics and spreadsheets that obscure their origins in individual experience. Drawing upon a series of personal essays, this course will discuss the power of first-hand experience in shaping health care discourse.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 321 - Hlth Issues & the Environment
This course provides a general review of the leading environmental health issues of today by identifying historical, political, societal, and medical approaches to safeguarding population health from the environmental, while protecting and preserving the environment.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 322 - Ideologies & Health Care
This course will examine the role of political, religious, cultural, and philosophical ideologies on societies -- past and present -- in terms of the nature and delivery of health care, as well as the effects of these ideologies on the health and well-being of the societies as a whole and of the individuals comprising the societies.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 327 - Health & Illness in Film
This course analyzes various films with themes and stories related to health and illness in view of conceptual theories on health and illness and conceptual elements of film as a representational medium.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 329 - Grief & the Healing Arts
Grief is a typical response to loss as, for example, in the loss of a human life, a body part, a former state of existence, or a valued pet. This course will examine grief and the role of the arts as a therapeutic means of dealing with grief and loss both in terms of professional health care giver and the grieving individual.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum Grade: D and ENGL 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

HLSO 370 - Spec Topics in Health & Society
This course covers topics of particular interest in health and society. In different terms, a variety of topics will be presented to the students. Students may repeat the same course, but not the same topic. Students majoring in health and society will have first preference.

Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must have the following Classification(s):
Junior
Sophomore
Senior
Pre-Requisites: ENGL 101 Minimum Grade: D and ENGL 102 Minimum Grade: D
Repeat Status: Course can be repeated 99 time(s) for 999.00 credit(s)

Invasive Cardiovascular Tech Courses

ICVT 300 - Introduction to Cardiology
This course is designed to provide an introduction to the cardiology environment. It includes medical terminology, confidentiality, professionalism, patient’s rights, medical ethics, universal precautions, and communications skills in cardiology.

Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

ICVT 302 - Cardiovascular System
This course will review basic information about the functioning of the heart and lungs as it is applied to clinical practice. A complete description of the cardiovascular system to include blood circulations, embryological development and the pulmonary system will be discussed.

Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 103 Minimum Grade: C
ICVT 303 - Patient Assessment I
This course will allow the student to gain experience in recognizing and evaluating laboratory blood gases, hematology, coagulation and acid base disturbance as they relate to the needs of the cardiovascular patient. It will focus on "normal" and "abnormal" values associated with the diagnosis, treatment and prevention of cardiac episodes.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C
Repeat Status: Not repeatable for credit

ICVT 304 - Cardiac Laboratory Procedures
Introduction to the diagnostic procedures used in the Cardiac Catheterization Laboratory. Prior didactic instruction in cardiac anatomy and physiology and medical instrumentation will be applied.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C
Repeat Status: Not repeatable for credit

ICVT 305 - Coronary Anatomy & Imaging
Discusses the anatomy of coronary arteries. It will review radiation production, x-ray beam characteristics, film-screen characteristics, film processing and imaging system performance.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 302 Minimum Grade: C
Repeat Status: Not repeatable for credit

ICVT 306 - ECG & Special Topics
This course presents the electrocardiography theory and principles necessary to recognize and evaluate ECG data from a real-time monitor, 12 lead electrocardiogram. Included is a detailed examination of the hearts cellular mechanisms, conduction pathology and the disease process responsible for irregularities of heart rhythm.
Credits: 4.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

ICVT 308 - Cardiovascular Angiography
This course will expand on information learned in Cardiac Laboratory Procedures. It will emphasize advanced cardiovascular diagnostic and therapeutic procedures to include injection techniques, Intra-aortic balloon pumping, and Percutaneous Transluminal Coronary Angioplasty (PTCA) and patient closure devices.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 304 Minimum Grade: C and ICVT 305 Minimum Grade: C
Repeat Status: Not repeatable for credit

ICVT 309 - Hemodynamic Data I
Students are introduced to the primary hemodynamic formula's associate with monitoring and evaluation of the cardiovascular patient. Hemodynamic monitoring skills, basic hemodynamic calculations, arrhythmia recognition and reports generated on a variety of physiological monitoring systems are presented in detail.
Credits: 4.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 306 Minimum Grade: C and ICVT 304 Minimum Grade: C
Repeat Status: Not repeatable for credit

ICVT 310 - Radiation Safety & Equipment
This course enables student radiographers to strengthen their competencies with issues related to radiation protection. The student will continue to evaluate such topics as radiobiology, radiation quantities, units and standards for radiation protection.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

ICVT 311 - Patient Assessment II
A continuation of patient assessments I, providing a solid theory base for the delivery of safe patient care in potentially unstable or unpredictable situations is the focus of this course. Documentation within the catheterization laboratory will be revisited along with continued discussion of procedures, protocols and patient education.
Credits: 2.00
ICVT 312 - Clinical Practicum I
This clinical course is designed to allow the student to gradually gain experience in assisting the cardiologist to perform diagnostic cardiac catheterization procedures and hemodynamic calculations. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.
Credits: 8.00

ICVT 306 - Disease & Medical Emergencies
This course explains etiology, pathophysiology, and clinical findings associate with myocardial infarction, coronary artery, valvular and aortic diseases, and presents a detailed examination of congenital heart defects and hereditary disease process.
Credits: 3.00

ICVT 407 - Cardiovascular Review I
In this course, students will evaluate and review certification requirements. Students will gain insight into their strengths and weaknesses associated with the certification requirement. Students will also form a directed plan of study to prepare for the CCI/RCIS or ARRT/CI examination.
Credits: 4.00

ICVT 409 - Hemodynamic Data II
This is a continuation of hemodynamic data I. The student will have further development in hemodynamics monitoring and calculations. This course will expand on student's knowledge of ventricular function, thermodilution methods, ejection fraction, reguritant fraction and other formulas utilized within the catheterization.
Credits: 3.00

ICVT 410 - Cardiovascular Review II
This course is a continuation of ICVT 407 with emphasis on additional evaluate and review certification requirements.
Credits: 5.00

ICVT 411 - Special Topics in Cardiology
This course covers topics of particular interest to students in cardiovascular health science. In different terms, a variety of topics will be presented to the students.
Credits: 2.00

ICVT 412 - Clinical Practicum II
A continuation of Clinical Practicum I, with emphasis and understanding of all clinical duties involved within the cardiovascular area to include additional knowledge of aseptic techniques.
Credits: 8.00

ICVT 422 - Clinical Practicum III
A continuation of Clinical Practicum II, with emphasis and understanding of all clinical duties involved within the cardiovascular area to include additional knowledge of aseptic techniques.

Credits: 10.00

College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ICVT 412 Minimum Grade: C and ICVT 409 Minimum Grade: C
Repeat Status: Not repeatable for credit

ICVT 432 - Clinical Practicum IV
A continuation of Clinical Practicum III, students will continue to develop skill by active participation in a cardiac catheterization laboratory.

Credits: 8.00

College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Co-Requisites: HSCI 302, ICVT 410
Pre-Requisites: ICVT 407 Minimum Grade: C and ICVT 422 Minimum Grade: C
Repeat Status: Not repeatable for credit

Medical Billing and Coding Courses

MBC 101 - Medical Terminology for Billers and Coders
This course covers medical terminology and anatomy from a biller's and coder's perspective and provides a foundation for courses in medical billing and coding.

Credits: 3.00

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

MBC 201 - Medical Billing I
Designed as part one of a two-part sequence, this course is intended for those who have no experience or minimal experience with medical billing. The student will learn principles of medical billing related to proper claim form preparation, submission, and payment processing.

Credits: 3.00

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

MBC 202 - Medical Billing II
Designed as part two of a two-part sequence, this course is intended for those who have completed MBC 201 and who are seeking further knowledge of medical billing.

Credits: 3.00

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 201 Minimum Grade: D or HSAD 201 Minimum Grade: D
Repeat Status: Not repeatable for credit

MBC 250 - Medical Billing Software
This course takes the theory learned in Medical Billing I and II and applies it to billing software applications. Charge entry, payment posting, report design, and generation are covered.

Credits: 3.00

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 202 Minimum Grade: D or HSAD 202 Minimum Grade: D
Repeat Status: Not repeatable for credit

MBC 301 - Physician-Based Medical Coding I
Designed as part one of a two-part sequence, this course teaches the principles of medical coding related to the three main coding manuals and can prepare the student to sit for one of the two national board exams in medical coding.

Credits: 3.00

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 201 Minimum Grade: D or HSAD 201 Minimum Grade: D
Repeat Status: Not repeatable for credit

MBC 302 - Physician-Based Medical Coding II
Designed as part two of a two-part sequence, this course continues instruction in the principles of medical coding related to the three main coding manuals, as well as preparing the students to sit for one of the two national board exams in medical coding.

Credits: 3.00

College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 301 Minimum Grade: D or HSAD 301 Minimum Grade: D
Repeat Status: Not repeatable for credit
MBC 303 - Hospital-Based Medical Coding I
Designed as part one of a two-part sequence, this course teaches the principles of hospital-based medical coding related to the coding for in-patient hospital cases by means of the main coding manuals, as well as helping to prepare the student to sit for one of the two national board exams in medical coding.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 301 Minimum Grade: D or HSAD 301 Minimum Grade: D
Repeat Status: Not repeatable for credit

MBC 304 - Hospital-Based Medical Coding II
Designed as part two of a two-part sequence, this course continues instruction in the principles of hospital-based medical coding related to the coding for in-patient and out-patient hospital cases by means of the main coding manuals, as well as helping to prepare the students to sit for one of the two national board exams in medical coding.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 303 Minimum Grade: D or HSAD 303 Minimum Grade: D
Repeat Status: Not repeatable for credit

MBC 350 - Physician-Based Chart Auditing
This course applies knowledge learned in Physician-Based Medical Coding I and II to auditing patient-visit documentation. Use of various audit tools and software will be explored in addition to preparing a presentation of audit results to physician and staff.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: MBC 302 Minimum Grade: D or HSAD 302 Minimum Grade: D
Repeat Status: Not repeatable for credit

MBC 360 - Hospital-Based Case Studies
This course applies knowledge learned in Hospital Based Medical coding I and II and applies it to actual coding of case studies for the hospital in-patient and out-patient setting, as well as providing additional preparation for hospital-based coding certification credentials.
Credits: 3.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:

Neuroscience Courses

NEUR 410 - Neuroscience
This course is designed to provide the student with a strong foundation in the structure and function of the nervous system. Clinical correlations are provided throughout the course to underscore the necessity for understanding the material for effective clinical practice and to provide a neurophysiological basis for various pathological conditions commonly encountered in the practice.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

Nursing Courses

NURS 104 - Ethics, Advocacy and Professionalism in Nursing III
The purpose of the third part of this course is to focus on the practical application of redefining nursing, healthcare and medication errors, medication diversion, and end of life issues. These concepts will be introduced and examined as they relate to the student's professional growth.
Credits: 1.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Major(s):
Nursing
Pre-Requisites: NURS 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 110 - Essentials of Relationship-Based Professional Nursing Practice
The purpose of this course is to provide students with the tools, strategies, and resources necessary to meet their professional obligations. This course focuses on exploring the historical context of nursing, introducing the IOM care competencies and examining the role of the professional nurse in today's healthcare environment.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Accelerated Career Entry BSN
Nursing

23
Pre-Requisites: ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D (May be taken concurrently) and ENGL 102 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 112 - Relationship-Based Health Assessment & Promotion
This course focuses on establishing the professional nurse/patient relationship-based care that promotes and assesses health within the adult population. Special emphasis is placed on screening for health risks identified by national goals and population trends. The student develops physical assessment skills applicable to professional practice and incorporates health promotion activities associated with the guidelines established by Healthy People 2020.
Credits: 5.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s): Continuing Education
Must be enrolled in one of the following Major(s):
Accelerated Career Entry BSN Nursing
Pre-Requisites: ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D and BIO 226 Minimum Grade: D and NURS 110 Minimum Grade: D (May be taken concurrently)
Repeat Status: Not repeatable for credit

NURS 200 - Principles of Nursing Practice
This course will focus on the concepts, skills, and the attitudes fundamental to professional nursing practice within a framework of clinical decision-making. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s): Continuing Education
Must be enrolled in one of the following Program Level(s): Accelerated Career Entry BSN Nursing
Co-Requisites: INFO 204, NURS 112
Pre-Requisites: ANAT 103 Minimum Grade: D and BIO 226 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 300 - Comprehensive Adult Nursing I
This course will focus on the development of selected competencies for nursing care assessment and management of adults with predictable human responses to specific system alterations.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s): Continuing Education
Co-Requisites: NFS 220, NURS 301
Pre-Requisites: NURS 200 Minimum Grade: D and NURS 112 Minimum Grade: D and INFO 204 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 301 - Pharmacology for Nursing I
Introduces professional nursing students to the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs and important drug information resources.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s): Continuing Education
Co-Requisites: NURS 300
Pre-Requisites: NURS 200 Minimum Grade: D and NURS 112 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 303 - Women's Health Nursing
This course focuses on the development of competencies for the nursing care management of child-bearing families and health problems/concerns that affect women. The course will also emphasize the nurse's role in health assessment, health promotion, and promotion of adaptive processes for the maternity patient and the promotion of women's health in general. Sociocultural, economic, political, and ethical factors that impact on health promotion, disease prevention, and risk reduction for the childbearing family and women in general are examined. Selected women's health clinical settings will be utilized for clinical practice.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
NURS 304 - Nursing of Children
This course focuses on the development of competencies for the nursing care management of children experiencing potential and actual alterations in health. An emphasis will be placed on the nurse's role in health assessment, health promotion, and promotion of adaptive processes for the child within the context of the family. Selected pediatric clinical agencies will be utilized for clinical practice.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: PSY 101 Minimum Grade: D and PSY 120 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 305 - Comprehensive Adult Nursing II
This course is a continuation of NURS 300. It will focus on the development of selected competencies for nursing care assessment and management of adults with predictable human responses to specific system alterations. Risk reduction, recovery, and rehabilitation of patients with selected disease processes and common clinical problems are addressed. Didactic medical-surgical content will focus on the gastrointestinal, renal, immunologic, integumentary, sensorineural, neurologic, musculoskeletal, male reproductive, and infectious disease systems. Home care principles and health policy for adults with common acute and chronic illnesses and diseases will also be explored. Selected general medical-surgical settings and home-care agencies will be utilized for clinical practice.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 306 - Pharmacology for Nursing II
This course is a continuation of NURS 301. The course will begin with a review of drug and dosage calculations. This course will focus on drugs and cardiovascular and renal systems, respiratory system, anti-infective and anti-inflammatory agents, immune and biologic modifiers and chemotherapeutic agents, gastrointestinal system and nutrition, and miscellaneous therapeutics including hematologic, dermatologic, ophthalmic, and optic agents. Strategies to prevent medication errors in health care agencies will be discussed.
Credits: 3.00
College: Nursing & Health Professions

NURS 307 - Critical Issues in Nursing
Critical Issues in Shaping Nursing. The health care system has undergone dramatic shifts, driven by changing economic; demographic; and technological forces. This course explores the impact of these forces on healthcare delivery, and concerns relating to ethical, legal and social issues that influence nursing practice.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
NURS 330 - Research Basis of Nursing
This course will introduce the student to the theoretical and research bases on which practice is built. Students will examine the knowledge that guides nursing interventions and critique published research reports. The importance of reviewing the nursing literature in order to maintain currency in practice will be addressed. Ethical issues as they relate to research, theory and practice will be discussed. This is a writing intensive course.
Credits: 4.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

NURS 336 - Alternatv & Complmt Hlth Intrv
This course is an introduction to the theoretical literature which investigates the efficacy of alternative medicine health care practices and complementary therapies which are broadly defined as biotherapeutic interventions. Any intervention which is aimed at biologic, psychologic, or spiritual healing may be termed biotherapeutic. The context of the human illness experience is explored as an opportunity for nurses to recommend and patients to experience traditional and nontraditional healing practices. Biotherapeutic modalities with applications for nursing and health care are also explored. An emphasis is placed on the delivery, teaching, and referral of biotherapeutic interventions for clients seeking alternative and complementary health therapies.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following College(s)/School(s):
Nursing & Health Professions
Must have the following Classification(s):
Senior
Pre-Requisites: STAT 201 Minimum Grade: D or SOC 364 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 337 - Genetics in Nursing and Health
This course will discuss the implications of the Human Genome Project and how to apply genetic knowledge to patient knowledge to patient care in the following ways: identifying those in need of further genetic testing, offering genetic information, recording genetic information, referring patients and families for further genetic information and evaluation, support informed choice regarding health decisions, advocacy for privacy, confidentiality, and non-discrimination with regard to genetic information, and participate in management of patients with genetic conditions. The ethical consideration as they relate to genetics will also be explored. This is a writing intensive course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Pre-Requisites: ANAT 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 339 - Pathophysiology
Pathophysiology for Nurses. This course builds upon the theoretical foundations of nursing theory; human anatomy, and physiology by addressing basic concepts, principles, and processes associated with common pathologies, physiological alterations in body system, and the body's ability to compensate for these changes.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: ANAT 103 Minimum Grade: D and (CHEM 101 Minimum Grade: D ) and (BIO 226 Minimum Grade: D )
Repeat Status: Not repeatable for credit

NURS 340 - Transformational Leadership
Transformational Leadership. This course will focus on the professional nurses roles in applying the principles of leadership, management and ethics in health care organizations across the continuum of care. The course will provide opportunities in problem solving, critical thinking, constructive communication and well as teaching learning strategies that emphasize the leadership/management roles of the nurse.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

NURS 346 - Health Assessment
Health Assessment and Promotion for Diverse Vulnerable Populations. This course is designed to assist professional nurses in developing interviewing skills, physical assessment techniques, and preventive health interventions when working diverse and vulnerable populations.
Credits: 6.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
NURS 350 - Independent Study in Nursing
This is a guided independent study. Students study a subject under the supervision of the nursing faculty member. May be repeated for credit.
Credits: 1.00 to 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Course can be repeated 3 time(s) for 9.00 credit(s)

NURS 370 - Issues in Aging and Longevity
Issues in Aging and Longevity. This course focuses on current issues in promoting longevity with healthy aging. Current biopsychosocial theories on aging are explored. The multidisciplinary needs of older adults, including relationship challenges, are addressed.
Credits: 4.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

NURS 375 - Nurses Building a Healthy Community
Nurses Building a Healthy Community. This course focuses on the professional role of the community public health nurse working collaboratively to build a health community. The role of nurses is explored by their actions with aggregate population, community partners, and other health providers.
Credits: 6.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 346 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 388 - Nursing Case Study I
Nursing Case Study Integration I. This course is designed to extend students' understanding of common adult health disorders. Critical thinking skills will be used to integrate and analyze knowledge of therapeutic communication, health assessment and nursing process, pharmacology, nutrition, and anatomy and physiology.
Credits: 1.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education

NURS 400 - Leadership, Management, and Entrepreneurship in Nursing
Focuses on professional nursing role in applying principles of leadership and management in health care organizations across the continuum of care. Emerging roles for nurse entrepreneurs and professional practitioners will be explored. Also emphasizes the role of the professional nurse in efficient patient care management in complex health care settings. This is a writing intensive course.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Accelerated Career Entry BSN Nursing
Pre-Requisites: NURS 305 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 401 - Comp Adult Nursing III
This course will focus on the development of selected competencies for nursing care assessment and management of adults with unpredictable and complex human responses to specific system alterations. The course will emphasize the assessment of functioning, adaptation, and recovery for patients with high acuity illnesses and clinical problems. Selected high acuity acute care settings will be utilized for clinical practice.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor’s Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 301 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 403 - Community Public Health Nursing
The focus of this course is the professional nurse's role in working with aggregates in the community. The student will first reexamine the principles of health promotion as they form the bases for effective community health nursing practice. The student will then explore the role of the community health nurse working collaboratively with the community as part of an interdisciplinary team. Grounded in systems theory and informed by the concepts and principles of community health nursing, public health nursing, wellness, health promotion, and national goals, the student works with aggregates in the community setting. An introduction to conceptual frameworks that guide community-based, population-focused practice and research is included in both the classroom and clinical portions of the course. The student uses skills in community assessment, program planning and
practice interventions in helping identified populations within the community maintain their optimum level of health. Selected measure for evaluating outcomes of community health nursing programs are discussed. Contemporary public health problems encountered in community health nursing practice are explored. Selected community health and public health clinical agencies will be selected for clinical practice.

Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 404 - Nursing Informatics for BSN Completion
Designed for registered nurses in the RN-BSN completion program. Examines computer applications, technology, internet tools. Focuses on health care informatics context for data management, information systems & telecommunications in nursing administration, education and practice. Problem solving and mini-design projects related to increased efficiency in nursing care delivery.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Nursing (Online)
Pre-Requisites:
Repeat Status: Not repeatable for credit

NURS 450 - Contemporary Gerontological Nursing
This course will focus on the nursing management of older adults. Contemporary theories of gerontology, theories of aging, physiological/psychological functioning, impact of developmental changes, illness, and dysfunction will be emphasized. The geriatric patient will be examined at various levels -- healthy older adult, older adult at risk, the older adult experiencing acute and chronic illness. Students' clinical experiences will be in home health agencies, transitional, and long-term facilities.
Credits: 6.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must have the following Classification(s):
Senior
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 301 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D and NURS 401 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 460 - Global Health & Policy Issues
Global Health and Policy Issues. This course is an overview of global health issues. Emphasis will be places on understudy of health policy development related to global health issues, healthcare systems, and its effect on selected population.
Credits: 6.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 325 Minimum Grade: D and NURS 375 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 462 - Science, Technology and Health
Science, Technology, and Health. This course is an intensive overview of the latest discoveries and trends in science and technology which have implication if the broader health of man-kind and nursing.
Credits: 4.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 330 Minimum Grade: D and NURS 325 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 464 - Sr Concentration in Nursing
Senior Concentration in Nursing. The student, with a faculty supervisor, selects a clinical area of practice for in-depth 60 hours of clinical experience. Students will be immersed in the current literature of the clinical discipline to demonstrate competent and safe nursing practice.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit

NURS 465 - Senior Thesis in Nursing
Senior Thesis in Nursing. The student, with a faculty supervisor, plans a project that will be implemented that quarter. The project must be substantive and scholarly and be presented to the nursing community.
Credits: 3.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit
NURS 480 - Special Topics in Nursing
The course provides a forum for in-depth exploration of a contemporary issue in nursing or health care which can influence the quality of health care services provided to patients. Specific issues covered in the course will change from term to term. This course may be repeated three times for credit as topics vary.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must be enrolled in one of the following Major(s):
Nursing
Must have the following Classification(s):
Senior
Repeat Status: Course can be repeated 3 time(s)

NURS 481 - Issues & Resolutions in End of Life Care
Promotes understanding of complexities associated with care of clients and families across the lifespan at end-of-life. Explores nursing management of individuals and families facing end-of-life care and decisions. Emphasis on evidenced-based practice in legal, ethical and professional decision-making framework. Conforms with AACN/ELNEC model.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Nursing
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit

NURS 482 - Cultural Dimensions of Nursing Care
The focus of this course will be on strategies for providing culturally competent nursing care in a multicultural society. Emphasis is placed on evidence-based nursing practice within a framework of ethical, legal, and professional decision making.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Nursing
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit

NURS 488 - Nursing Case Study II
Nursing Case Study Integration II. This course is designed to extend students' understanding of common adult health disorders. Critical thinking will be used integrate and analyze knowledge of therapeutic communication, health assessment and nursing process, pharmacology, nutrition, and anatomy and physiology using selected case studies.
Credits: 1.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 112 Minimum Grade: D and NURS 110 Minimum Grade: D and NURS 200 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 489 - Synthesis of Nursing Knowledge
Synthesis of Nursing Knowledge. This course prepares students for senior seminar by providing a comprehensive content review of clinical material and culminating in a comprehensive HESI exam. Skills needed for effective interpersonal communication and professional behaviors of the nurse will be learned and rehearsed utilizing the standardized patient lab experience. May be repeated once for credit.
Credits: 4.00
College: Nursing & Health Professions
Department: School of Nursing
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Pre-Requisites: NURS 401 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D
Repeat Status: Course can be repeated 1 time(s) for 4.00 credit(s)

NURS 490 - Sr Project in Nursing
In this course, the student with faculty supervision, plans a long-term project that will be implemented in NURS 491. This project will integrate the academic and practical knowledge the student has acquired in their nursing curriculum. Examples of projects include the following: developing/implementing a teaching tool or a teaching plan, conducting a small clinical research study or evaluating data specific to management patterns that promote effective nursing care. Students will develop objectives relevant to the project, critique the literature and present a plan for implementation.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Pre-Requisites: NURS 300 Minimum Grade: D and NURS 303 Minimum Grade: D and NURS 304 Minimum Grade: D and NURS 305 Minimum Grade: D and NURS 306 Minimum Grade: D and NURS 308 Minimum Grade: D and NURS 400 Minimum Grade: D
Repeat Status: Not repeatable for credit

NURS 491 - Sr Project in Nursing II
This is a continuation of NURS 490. Implementation of the project developed in NURS 490 will be done under faculty supervision. Students will make a formal presentation of their project to their professional peers and the MCP Hahnemann/Drexel community.
Credits: 3.00
College: Nursing & Health Professions
NURS 492 - Sr Seminar in Nursing
This course will serve as a review of important concepts from the nursing curriculum. Students will focus on those concepts that they need to improve for the successful practice of professional nursing. Students will utilize the Nursing Technology lab to review procedures practiced throughout the nursing curriculum and will use computerized testing to gauge their mastery of professional nursing content.
Credits: 3.00
College: Nursing & Health Professions
Department: CNHP - Bachelor's Degree
Restrictions:
Must have the following Classification(s):
Senior
Pre-Requisites: NURS 490
Repeat Status: Not repeatable for credit

Nutrition & Food Science Courses

NFS 100 - Nutrition, Foods, and Health
Covers the six nutrient categories and how they function in the body. Includes nutritional implications of major diseases, food safety issues, and current food and nutrition controversies with an emphasis on personal health.
Credits: 2.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

NFS 101 - Introduction to Nutrition & Food
Provides basic understanding of required nutrients and how they are used in the body. Students complete a computerized nutrient analysis and apply the science of nutrition and food to food choices to improve their personal health.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Repeat Status: Not repeatable for credit

NFS 111 - Introduction to Dietetics
A survey of the dietetics field with emphasis on the role of the Registered Dietetics in practice. Discussion of current professional issues including evidence-based practice and the nutrition care process.
Credits: 2.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Graduate Quarter
Must be enrolled in one of the following Major(s):
Dietetics
Human Nutrition
Repeat Status: Not repeatable for credit

NFS 200 - Nutrition I: Principles of Nutrition
Covers principles of human nutrition, including energy metabolism. Covers physiological mechanisms and food sources of carbohydrates, lipids, proteins, vitamins, and minerals in relation to optimal human health.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Nursing
Pre-Requisites: CHEM 103 Minimum Grade: D or BIO 121 Minimum Grade: D or NFS 101 Minimum Grade: D or NFS 230 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 203 - Nutrition II: Nutrition in the Lifecycle
Covers nutrition in human life cycles with emphasis on prenatal, maternal, infant, childhood, adolescent, adulthood and later maturity. Also covers nutrient requirements and typical health and disease problems of each stage of the life span. Laboratory activities provide application of nutrition topics in preventive health activities related to the life span, with emphasis on diet-evaluation techniques.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Pre-Requisites: NFS 200 Minimum Grade: D or BIO 121 Minimum Grade: D or NFS 101 Minimum Grade: D or NFS 230 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 215 - Nutritional Chemistry
Covers the chemistry of carbohydrates, lipids, proteins, and nucleic acids and their behavior in the body's major metabolic mechanisms, including the role of vitamins and minerals in enzyme systems critical to normal human nutrient metabolism.
Credits: 3.00
College: Nursing & Health Professions
NFS 216 - Nutrition and the Schoolchild
A course designed for future elementary school teachers to increase their knowledge of childhood nutrition as it relates to health promotion, health maintenance, and the prevention and treatment of nutritionally relevant health abnormalities in elementary school students. The scientific basis of nutrition and principles of education are emphasized. Some or all pre-requisites may be taken as either a pre-requisite or co-requisite. Please see the department for more information.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: BIO 102 Minimum Grade: D (May be taken concurrently)
Repeat Status: Not repeatable for credit

NFS 217 - Nutrient Quality & Composition
Applications of principles of nutritional chemistry involving macronutrients and micronutrients.
Credits: 1.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Co-Requisites: NFS 215
Pre-Requisites: CHEM 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 220 - Normal & Lifespan Nutrition
Builds on basic nutrition principles to include nutrient metabolism and chemical and biological aspects of nutrition. Addresses special nutrient needs of people through the life cycle.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not be enrolled in one of the following Major(s):
Nursing
Repeat Status: Not repeatable for credit

NFS 230 - Intermediate Nutrition
The role of nutrients in body structure and function. Factors involved in the availability, digestion, absorption, and utilization of nutrients. Identification of the normal nutritional needs of individuals, and sources of nutrients. The interpretation of current research in nutritional studies.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not be enrolled in one of the following Major(s):
Nursing
Pre-Requisites: BIO 121 Minimum Grade: D or NFS 101 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 265 - Professional Issues in Nutrition and Foods
Introduces professional issues in dietetics, food science, and nutrition science. Covers issues affecting current and future practice, and resources available to professionals in these fields.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Pre-Requisites: BIO 121 Minimum Grade: D or BIO 115 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 310 - Nutrition and Sports
After reviewing the fundamental processes of nutrition and human development, the course applies principles of nutrition to athletic conditioning, performance, and rehabilitation from sports-related injuries. Identifies evidence based recommendations for nutritional needs of today’s athlete and explores the validity of sport diet fads. Development cycle of the recreational, amateur, and competitive athlete.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit

NFS 315 - Nutrition in Chronic Disease
This course provides a basic understanding of nutrition therapy and its role in the prevention and treatment of medical conditions.
Credits: 4.00
NFS 320 - Pediatric Nutrition
This course provides an overview of pediatric nutrition assessment, as well as nutrition therapy and its role in the prevention and treatment of medical conditions found in the newborn through adolescent.
Credits: 4.00

NFS 325 - Nutrition & Exercise Physiology
An advanced level course covering nutrient needs to maximize exercise performance. Energy metabolism, with emphasis on macronutrient and micronutrient needs during different levels of exercise will be emphasized. Benefits of exercise in the prevention and treatment of chronic diseases and the safety of ergogenic aids will be discussed.
Credits: 3.00

NFS 345 - Foods and Nutrition of World Cultures
Provides an understanding of the diversity of cultural food choices and their nutritional implications. Includes an emphasis on cultural groups in the United States and methods to provide nutrition education to culturally diverse groups.
Credits: 3.00

NFS 365 - Nutrition Laboratory: Food and Nutrient Analysis
Provides quantitative study of metabolism and observable effects of nutrient factors (vitamins, minerals, fats, carbohydrates, and proteins), using foods. This is a writing intensive course.
Credits: 4.00

NFS 370 - Foodservice Systems Management
In-depth analysis of food purchasing, financial management of foodservices, cost controls, marketing in foodservice, equipment layout and design, and management/leadership theories and applications.
Credits: 4.00

NFS 371 - Institutional Organization and Administration
Covers organization, administration, and application of managerial techniques in food-service systems; personnel training; job and person analysis; and morale and motivation. Includes field trips to food-service systems.
Credits: 3.00

NFS 391 - Community Nutrition
Studies nutrition services provided by national, state, and local governments and private organizations. Discusses nutritional needs-assessment techniques and program-development methods. Field trips will be made to community nutrition programs.
Credits: 4.00
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Junior
Pre-Junior
Sophomore
Pre-Requisites: NFS 203 Minimum Grade: D and PSY 320 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 415 - Advanced Nutrition I: Macronutrition
Covers biochemical and physiological topics of macronutrient metabolism, with emphasis on ingestion, digestion, absorption, and excretion of carbohydrate, protein, and lipid.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Pre-Requisites: NFS 203 Minimum Grade: D and PSY 320 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 416 - Advanced Nutrition II: Micronutrients
Provides in-depth study of vitamin and mineral absorption, metabolism, and degradation, with an emphasis on human health requirements and a thorough understanding of nutrient and dietary requirements.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Pre-Requisites: NFS 203 Minimum Grade: D and PSY 320 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 431 - Nutrition Counseling
Emphasizes nutrition-counseling techniques for use with individuals and small groups. Includes development of nutrition education materials as well as verbal and non-verbal communication skills.
Credits: 4.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
Must be enrolled in one of the following Major(s):
Nutrition and Food Science

Restrictions:
Must have the following Classification(s):
Senior
Pre-Requisites: NFS 443 Minimum Grade: D and PSY 342 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 443 - Medical Nutrition Therapy I
First of a three-course sequence examining the interrelationships of physiology, biochemistry, and nutrition as related to medical nutrition therapy. Emphasizes nutritional assessment and the role of nutrition in preventing and treating diseases/disorders: gastrointestinal diseases, diabetes, obesity, and cardiovascular disease.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Junior
Pre-Junior
Sophomore
Pre-Requisites: NFS 415 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 444 - Medical Nutrition Therapy II
Second of a three-course sequence examining the interrelationships of physiology, biochemistry, and nutrition as related to medical nutrition therapy. Emphasizes nutrition assessment and the role of nutrition in preventing and treating disease/disorders; disease of the liver, pancreas, and gallbladder; pulmonary disease; renal disease; cancer; HIV/AIDS; allergies, pediatric disease; and metabolic disturbances.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Junior
Pre-Junior
Sophomore
Pre-Requisites: NFS 416 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 445 - Medical Nutrition Therapy III
Third of a three-course sequence examining the interrelationships of physiology, biochemistry, and nutrition as related to severe/stressful conditions which require enteral or parenteral nutrition or other advanced medical nutrition therapies.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
NFS 446 - Perspectives World Nutrition
Examines world nutrition and food supply, including the nutritional status of various peoples, deficiency diseases, problems of food distribution, and other timely subjects.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Repeat Status: Not repeatable for credit

NFS 475 - Advanced Seminar in the Dietetics Profession
Reviews, evaluates, and synthesizes contemporary professional issues in dietetics.
Credits: 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Repeat Status: Not repeatable for credit

NFS 480 - Spec Studies Nutri & Food
Covers selected topics of interest. May be repeated for credit.
Credits: 12.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Repeat Status: Course can be repeated 99 time(s) for 998.90 credit(s)

NFS 494 - Senior Project I
First in a series of capstone courses in which students carry out the research process. In NFS 494, students work cooperatively to identify an applied, discipline oriented problem and then develop research hypotheses and a written research proposal in response to that problem.
Credits: 2.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must be enrolled in one of the following Major(s):
Nutrition and Food Science
Must have the following Classification(s):
Senior
Repeat Status: Not repeatable for credit

NFS 495 - Senior Project II
Second in a series of capstone course in which students carry out the research process. In NFS 495, students work cooperatively to carry out the research objectives according to the research proposal developed in NFS 494.
Credits: 2.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: NFS 494 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 496 - Senior Project III
Third in a series of capstone course in which students carry out the research process. In NFS 496, students work cooperatively to document the finding of their research in NFS 495. Students make oral and poster presentations as well as produce a written report of their research results.
Credits: 2.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: NFS 495 Minimum Grade: D
Repeat Status: Not repeatable for credit

NFS 497 - Research
Provides individual research in nutrition under faculty supervision.
Credits: 1.00 to 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
NFS 498 - Independent Study
Provides individual study or research in nutrition under faculty supervision.
Credits: 1.00 to 3.00
College: Nursing & Health Professions
Department: Nutrition Sciences
Restrictions:
May not be enrolled in one of the following Program Level(s):
Continuing Education
May not have the following Classification(s):
Freshman
Repeat Status: Course can be repeated 3 time(s) for 9.00 credit(s)

Physiology Courses

PHGY 325 - Physiology
Presentation of organ function with emphasis on the integration of neural and humoral control mechanisms.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 101 Minimum Grade: D and ANAT 102 Minimum Grade: D and ANAT 103 Minimum Grade: D
Repeat Status: Not repeatable for credit

PHGY 382 - Pathophysiology for Health Professions
Introduction to disturbances of normal function and basic mechanisms involved in diseases of major organ systems. Presentation of the general aspects of the common human pathophysiological conditions and syndromes.
Credits: 5.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Must be enrolled in one of the following Major(s):
Nursing (Online)
Pre-Requisites:
Repeat Status: Not repeatable for credit

Radiologic Sciences Courses

RADI 100 - Introduction to Radiologic Technology
Content is designed to provide a fundamental background in ethics. The student examines a variety of ethical issues and dilemmas found in clinical practice. An introduction to legal terminology, concepts and principles. Topics include malpractice, misconduct and the ASRT scope of practice.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

RADI 102 - Introduction to Radiologic Principles II
Introduction to Radiologic Principles II is a continuation of RADI 100 to include medical terminology. An orientation to the understanding of radiographic order and interpretation of diagnostic reports.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 100 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 132 - Radiologic Physics I
Radiologic Physics I begins with a review of basic mathematics and measurements, then proceeds to investigate the atom, electricity, magnetism electrostatics, electromagnetism, motors, and generators.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: MATH 100 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 133 - Radiologic Physics II
Radiologic Physics II provides a detailed study of the characteristics of X radiation, production of X radiation, the X-ray tube, and circuitry.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 132 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 150 - Principles of Radiographic Exposure I
Principles of Radiographic Exposure I provides an understanding of factors that govern and influence the production of radiographic images. Also presents accessory equipment and its effects on image quality.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
RADI 153 - Principles of Radiographic Exposure II
This course is designed to familiarize the student with the pertinent factors involved in radiographic quality. Radiographic equipment involved in daily use is studied and applications to the clinical setting are made.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 150 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 154 - Radiographic Exposure III
A continuation of RADI 153 to include processing of radiographic films. Processing procedures and artifacts are discussed.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 153 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 164 - Radiologic Procedures I
A thorough presentation of positioning nomenclature, body planes, and anatomic terms, then proceeds to positioning technique for routine chest abdominal studies and the upper extremities.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

RADI 165 - Radiographic Procedures II
A continuation of RADI 164 to include lower extremities.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: RADI 196
Pre-Requisites: RADI 164 Minimum Grade: C and RADI 195 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 166 - Radiographic Procedures III
A continuation of RADI 165 to include vertebral column and bony thorax.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 165 Minimum Grade: C and RADI 196 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 193 - Methods of Patient Care I
Discusses principles, techniques, and procedures of patient care with particular emphasis on nursing situations routinely encountered in the radiology department.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

RADI 194 - Methods of Patient Care II
This course is continuation of RADI 193. This course includes pediatrics, geriatrics, pharmacology, drug administration and alternative medical treatments.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 193 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 195 - Clinical Practicum I
Introduces the student to the Department of Diagnostic Radiology, including rotations through fluoroscopy, general radiology, trauma unit, and operating suite as well as some clerical areas.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: RADI 150, RADI 164
Repeat Status: Not repeatable for credit

RADI 196 - Clinical Practicum II
Continues the clinical experience in the Department of Diagnostic Radiology. Allows students to continue to refine their clinical skills
through second rotations in areas of the department. Requires students to perform most examinations with direct supervision. Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 195 Minimum Grade: C and RADI 164 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 197 - Clinical Practicum III
Gives the students the opportunity to strengthen their clinical skills. Increases student independence as the course progresses, allowing them to move from direct supervision into areas of indirect supervision. Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 196 Minimum Grade: C and RADI 165 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 198 - Clinical Practicum IV
Clinical Practicum IV provides students indirect supervision and greater responsibility for patients and equipment. Begins rotations through specialty areas such as radiation therapy, computed tomography, and MRI. Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 197 Minimum Grade: C and RADI 154 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 200 - Radiologic Procedures IV
Skull radiography to include facial bones and orbits, mandible, sinuses and salivary glands. Contrast studies of the urinary upper and lower intestinal tract. Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 166 Minimum Grade: C and RADI 198 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 201 - Medical Imaging
Medical Imaging surveys the various modes of imaging and recording radiographic examinations, including fluoroscopy, computed tomography, ultrasound, digital subtraction, magnetic resonance and digital and PAC’s systems. Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Repeat Status: Not repeatable for credit

RADI 202 - Radiologic Procedures V
Continuation of RADI 200 to include an overview of CAT scan, MRI and ultrasound Trauma radiology and special procedures are included in this course. Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 200 Minimum Grade: C and RADI 291 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 203 - Principles of Exposure IV
Presents a complete review of exposure factors including an investigation of the theory and application of these factors as they relate to body habitus, tissue absorption and pathological changes. Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 154 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 204 - Principles of Radiation Protection
Principles of Radiation Protection provides a detailed study of the procedures and devices developed for maximum protection of patients and personnel from radiation. Discusses government agencies along with their standards and regulations. Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 133 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 215 - Radiation Biology
Presents the effects of radiation on cells and the factors affecting cell response. Discusses somatic and genetic effects, both acute and chronic.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 103 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 221 - Quality Assurance
Introduces the evaluation of radiographic systems to ensure consistent production of quality images. Explains test procedures for evaluating equipment and discusses state and federal regulations.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 154 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 222 - Pathology
Surveys the nature and causes of medical-surgical diseases, with emphasis on the radiographic considerations of disease processes.
Credits: 3.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: ANAT 103 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 223 - Registry Review
Prepares the radiologic technology student to sit for the American Registry of Radiologic Technology Examination.
Credits: 1.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Co-Requisites: RADI 221, RADI 293
Pre-Requisites: RADI 292 Minimum Grade: C and RADI 204 Minimum Grade: C and RADI 202 Minimum Grade: C and RADI 201 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 291 - Clinical Practicum V
Second year course providing a transition into the clinical environment. Gives students indirect supervision and greater responsibility for patients and equipment. Begins rotation through specialty areas such as radiation therapy, computed tomography.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 198 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 292 - Clinical Practicum VI
Continues the clinical experience in general areas as well as specialty areas of diagnostic imaging. Requires students to perform examinations with indirect supervision.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 291 Minimum Grade: C and RADI 200 Minimum Grade: C
Repeat Status: Not repeatable for credit

RADI 293 - Clinical Practicum VII
The final clinical experience, in which students work to perfect all clinical skills. Includes final-competency testing.
Credits: 2.00
College: Nursing & Health Professions
Department: SHP - Radiology Techn
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: RADI 292 Minimum Grade: C and RADI 202 Minimum Grade: C
Repeat Status: Not repeatable for credit

Statistics Courses

STS 345 - Statistics for the Health Sciences
Covers statistical measures; binomial, normal, t, F, and chi-square distributions; elementary probability theory; quality control; and hypothesis testing with an emphasis on application to the health-care professions.
Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following College(s)/School(s):
Nursing & Health Professions
Repeat Status: Not repeatable for credit

STS 350 - Advanced Statistics for Clinical Science
This course focuses on the statistical methods that are appropriate for clinical research. The subject of medical research and common clinical
trials designed are introduced. The use of NCSS and SAS statistical software is initiated during a review of basic statistic methods. Advanced statistical methods used in clinical trials are also covered.

Credits: 4.00
College: Nursing & Health Professions
Department: Health Sciences
Restrictions:
Must be enrolled in one of the following Program Level(s):
Undergraduate Quarter
Pre-Requisites: STS 345 Minimum Grade: D
Repeat Status: Not repeatable for credit
