Undergraduate

College of Medicine (MS)

Emergency Medicine (EMMD) (p. 2)
Family Medicine (FAMD) (p. 2)
Medicine (MEDI) (p. 4)
Neurology (NEUL) (p. 4)
Obstetrics & Gynecology (OBGY) (p. 4)
Office of Medical Education (OMED) (p. 4)
Orthopedics (ORTH) (p. 4)
Otolaryngology (OTOL) (p. 5)
Pathology (PATH) (p. 5)
Pediatrics (PEDS) (p. 5)
Pre-Medical (PMED) (p. 5)
Psychiatry (PSYC) (p. 7)
Surgery (SURG) (p. 7)

COM School of Biomedical Sciences & Professional Studies (QQ)

Biochemistry (BIOC) (p. 2)
Human Lactation Consultant (CHLC) (p. 3)
Medical Science Preparatory (MSPP) (p. 3)
Pre-Medical (PMED) (p. 5)

Biochemistry

Courses

BIOC 400S Biochemistry 4.0 Credits
Biochemistry is the essential basis for understanding metabolic and disease processes at the biochemical and molecular levels. Because of its importance as a foundation to medicine, biochemistry is going to be a major focus of the MCAT, beginning with the test in the summer of 2015. The course, which will be taught at Drexel University College of Medicine, by College of Medicine faculty, will cover the topics in general biochemistry, with a particular focus on those topics that are to be included on the new MCAT.

College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

BIOC T480S Special Topics in Biochemistry 0.0-12.0 Credits
Topics decided upon by faculty will vary within the area of study.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Can be repeated multiple times for credit

Emergency Medicine

Courses

EMMD S124S Advance Emergency Medicine 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

EMMD S252S Virtual Emergency Med*** 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

EMMD S314S Emergency Care Ultrasound 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

Family Medicine

Courses

FAMD S224S REPRODUCTIVE HEALTH 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

FAMD S244S REPRODUCTIVE HEALTH 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

FAMD S444S Environmental & Occup Hlth 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

FAMD S454S Aerospace Medicine 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit
Human Lactation Consultant

Courses

CHLC 205S Introduction to Human Lactation 2.0 Credits
This course will provide a foundation in breastfeeding and human lactation, including breastfeeding education and promotion during the prenatal period, successful initiation of breastfeeding, prevention of many common pitfalls, and ongoing breastfeeding support. This course covers the fifteen specific areas required by Baby Friendly USA for all nurses working in prenatal and perinatal areas in Baby-Friendly Hospitals.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

CHLC 305S Clinical Issues in Human Lactation I 2.0 Credits
The focus of this course will be to understand clinical aspects of the lactating parent including in-depth maternal assessment and composition of human milk. Emphasis will be on first recognizing normal anatomy and physiology and then exploring presentations of the difficulties that lactating parent may encounter. The course will examine the effects of maternal characteristics as well as the effects of birth on breastfeeding outcomes. Strategies to improve breastfeeding success will be discussed.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

CHLC 355S Clinical Issues in Human Lactation II 2.0 Credits
The focus of this course will be to understand clinical aspects of the breastfeeding infant and the use of human milk, including in-depth infant and the changing composition of human milk as the infant’s needs change. Emphasis will be on first recognizing normal anatomy and physiology and then exploring presentations of the difficulties that breastfeeding dyads encounter. The course will examine the effects of infant anatomy and characteristics as well as the effects of birth on breastfeeding outcomes. Strategies to improve breastfeeding success will be discussed.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

CHLC 405S Public Policy of Breastfeeding 2.0 Credits
This course will examine the barriers to optimal breastfeeding using a socio-ecologic framework. Participants will gain a better understanding of the different factors that influence breastfeeding behaviors. Strategies to more effectively protect, promote and support breastfeeding will be discussed.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

CHLC 485S Clinical Internship in Lactation for Pathway 2 1.0-8.0 Credit
Lactation Supervised Practice is designed to prepare competent, entry-level lactation consultants who will be eligible to sit the International Board Lactation Consultant Examination by completing Pathway 2. The course will provide appropriate experiences to practice the roles of lactation consultant under the supervision of a preceptor.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Can be repeated 7 times for 64 credits

Medical Science Preparatory

Courses

MSPP 400S Advanced Topics in Chemistry I 4.0 Credits
This review course in general and organic chemistry will contain a review of chemical calculations and theory in topics such as stoichiometry, gas laws, thermodynamics, electrochemistry, equilibria, and pH. Atomic theory and bonding will also be reviewed. The semester ends with a discussion of the stereochemistry of organic molecules.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

MSPP 401S Advanced Topics in Chemistry II 4.0 Credits
This review course in organic chemistry will investigate reaction mechanisms, spectroscopy, qualitative organic chemistry, and laboratory techniques.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

MSPP 402S Advanced Topics in Physics I 4.0 Credits
This course covers classical physics as applied to the kinematics and dynamics of static and of moving bodies.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

MSPP 403S Advanced Topics in Physics II 4.0 Credits
This course covers classical physics as applied to: fluids, vibrations, waves, electricity, magnetism and optics.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

MSPP 404S Concepts in Science and Verbal Reasoning I 6.0 Credits
This is a didactic course with weekly preparations for the Verbal Reasoning and Writing, Physical Sciences and Biological Sciences of the Medical College Admissions Test. Incorporated into the course are approximately six mock MCAT exams for practice.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
MSPP 405S Concepts in Science and Verbal Reasoning II 6.0 Credits
This is a didactic course with weekly preparations for the Verbal Reasoning and Writing, Physical Sciences and Biological Sciences of the Medical College Admissions Test. Incorporated into the course are approximately six mock MCAT exams for practice.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

MSPP T480S Special Topics in Medical Science Preparatory 0.0-12.0 Credits
Topics decided upon by faculty will vary within the area of study.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Can be repeated multiple times for credit

Medicine

Courses
MEDI S123S Inpatient Medicine Elective 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

MEDI S124S INPATIENT MEDICINE 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

MEDI S264S Advanced Medicine 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

MEDI S342S MEDICAL ONCOLOGY - 2 WKS (S/U) 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

MEDI S492S CARDIOLOGY TEACHING LAB-HARVEY 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

Obstetrics & Gynecology

Courses
OBGY S154S High Risk Obstetrics 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

OBGY S164S Outpatient Subinternship 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

OBGY S252S Family Planning*** 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

OBGY S254S OBGYN-Family Planning 0.0 Credits
College/Department: College of Medicine
Repeat Status: Can be repeated multiple times for credit

OBGY S464S Multi-Speciality GYN SURG 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

OBGY S494S Minimally Invasive GYN Surgery 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

Office of Medical Education

Courses
OMED S112S Strategic & Financial Mgmt 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

Orthopedics

Courses
ORTH S114S Advanced Clerkship in Orthoped 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

ORTH S134S Adult Orthopaedics 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

ORTH S144S Musculoskeletal Trauma 0.0 Credits
College/Department: College of Medicine
Repeat Status: Can be repeated multiple times for credit

ORTH S192S Orthopaedic Trauma*** 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

ORTH S194S Orthopaedics Elective 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

Neurology

Courses
NEUL S132S NEUROLOGY ELECTIVE-2WKS 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

NEUL S174S Neurocritical Care 0.0 Credits
College/Department: College of Medicine
Repeat Status: Can be repeated multiple times for credit

NEUL S194S Neurology Consult Service 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit

NEUL S214S Advanced Neurology Elective 0.0 Credits
College/Department: College of Medicine
Repeat Status: Not repeatable for credit
ORTH S212S Hand Surgery*** 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Can be repeated 10 times for NaN credits

ORTH S214S Hand Surgery 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

ORTH S242S Orthopaedics: Spine Surgery*** 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

ORTH S244S Orthopaedics: Spine Surgery 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Can be repeated 10 times for NaN credits

ORTH S294S Trauma and Fracture Service 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

ORTH S394S Combined Orthopaedics 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Can be repeated multiple times for credit

Otolaryngology

Courses

OTOL S114S Adult&Pediatric Otolaryngology 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

OTOL S124S Otorhinolaryngology 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

OTOL S164S Combined Otolaryngology 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

Pediatrics

Courses

Peds S204S Pediatric Rehabilitation 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

Peds S384S Pediatric Oncology 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

Peds S444S Pediatric Acting Internship 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

Peds S484S Adolesc./Peds Gastroenterology 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

Peds S492S Pediatric Neurosurgery 0.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit

Pre-Medical

Courses

Pmed 111S General Chemistry I 3.0 Credits  
College/Department: COM School of Biomedical Sciences Professional Studies  
Repeat Status: Not repeatable for credit  
Restrictions: Can enroll if major is PMED.

Pmed 112S General Chemistry I Lab 1.0 Credit  
The aim is to provide an introduction to the principles of general chemistry that will give the student a command of its concepts and language. The semester course will cover within the time limitations topics organized around the four major themes: • Foundations of general chemistry including the physical state, atomic structure/theory • Fundamentals of molecular structure and bonding • Types of reactions • Thermodynamics.  
College/Department: COM School of Biomedical Sciences Professional Studies  
Repeat Status: Not repeatable for credit  
Restrictions: Can enroll if major is PMED.  
Corequisite: Pmed 111S

Pmed 114S Concepts in Chemistry I 4.0 Credits  
College/Department: College of Medicine  
Repeat Status: Not repeatable for credit  
Restrictions: Can enroll if major is PMED.

Pmed 121S General Physics I 3.0 Credits  
College/Department: COM School of Biomedical Sciences Professional Studies  
Repeat Status: Not repeatable for credit  
Restrictions: Can enroll if major is PMED.
PMED 122S General Physics I Lab 1.0 Credit
This course is the first recitation lab portion of a four-course algebra-based sequence providing a comprehensive introduction to physics. This course provides students with laboratories and discussions consisting of hands-on experiences using technical equipment on campus, everyday household items at home, and computer simulations at home. Topics include kinematics, mechanics, waves, sound, and fluids.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Corequisite: PMED 121S

PMED 131S General Physics II 3.0 Credits
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

PMED 132S General Chemistry II Lab 1.0 Credit
The aim is to provide an introduction to the principles of general chemistry that will give the student a command of its concepts and language. The semester course will cover within the time limitations topics organized around the four major themes: Foundations of general chemistry including the solutions, solids and intermolecular bonding; Fundamentals of reaction equilibrium, acid-base chemistry and chemical kinetics; Familiarize students with entropy and electron transfer reactions; Foundations of nuclear medicinal chemistry, polymer and inorganic chemistry in society.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.
Prerequisites: PMED 111S [Min Grade: C]
Corequisite: PMED 131S

PMED 141S General Physics II 3.0 Credits
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

PMED 142S General Physics II Lab 1.0 Credit
PMED 142S is the second recitation lab part of a four-course algebra-based sequence providing a comprehensive introduction to physics for pre-medical students. This course provides students with laboratories consisting of hands-on experiences using technical equipment on campus, everyday household items at home, and computer simulations at home. Topics include electricity, magnetism, light, optics, heat, thermodynamics, and radioactivity.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Prerequisites: PMED 121S [Min Grade: C] and PMED 122S [Min Grade: C]
Corequisite: PMED 141S

PMED 151S College Algebra & Trigonometry 3.0 Credits
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.

PMED 211S General Biology I 3.0 Credits
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.

PMED 212S General Biology I Lab 1.0 Credit
Students will be able to formulate hypotheses, become familiar with the scientific method, retain information about the basic principles of biology. At the end of this course, you should be able to present your findings in a clear, written format and have a strong knowledge of biological concepts and how to apply them in a lab setting.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.
Corequisite: PMED 211S

PMED 221S Organic Chemistry I 3.0 Credits
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.

PMED 222S Organic Chemistry I Lab 1.0 Credit
The aim is to provide an introduction to the principles of organic chemistry that will give the student a command of its concepts and language. The semester course will cover within the time limitations topics organized around the four major themes: Foundations of organic chemistry including solubility, solids and intermolecular bonding; Fundamentals of acid-base chemistry, extraction, purification and analysis; Familiarize students with monitoring reactions using thin layer chromatography; Emphasize Techniques in determining product purity and identification, using instruments such as FTIR, UV/Vis, GC, melting point apparatus. The course allows for the familiarization of naming of compounds and allows an understanding of the behavior of various functional groups as discussed in lecture.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Prerequisites: PMED 131S [Min Grade: C]
Corequisite: PMED 221S

PMED 231S General Biology II 3.0 Credits
This course is the second semester of the PMED general biology series. This course delves into the concepts of genetics, inheritance, evolution, and biodiversity. Specifically, we will learn about the molecular basis of inheritance, how genes encode proteins, the principles of genetics, and some of the techniques used to study molecular biology. We will then study the principles of evolution and biodiversity. Additionally, plants, photosynthesis and vertebrate evolution will also be explored.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.
PMED 232S General Biology II Lab 1.0 Credit
This is the second semester of PMED General Biology. This recitation lab will include discussions about immunology, molecular biology, evolution, and population speciation. The experiments that will be conducted will support the concepts that are introduced in the lecture portion of the course.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Prerequisites: PMED 211S [Min Grade: C]
Corequisite: PMED 231S

PMED 240S Conceptual Reviews in General and Organic Chemistry 3.0 Credits
The intention of the course shall be to serve as a course concentrating on select topics in general chemistry and organic chemistry as required for the current MCAT requirements. The instruction shall be covered by the instructor along with input by a TA(s) to bridge the gap between biology, physics and chemistry. In this way, the students leave with a more holistic view of the concepts to be discussed with breadth and depth, and how these different disciplines come together to explain observations. Where possible case studies shall be used to apply the concepts taught to put them into application.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Prerequisites: PMED 111S [Min Grade: C] and PMED 112S [Min Grade: C] and PMED 131S [Min Grade: C] and PMED 132S [Min Grade: C] and PMED 221S [Min Grade: C] and PMED 222S [Min Grade: C] and PMED 241S [Min Grade: C] and PMED 242S [Min Grade: C]

PMED 241S Organic Chemistry II 3.0 Credits
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Restrictions: Can enroll if major is PMED.

PMED 242S Organic Chemistry II Lab 1.0 Credit
The aim is to provide an introduction to the principles of organic chemistry that will give the student a command of its concepts and language. The semester course will cover within the time limitations topics organized around the four major themes: Foundations of organic synthesis and spectroscopic tools; Functional group characteristics and reactivity; Conjugated pi Systems and aromaticity; Introduction to organometallic chemistry.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit
Prerequisites: PMED 221S [Min Grade: C]
Corequisite: PMED 241S

PMED 250S Molecular Biology & Biochemistry 3.0 Credits
This course will provide an introduction to the principles of biochemistry that will give the student a command of its concepts and language. Major themes will include foundations of biochemistry, structure and catalysis, bioenergetics and metabolism, and information pathways.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Not repeatable for credit

PMED T180S Special Topics in Pre-Medical 0.0-12.0 Credits
Topics decided upon by faculty will vary within the area of study.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Can be repeated multiple times for credit

PMED T280S Special Topics in Pre-Medical 0.0-12.0 Credits
Topics decided upon by faculty will vary within the area of study.
College/Department: COM School of Biomedical Sciences Professional Studies
Repeat Status: Can be repeated multiple times for credit
